Saints And Role Models In Judaism And Christianity:

Saints and Role Models in Judaism and Christianity Marcel Poorthuis, Joshua J. Schwartz, 2004-01-01 This volume deals with the role of saints and exemplary individuals in Judaism and Christianity Although sharing the Hebrew Bible and recognizing the same Biblical figures there both religions have developed widely divergent perspectives upon the significance of these figures although there are occasional common motifs and themes Moreover even the contrasting themes betray an underlying interaction between both religions as is clear from the contributions on for example Melchizedek Elijah the Desert Fathers Rabbis on clothing the Apostle Peter in Jewish tradition the Maccabees in Christian tradition and the Biblical examples in Saint Antony the Hermit The book examines Jewish and Christian perspectives upon saints and role models from the Biblical period to the present time It will be of special importance to scholars and general readers interested in an interdisciplinary approach to theology rabbinics history art history and much more [Interaction Between Judaism and Christianity in History, Religion, Art, and Literature](#) Marcel Poorthuis, Joshua Jay Schwartz, Joseph Turner, 2009 This volume contains essays dealing with complex relationships between Judaism and Christianity taking a bold step assuming that no historical period can be excluded from the interactive process between Judaism and Christianity conscious or unconscious as either rejection or appropriation [Crossing Boundaries in Early Judaism and Christianity](#) Kimberley Stratton, Andrea Lieber, 2016-10-11 This volume celebrates the scholarship of Alan Segal During his prolific career Alan published ground breaking studies that shifted scholarly conversations about Christianity rabbinic Judaism Hellenism and Gnosticism Like the subjects of his research Alan crossed many boundaries He understood that religions do not operate in academically defined silos but in complex societies populated by complicated human beings Alan s work engaged with a variety of social scientific theories that illuminated ancient sources and enabled him to reveal new angles on familiar material This interdisciplinary approach enabled Alan to propose often controversial theories about Jewish and Christian origins A new generation of scholars has been nurtured on this approach and the fields of early Judaism and Christianity emerge radically redefined as a result **The Watchers in Jewish and Christian Traditions** Angela Kim Harkins, Kelley Coblentz Bautch, John C. Endres, 2014 At the origin of the Watchers tradition is the single enigmatic reference in Genesis 6 to the sons of God who had intercourse with human women producing a race of giants upon the earth That verse sparked a wealth of cosmological and theological speculation in early Judaism Here leading scholars explore the contours of the Watchers traditions through history tracing their development through the Enoch literature Jubilees and other early Jewish and Christian writings This volume provides a lucid survey of current knowledge and interpretation of one of the most intriguing theological motifs of the Second Temple period **A Guide to Early Jewish Texts and Traditions in Christian Transmission** Gabriele Boccaccini, Lorenzo DiTommaso, David Hamidovic, Michael E. Stone, 2019-10-04 The Jewish culture of the Hellenistic and early Roman periods established a basis for all monotheistic religions but its main sources have been

preserved to a great degree through Christian transmission This Guide is devoted to problems of preservation reception and transformation of Jewish texts and traditions of the Second Temple period in the many Christian milieus from the ancient world to the late medieval era It approaches this corpus not as an artificial collection of reconstructed texts a body of hypothetical originals but rather from the perspective of the preserved materials examined in their religious social and political contexts It also considers the other non Christian channels of the survival of early Jewish materials including Rabbinic Gnostic Manichaean and Islamic This unique project brings together scholars from many different fields in order to map the trajectories of early Jewish texts and traditions among diverse later cultures It also provides a comprehensive and comparative introduction to this new field of study while bridging the gap between scholars of early Judaism and of medieval Christianity

Late Antique Jewish and Christian Travelogues Reuven Kiperwasser, Aryeh Kofsky, Serge Ruzer, 2024-12-16 Focusing on travel narratives as a setting for spelling out both cultural exchanges and identity building the present volume maps a variety of strategies employed in travelogues by Christians and Jews in the late antique Roman East The first part sheds light on the shared cultural background folkloric or mythic reflected in late antique Jewish and Christian sea travel stories and the various attempts to adapt it to a specific religious agenda While the comparative analysis of the sources from two textual communities emphasizes their different religious agendas it also allows for restoring patterns of the broader background with which they converse The second part highlights Christian perceptions of the Land of Israel in missionary enterprises and in the eschatological visions The travelogues offer a window on the interplay between shared inheritance and new agendas within the dialectical development of religious traditions in Late Antiquity

The Specter of the Jews Ari Finkelstein, 2018-10-23 In the generation after Constantine the Great elevated Christianity to a dominant position in the Roman Empire his nephew the Emperor Julian sought to reinstate the old gods to their former place of prominence in the face of intense opposition from the newly powerful Christian church In early 363 c e while living in Syrian Antioch Julian redoubled his efforts to hellenize the Roman Empire by turning to an unlikely source the Jews With a war against Persia on the horizon Julian thought it crucial that all Romans propitiate the true gods and gain their favor through proper practice To convince his people he drew on Jews whom he characterized as Judeans using their scriptures institutions practices and heroes sometimes as sources for his program and often as models to emulate In *The Specter of the Jews* Ari Finkelstein examines Julian s writings and views on Jews as Judeans a venerable group whose religious practices and values would help delegitimize Christianity and surprisingly shape a new imperial Hellenic pagan identity

Stories of the Law Moshe Simon-Shoshan, 2012-04-01 Winner of Honorable Mention in the Jordan Schnitzer Book Awards of the Association for Jewish Studies Moshe Simon Shoshan offers a groundbreaking study of Jewish law halakhah and rabbinic story telling Focusing on the Mishnah the foundational text of halakhah he argues that narrative was essential in early rabbinic formulations and concepts of law legal process and political and religious authority The book begins by presenting a theoretical framework for considering the role of narrative in the Mishnah Drawing on a wide range of disciplines including narrative theory Semitic linguistics and comparative legal studies Simon Shoshan shows that law and narrative are inextricably intertwined in the Mishnah Narrative is central to the way in which the Mishnah transmits law and ideas about jurisprudence Furthermore the Mishnah s stories are the locus around which the Mishnah both constructs and critiques its concept of the rabbis as the ultimate arbiters of Jewish law and practice In the second half of the book Simon Shoshan applies these ideas to close readings of individual Mishnaic stories Among these stories are some of the most famous narratives in rabbinic literature including those of Honi the Circle drawer and R Gamliel s Yom Kippur confrontation with R Joshua In each instance Simon Shoshan elucidates the legal political theological and human elements of the story and places them in the wider context of the book s arguments about law narrative and rabbinic authority Stories of the Law presents an original and forceful argument for applying literary theory to legal texts challenging the traditional distinctions between law and literature that underlie much contemporary scholarship
