Salish Elders:

Jesintel Children of the Setting Sun Productions, 2021-06-02 Dynamic and diverse Coast Salish culture is bound together by shared values and relations that generate a resilient worldview Jesintel to learn and grow together characterizes the spirit of this book which brings the cultural teachings of nineteen elders to new generations Featuring interviews that share powerful experiences and stories Jesintel illuminates the importance of ethical reciprocal relationships and the interconnectedness of places land water and the spirit within all things Elders offer their perspectives on language revitalization Coast Salish family values and naming practices salmon sovereignty canoe racing and storytelling They also share traumatic memories including of their boarding school experiences and the epidemics that ravished their communities Jesintel highlights the importance of maintaining relations and traditions in the face of ongoing struggles Collaboration is at the heart of this work and informs how the editors and community came together to honor the boundless relations of Coast Salish people and their territories *Salish Elders* Wim Tewinkel, 2003 With stunning photographs and the subjects stories in their own words photographer Wim Tewinkel captures the lives lead by twenty one elders of the Lillooet Tribal Council member of the Interior Salish people **Seven Decades** Michael D. Gurven, 2025-09-16 An anthropologist uncovers new evidence for the evolutionary origins of human longevity and explains why growing old is an opportunity not a burden Our ability to live for decades may seem like a modern luxury made possible by clean water and advances in medicine In fact human longevity is a legacy of our unique evolutionary path as a species Seven Decades challenges the belief that life in the past was nasty brutish and short tracing how our capacity for long life came to be and transforming how we think about aging Blending vivid storytelling with cutting edge science anthropologist Michael Gurven weaves tales from his years of field experience among Indigenous societies whose diet and traditional lifeways are closer to how we all lived prior to industrialization demonstrating how these communities are relatively free of the chronic diseases of aging such as heart disease dementia and diabetes He provides compelling evidence that our longevity first evolved among our hunting and gathering ancestors and shows how the human body was built to last around seven decades At a time when people are more likely to live to old age than ever before Gurven discusses how we can harness this amazing evolutionary feat through a shift in societal values one that balances self reliance with interdependence nurtures multigenerational ties prioritizes women s health and longevity and enables us to rediscover the wisdom of our elders Sharing bold new perspectives on human ageing Seven Decades draws important lessons from our ancestral history bridging the past with the present to reveal what healthy happy and productive old age could look like for all generations *Issues in Aging* Mark Novak, 2018-02-02 Issues in Aging combines social psychological biological and philosophical perspectives to present a multifaceted picture of aging Novak illustrates both the problems and the opportunities that accompany older age This text helps students understand the tremendous variability in aging and introduces them to careers working with older adults This new edition reflects the

continued changes in the way we age The fourth edition has been updated to include emerging issues in aging These include the prevalence of HIV AIDs in later life current research on mental potential in old age the creation of age friendly cities and new options for end of life care Each chapter begins with a set of learning objectives to guide students in their reading and concludes with a list of main points questions for discussion or study suggested readings and relevant web sites to consult Each chapter also includes up to date charts and graphs as well as key terms to help students understand the issues presented Break out boxes reveal the human side of aging through the stories of individuals in real life and in the media

Oral History on Trial Bruce Granville Miller, 2024-03-20 In many western countries judicial decisions are based on black letter law text based well established law Within this tradition testimony based on what witnesses have heard from others known as hearsay cannot be considered as legitimate evidence This interdiction however presents significant difficulties for Aboriginal plaintiffs who rely on oral rather than written accounts for knowledge transmission This important book breaks new ground by asking how oral histories might be incorporated into the existing court system Through compelling analysis of Aboriginal legal and anthropological concepts of fact and evidence *Oral History on Trial* traces the long trajectory of oral history from community to court and offers a sophisticated critique of the Crown s use of Aboriginal materials in key cases A bold intervention in legal and anthropological scholarship this book is a timely consideration of an urgent issue facing Indigenous communities worldwide and the courts hearing their cases *Other Ways of Growing Old* Pamela T.

