Saint Augustines Confessions The Odyssey Of Soul:

St. Augustine's Confessions Robert J. O'Connell,1969 *Saint Augustine and the Fall of the Soul* Ronnie J.

Rombs,2006 Saint Augustine and the Fall of the Soul Beyond O Connell and His Critics provides first a critical examination of O Connell s theses in a readable summary of his work that spanned over thirty years *Encounters with God in Augustine's Confessions* Carl G. Vaught,2004-07-15 This reappraisal of the middle section of Augustine s Confessions covers the period of Augustine s conversion to Christianity The author argues against the prevailing Neoplatonic interpretation of Augustine

St. Augustine's Confessions Robert J. O'Connell (s.j.),1989 **The Journey toward God in Augustine's Confessions**

Carl G. Vaught,2012-02-01 This detailed discussion of Augustine s journey toward God as it is described in the first six books of the Confessions begins with infancy moves through childhood and adolescence and culminates in youthful maturity In the first stage Augustine deals with the problems of original innocence and sin in the second he addresses a pear stealing episode that recapitulates the theft of the forbidden fruit in the Garden of Eden and confronts the problem of sexuality with which he wrestles until his conversion and in the third he turns toward philosophy only to be captivated successively by dualism skepticism and Catholicism Augustine s journey exhibits temporal spatial and eternal dimensions and combines his head and his heart in equal proportions Vaught shows that the Confessions should be interpreted as an attempt to address the person as a whole rather than through our intellectual or volitional dimensions exclusively The passion with which Augustine describes the end of his journey is reflected best in a sentence found in the opening chapter of the text You have made us for yourself and our heart is restless until it rests in you Interpreting this statement Carl G Vaught presents a more emphatically Christian Augustine than is usually found in contemporary scholarship Refusing to view Augustine in an exclusively Neoplatonic framework Vaught holds that Augustine baptizes Plotinus just as successfully as Aquinas baptizes Aristotle It cannot be denied that Ancient philosophy influences Augustine decisively Nevertheless he holds the experiential and the theoretical dimensions of his journey toward God together as a distinctive expression of the Christian tradition

Plotinus and Augustine on the Mid-Rank of Soul Joseph Torchia, OP,2023-03-27 In Plotinus and Augustine on the Mid Rank of Soul Navigating Two Worlds Joseph Torchia OP explores the mid rank of the soul theme in Plotinus and Augustine with a special focus on its metaphysical epistemological and moral implications for each thinker s intellectual outlooks For both human existence assumes the character of a prolonged journey or an extended voyage Augustine infuses Plotinus vision of reality with a profound theological significance rooted in the ontological difference between God and creatures As a rational creature the soul stands mid way between God and corporeal natures between eternity and temporality This book encompasses two parts Part I addresses the significance that Plotinus attributes to the soul s mid rank within the broader context of his understanding of universal order and Part II delineates Augustine s interpretation of the intermediary status of the soul with an ongoing reference to his spiritual and intellectual peregrinatio as recounted in the

Confessions *The Conversion and Therapy of Desire* Mark J Boone, 2017-08-31 The first fruits of the literary career of St Augustine the great theologian and Christian philosopher par excellence are the dialogues he wrote at Cassiciacum in Italy following his famous conversion in Milan in AD 386 These four little books largely neglected by scholars take up the ancient philosophical project of identifying the principles and practices that heal human desires in order to attain happiness renewing this philosophical endeavour with insights from Christian theology Augustine's later books such as the Confessions would continue this project of healing desire as would the writings of others including Boethius Anselm and Aquinas Mark J Boone's *The Conversion and Therapy of Desire* investigates the roots of this project at Cassiciacum where Augustine is developing a Christian theology of desire informed by Neoplatonism but transformed by Christian teaching and practices

Feminist Interpretations of Augustine Judith Chelius Stark, 2010-11-01 *The Birth of Philosophic Christianity* Ernest L. Fortin, 1996 In Volume One of Ernest Fortin Collected Essays the renowned theologian and political philosopher examines various facets of the unique encounter between biblical religion and Greek philosophy during the early Christian centuries and the Middle Ages Fortin's aim is to uncover the crucial issues to which this encounter gave rise such as the sometimes troubling but immensely fruitful tension between divine revelation and philosophic reason The book includes sections on St Augustine and the refounding of Christianity the encounter between Jerusalem and Athens the medieval roots of Christian education and Dante and the politics of Christendom **Exploring Personhood** Joseph Torchia, 2008 Explores the metaphysical underpinnings of theories of human nature personhood and the self This book moves from the Pre Socratics to Postmodernism assessing what transpired during the intervening 2500 year period with a focus on the contributions of the Aristotelian Thomistic tradition of inquiry *Concrete Time and Concrete Eternity* Li Qu, 2014-02-14 This publication investigates how Karl Barth's doctrine of time and eternity can contribute to the continued understanding of the relationship of divine eternity to time or temporality Examining from a theological philosophical and physical perspective with deep emphasis on the Trinity as well as Barth's Christology and pneumatology the author helps us to understand his theory on time and eternity Barth's contribution to the subject is significant with his doctrine of time and eternity being relational in ontology Trinitarian in background and concrete in character *Images and Ideas in Literature of the English Renaissance* Patrick Grant, 2015-12-22 **Metaphor, Analogy, and the Place of Places** Carl G. Vaught, 2004 Vaught identifies the place where religion and philosophy meet and he does so in constant conversation with Augustine Hegel Heidegger and Jaspers Vaught argues that both religious and philosophical discourse assume one of four modes figurative analytical systematic and analogical Any real innovation occurs by moving from one mode of discourse to another Vaught also explores the relationship among space time and place as well as mystery power and structure Remarkably Vaught shows how the category of place serves as the intersection of both triads In the end place is the orientation that guides the discussions of Being and God where philosophy and religion are joined **Doctrines of Human Nature, Sin, and Salvation in the**

