

A photograph of a man and a woman on the deck of a sailboat. The woman, on the left, has long blonde hair and is wearing a black tank top, smiling. The man, on the right, has a grey beard and is wearing a white shirt and a straw hat, looking towards the camera. The background shows the boat's rigging, a blue tarp, and a body of water with green hills in the distance.

It is a rapid snapshot of the state of the art of solar sail technology in 2013 across the globe capturing flight programs technology development programs and new technology and application concepts. The book contains contributions from all of the leading figures in the field including NASA JAXA ESA DLR as well as university and industry experts. It therefore provides a unique reference point for the solar sail technology. The book also includes key contributions from the prospective users of solar sail technology which will allow the technology to be considered by the user in this unique context      Monthly Catalog of United States Government Publications , 1998      **Robotic Sailing 2013** Fabrice Le Bars, Luc Jaulin, 2013-08-15 An autonomous sailboat robot is a boat that only uses the wind on its sail as propelling force without remote control or human assistance to achieve its mission. This involves autonomy in energy using batteries solar panels turbines sensor data processing compass GPS wind sensor actuators control rudder and sail angle control and decision making embedded computer with adequate algorithms. Although robotic sailing is a relatively new field of research several applications exist for this type of robots: oceanographic and hydrographic research maritime environment monitoring meteorology harbor safety assistance and rescue in dangerous areas. Over the last decade several events such as the Microtransat challenge the WRSC IRSC and SailBot have been set up to stimulate research and development around robotic sailing. These proceedings cover the current and future academic and technology challenges raised by the development of autonomous sailboat robots presented at the WRSC IRSC World Robotic Sailing Championship International Robotic Sailing Conference 2013 in Brest France 2-6 September 2013      Sailing Prowess: Enhancing Your Sailing Skills Through On-Land Training Pasquale De Marco, 2025-07-10 Set sail on a voyage of discovery with *Sailing Prowess: Enhancing Your Sailing Skills Through On Land Training* the ultimate guide to mastering the art of sailing whether you're a seasoned sailor or embarking on your maiden voyage.