Amoss, Stevan Harrell, 1981 As anthropologists we offer this book about aging in a wide variety of human societies in the hope of its making three contributions First this book will help to remedy a massive neglect of old age by the discipline of anthropology The pioneering work of Leo Simmons 1945 has remained a lonely monument since the 1940 s for despite recent interest in the subject of aging in modern Western societies on the part of social gerontologists and sociologists little has been done by anthropologists on aging in non Western societies Where it has been treated at all it has been in the form either of a few final paragraphs in the discussion of the life cycle or of a simple ethnographic fact among other facts about a certain social system What has been missing has been any attempt to put aging in a cross cultural or comparative perspective to give this vital subject the same treatment that has been accorded marriage for example or death or inheritance or sex roles Second this book will bring a needed cross cultural perspective to the study of social gerontology The recent explosion of interest in this field has been largely confined to the study of aging in North America and Europe But we anthropologists feel that such a culturally limited study though interesting and productive in its own right is dangerously narrow if it does not consider what aging is like in other societies What aspects of aging for example are human universals and have to be planned for as inevitable and what aspects are cultural particulars and can be avoided modified or strengthened under certain social conditions By presenting both a biological account of the universals of human aging Weiss and specific ethnographic accounts of aging in a wide variety of societies we believe we can help to put North American

aging into perspective Third we hope this book will serve as an illustration of a particular anthropological approach to unity and diversity in human societies and cultures Perhaps the main task of sociocultural anthropology is a twofold one the explanation of cross cultural universals somehow rooted either in the biological nature of the human species or in universal imperatives of social organization and the explanation of intercultural variations rooted in a dialectical interaction between culture and the material conditions partially created by culture in which it exists If unity and diversity can indeed be explained in this way the cross cultural study of aging can serve as a paradigm By first setting out what seem to be the universals determined by the biology of the human species and by then exploring the range of variation in cultural solutions we ought to be able to formulate a set of principles that will allow us to explain why variations occur in a certain way Nine ethnographic case studies are enough we believe to enable us to formulate some preliminary hypotheses about the nature and causes of variation in the social process of aging

The Green Depression Matthew M. Lambert, 2020-10-16 Dust storms Flooding The fear of nuclear fallout While literary critics associate authors of the 1930s and 40s with leftist political and economic thought they often ignore concern in the period s literary and cultural works with major environmental crises To fill this gap in scholarship author Matthew M Lambert argues that depression era authors contributed to the development of modern environmentalist thought in a variety of ways Writers of the time provided a better understanding of the devastating effects that humans can have on the environment They also depicted the ecological and cultural value of nonhuman nature including animal predators and pests Finally they laid the groundwork for environmental justice by focusing on the social effects of environmental exploitation To show the reach of environmentalist thought during the period the first three chapters of *The Green Depression* American Ecoliterature in the 1930s and 1940s focus on different geographical landscapes including the wild rural and urban The fourth and final chapter shifts to debates over the social and environmental effects of technology during the period In identifying modern environmental ideas and concerns in American literary and cultural works of the 1930s and 40s *The Green Depression* highlights the importance of depression era literature in understanding the development of environmentalist thought over the twentieth century This book also builds upon a growing body of scholarship in ecocriticism that describes the unique contributions African American and other nonwhite authors have made to the environmental justice movement and to our understanding of the natural world

Crossing Mountains Phyllis Ngai, 2012-03-16 Collaboration among contemporary Native American communities and local public schools is vital for nurturing Native languages Although public schools cannot bear the entire burden Native language education will remain on the margins without their support Using case studies of school districts on the Flathead Indian Reservation in Montana *Crossing Mountains* provides important insights about integrating Native language learning into public education Phyllis Ngai argues that carefully designed and inclusive Native language programs can benefit communities and students regardless of ethnic identity by providing for language revitalization and promoting intercultural

competence *Passing it on*, 2008-01-01 The Flathead Indian Reservation in western Montana is home to the Salish Pend d Oreille and Kootenai Indian people Between 2005 and 2006 author Maggie Plummer listened to a cross section of voices representing the tribes on the reservation and published profiles in the tribal newspaper the Char Koosta News This book collects these interviews and preserves a slice of the recent history of the Flathead Reservation community **Dictionary of Upriver Halkomelem** Brent Douglas Galloway, 2009-09 An extensive dictionary almost 1800 pages of the Upriver dialects of Halkomelem an Amerindian language of B C giving information from almost 80 speakers gathered by the author over a period of 40 years Entries include names and dates of citation dialect information phonological morphological syntactic and semantic information domain memberships of each allophone examples of use in sentences and much cultural information

