New History of the American West this book embodies the theme that as succeeding groups have occupied the American West and shaped the land they have done so without regard for present inhabitants Like the cowboy herding the dogies they have cared little about the cost their activities imposed on others what has mattered is the immediate benefit they have derived from their transformation of the land Drawing on a recent flowering of scholarship on the western environment western gender relations minority history and urban and labor history as well as on more traditional western sources It s Your Misfortune and None of My Own is about the creation of the region rather than the vanishing of the frontier Richard White tells how the various parts of the West its distinct environments its metropolitan areas and vast hinterlands the various ethnic and racial groups and classes are held together by a series of historical relationships that are developed over time Widespread aridity and a common geographical location between the Missouri River and the Pacific Ocean would have provided but weak regional ties if other stronger relationships had not been created A common dependence on the deferral government and common roots in a largely extractive and service based economy were formative influences on western states and territories A dual labor system based on race and the existence of minority groups with distinctive legal status have helped further define the region Patterns of political participation and political organization have proved enduring Together these relationships among people and between people and place have made the West a historical creation and a distinctive region From Europeans contact and subsequent Anglo American conquest through the civil rights movement the energy crisis and the current reconstructing of the national and world economies the West has remained a distinctive section in a much larger nation In the American imagination the West still embodies possibilities inherent in the vastness and beauty of the place itself But Richard White explains the possibilities many imagined for themselves have yielded to the possibilities seized by others Many who thought themselves cowboys have in the end turned out to be dogies Memory Fever Ray Gonzalez, 1999 For poet Ray Gonzalez growing up in El Paso during the 1960s was a time of loneliness and vulnerability He encountered discrimination in high school not only for being Latino but also for being a non athlete in a school where sports were important Like many young people he found diversion in music unlike most he found solace in the desert In these vignettes Gonzalez shares memories of boyhood that tell how he discovered the natural world and his creative spirit Through 29 storylike essays he takes readers into the heart of the desert and the soul of a developing poet Gonzalez introduces us to the people who shaped his life We learn of his father s difficulties with running a pool hall and of his grandmother s steadfast religious faith We meet sinister Texas Rangers hallucinatory poets illegal aliens and racist high school jocks His vivid recollections embrace lizard hunts and rattlesnake dreams rock music and menudo making all in stories that convey the pains and joys of growing up on the border As Gonzalez leads us through his desert of hope and vision we come to recognize the humor and sadness that permeate this special place The Home Missionary , 1890 No 3 of each volume contains the annual report and minutes of the annual meeting **Explorer's Guide Santa Fe & Taos: A Great Destination (Eighth**