Augustine and the Catechumenate William Harmless, 1995 St Augustine 354-430 a theologian whose views and controversies shaped the course of Christianity in the West was also a struggling North African pastor who had a flair for teaching and who meditated deeply on the complexities of the human heart This study examines a little known side of Augustine his work as a teacher of candidates for baptism It reconstructs the experience of the ancient catechumenate The portrait is relevant to all those involved with the RCIA pastors DREs catechists liturgists

The Universal Way of Salvation in the Thought of Augustine Thomas P. Harmon, 2024-06-27 This work examines Augustine's critique of his Roman predecessors to reveal key aspects of Christ's mediation of the universal way of salvation Porphyry of Tyre had noticed that Christianity can make a claim that pagan religion and pagan philosophy cannot that all types of human being can be saved through the one salvific action of Christ mediated sacramentally through the one Catholic Church Augustine's response to Porphyry is grounded firmly on Christology especially on what Augustine sees to be the unique act of Christ as mediator based in turn on Christ's unique position as true God and true man which in turn is capable of healing the whole man and by healing the whole man also healing each of the parts of the soul Christ himself as concretely universal is capable of saving each and any type of human being no matter which part of the soul rules within him Augustine counters which is not a claim his pagan interlocutors can replicate In addition to careful considerations of ancient authors like Plato Cicero Varro and Porphyry this book also ranges through Plutarch Shakespeare and contemporary political thinkers like Pierre Manent and Leo Strauss scholars of religion such as Michael Bland Simmons theologians such as Erik Peterson and Ernest L Fortin as well as well known Augustine scholars such as James Wetzel G R Evans John Cavadini Robert Dodaro Mary Keys Michael Foley Rowan Williams Oliver O Donovan John Rist and many others

Reason, Authority, and the Healing of Desire in the Writings of Augustine Mark J. Boone, 2020-01-14 In Reason Authority and the Healing of Desire in the Writings of Augustine Mark Boone explains

Augustine's theology of desire in a cross section of his writings. He shows that Augustine's writings consistently teach a Platonically informed yet distinctively Christian theology of desire. **Confession** Jeremy Tambling, 1990 **Ratio et Fides** Robert E. Wood, 2018-10-09 In the face of growing skepticism and relativism, believe in reason is the central message in Pope John Paul II's *Fides et Ratio*. Only by the two wings of reason and faith together can the human spirit soar. The current work *Ratio et Fides* is its philosophical counterpart. It is not a watered-down introduction but a leading into the heart of philosophical thinking. Firmly rooted in the phenomenological description of an ordinary artifact, a mailbox, the book uses the principles involved in the description to examine key figures in the history of thought. We focus on three areas: the Soul, Morality, and God. We consider seven thinkers: Plato and Aristotle, who founded the tradition; were taken up by Augustine and Aquinas in developing their theologies; Descartes launched the distinctively modern tradition; culminating in Hegel's systematic presentation of the whole Western tradition, philosophical and religious. More recently, Heidegger approached that tradition in terms of its hidden ground in the Mystery of Being, recalling us to meditative thinking as the secular counterpart to prayer. Armed with this background, students will be able to approach with profit the Fathers of the Church and major theologians and philosophers past and recent. *The Birth of the Past* Zachary S. Schiffman, 2011-11-01 How we learned to distinguish past from present and see the world historically. Outstanding Academic Title Choice. How did people learn to distinguish between past and present? How did they come to see the past as existing in its own distinctive context? In *The Birth of the Past*, Zachary Sayre Schiffman explores these questions in his sweeping survey of historical thinking in the Western world. Today we automatically distinguish between past and present, labeling things that appear out of place as anachronisms. Schiffman shows how this tendency did not always exist and how the past, as such, was born of a perceived difference between past and present. Schiffman takes readers on a grand tour of historical thinking from antiquity to modernity. He shows how ancient historians could not distinguish between past and present because they conceived of multiple pasts. Christian theologians coalesced these multiple pasts into a single temporal space where past merged with present and future. Renaissance humanists began to disentangle these temporal states in their desire to resurrect classical culture, creating a living past. French enlighteners killed off this living past when they engendered a form of social scientific thinking that measured the relations between historical entities, thus sustaining the distance between past and present and relegating each culture to its own distinctive context. Featuring a foreword by the eminent historian Anthony Grafton, this fascinating book draws upon a diverse range of sources: ancient histories, medieval theology, Renaissance art, literature, legal thought, and early modern mathematics and social science, to uncover the meaning of the past and its relationship to the present.