Decolonizing Research Jo-ann Archibald Q'um Q'um Xiiem, Jenny Bol Jun Lee-Morgan, Jason De Santolo, 2019-05-15 From Oceania to North America Indigenous peoples have created storytelling traditions of incredible depth and diversity The term Indigenous storywork has come to encompass the sheer breadth of ways in which Indigenous storytelling serves as a historical record as a form of teaching and learning and as an expression of Indigenous culture and identity But such traditions have too often been relegated to the realm of myth and legend recorded as fragmented distortions or erased altogether Decolonizing Research brings together Indigenous researchers and activists from Canada Australia and New Zealand to assert the unique value of Indigenous storywork as a focus of research and to develop methodologies that rectify the colonial attitudes inherent in much past and current scholarship By bringing together their own indigenous perspectives and by treating Indigenous storywork on its own terms the contributors illuminate valuable new avenues for research and show how such reworked scholarship can contribute to the movement for Indigenous rights and self determination **A Two-Spirit Journey** Ma-nee Chacaby, 2016-05-03 Winner of Canada Reads 2025 From her early often harrowing memories of life and abuse in a remote Ojibwa community Ma Nee Chacaby's extraordinary story is one of enduring and ultimately overcoming the social and economic legacies of colonialism As a child Chacaby learned spiritual and cultural traditions from her Cree grandmother and trapping hunting and bush survival skills from her Ojibwa stepfather She also suffered physical and sexual violence and in her teen years became an alcoholic herself At twenty Chacaby took her children and fleeing an abusive marriage moved to Thunder Bay Despite the abuse racism and indifference she often found there Chacaby marshalled the strength and supports to help herself and others Over the following decades she achieved sobriety trained and worked as an alcoholism counsellor raised her children and fostered many others learned to live with visual impairment and came out as a lesbian In 2013 Chacaby led the first gay pride parade in Thunder Bay Ma Nee Chacaby has emerged from hardship grounded in faith compassion and humour Her memoir provides unprecedented insights into the challenges still faced by many Indigenous people *Ancient Pathways, Ancestral Knowledge* Nancy J. Turner, 2014-06-01 Volume 1 The History and Practice of Indigenous Plant Knowledge Volume 2 The Place and Meaning of Plants in Indigenous Cultures and

Worldviews Nancy Turner has studied Indigenous peoples knowledge of plants and environments in northwestern North America for over forty years In *Ancient Pathways Ancestral Knowledge* she integrates her research into a two volume ethnobotanical tour de force Drawing on information shared by Indigenous botanical experts and collaborators the ethnographic and historical record and from linguistics palaeobotany archaeology phytogeography and other fields Turner weaves together a complex understanding of the traditions of use and management of plant resources in this vast region She follows Indigenous inhabitants over time and through space showing how they actively participated in their environments managed and cultivated valued plant resources and maintained key habitats that supported their dynamic cultures for thousands of years as well as how knowledge was passed on from generation to generation and from one community to another To understand the values and perspectives that have guided Indigenous ethnobotanical knowledge and practices Turner looks beyond the details of individual plant species and their uses to determine the overall patterns and processes of their development application and adaptation Volume 1 presents a historical overview of ethnobotanical knowledge in the region before and after European contact The ways in which Indigenous peoples used and interacted with plants for nutrition technologies and medicine are examined Drawing connections between similarities across languages Turner compares the names of over 250 plant species in more than fifty Indigenous languages and dialects to demonstrate the prominence of certain plants in various cultures and the sharing of goods and ideas between peoples She also examines the effects that introduced species and colonialism had on the region s Indigenous peoples and their ecologies Volume 2 provides a sweeping account of how Indigenous organizational systems developed to facilitate the harvesting use and cultivation of plants to establish economic connections across linguistic and cultural borders and to preserve and manage resources and habitats Turner describes the worldviews and philosophies that emerged from the interactions between peoples and plants and how these understandings are expressed through cultures stories and narratives Finally she explores the ways in which botanical and ecological knowledge can be and are being maintained as living adaptive systems that promote healthy cultures environments and indigenous plant populations *Ancient Pathways Ancestral Knowledge* both challenges and contributes to existing knowledge of Indigenous peoples land stewardship while preserving information that might otherwise have been lost Providing new and captivating insights into the anthropogenic systems of northwestern North America it will stand as an authoritative reference work and contribute to a fuller understanding of the interactions between cultures and ecological systems

Applying Indigenous Research Methods Sweeney Windchief, Timothy San Pedro, 2019-01-10 *Applying Indigenous Research Methods* focuses on the question of How Indigenous Research Methodologies IRMs can be used and taught across Indigenous studies and education In this collection Indigenous scholars address the importance of IRMs in their own scholarship while focusing conversations on the application with others Each chapter is co authored to model methods rooted in the sharing of stories to strengthen relationships such as yarning storywork and others The chapters offer a wealth of

specific examples as told by researchers about their research methods in conversation with other scholars teachers and community members Applying Indigenous Research Methods is an interdisciplinary showcase of the ways IRMs can enhance scholarship in fields including education Indigenous studies settler colonial studies social work qualitative methodologies and beyond *Tribal Water Rights* John E. Thorson, Sarah Britton, Bonnie G. Colby, 2016-08-08 The settlement of Indian water rights cases remains one of the thorniest legal issues in this country particularly in the West In a previous book *Negotiating Tribal Water Rights* Colby Thorson and Britton presented a general overview of the processes involved in settling such cases this volume provides more in depth treatment of the many complex issues that arise in negotiating and implementing Indian water rights settlements *Tribal Water Rights* brings together practicing attorneys and leading scholars in the fields of law economics public policy and conflict resolution to examine issues that continue to confront the settlement of tribal claims With coverage ranging from the differences between surface water and groundwater disputes to the distinctive nature of Pueblo claims and from allotment related problems to the effects of the Endangered Species Act on water conflicts the book presents the legal aspects of tribal water rights and negotiations along with historical perspectives on their evolution

Troubling Tricksters Deanna Reder, Linda M. Morra, 2010-02-10 *Troubling Tricksters* is a collection of theoretical essays creative pieces and critical ruminations that provides a re visioning of trickster criticism in light of recent backlash against it The complaints of some Indigenous writers the critique from Indigenous nationalist critics and the changing of academic fashion have resulted in few new studies on the trickster For example *The Cambridge Companion to Native American Literature* 2005 includes only a brief mention of the trickster with skeptical commentary And in 2007 Anishinaabe scholar Niigonwedom Sinclair a contributor to this volume called for a moratorium on studies of the trickster irrelevant to the specific experiences and interests of Indigenous nations One of the objectives of this anthology is then to encourage scholarship that is mindful of the critic s responsibility to communities and to focus discussions on incarnations of tricksters in their particular national contexts The contribution of *Troubling Tricksters* therefore is twofold to offer a timely counterbalance to this growing critical lacuna and to propose new approaches to trickster studies approaches that have been clearly influenced by the nationalists call for cultural and historical specificity *Black Robes Enter Coyote's World* Sally Thompson, 2024-12 *Black Robes Enter Coyote's World* brings to life the complicated history of Jesuit missionaries among Montana s Native peoples a saga of encounter accommodation and resistance during the transformative decades of the mid to late nineteenth century Sally Thompson tells the story of how Jesuit values played out in the lives of the Bitterroot Salish people The famous Black Robe Jesuit Father Pierre Jean De Smet actually spent little time among his beloved Flatheads Instead he traveled extensively between the Pacific and the Rockies mapping the pathways and noting the valuable resources His popular writings helped spark the westward movement of white settlers Thompson picks up the story of the Salish peoples and black robed missionaries at a Potawatomi mission on the Missouri in 1839 and follows their intertwined

experiences throughout the lifetime of Salish chief Charlo who eventually cursed the day white immigrants came into his country Chief Charlo attributed the missionaries disconnected beliefs and exploitative actions to their status as orphans rejected from their place of creation as he had learned from the story of Eden Despite Charlo's valiant efforts to protect his homeland the Salish endured a forced removal from their beloved Bitterroot Valley to the Flathead Reservation in 1891 Charlo died in 1910 just before the massive giveaway of more than half of the Salish's treaty guaranteed lands through implementation of the Allotment Act Despite it all his people endure In this up close account of the Bitterroot Salish people during the lifetime of Chief Charlo Thompson examines the fundamental differences in the ways Euro Americans and Native Americans related to land and nature Indigenous Storywork Jo-Ann Archibald, 2008-06-01 Indigenous oral narratives are an important source for and component of Coast Salish knowledge systems Stories are not only to be recounted and passed down they are also intended as tools for teaching Jo-Ann Archibald worked closely with Elders and storytellers who shared both traditional and personal life experience stories in order to develop ways of bringing storytelling into educational contexts Indigenous Storywork is the result of this research and it demonstrates how stories have the power to educate and heal the heart mind body and spirit It builds on the seven principles of respect responsibility reciprocity reverence holism interrelatedness and synergy that form a framework for understanding the characteristics of stories appreciating the process of storytelling establishing a receptive learning context and engaging in holistic meaning making First Nations Cultural Heritage and Law Catherine Bell, Val Napoleon, 2009-01-01 First Nations Cultural Heritage and Law explores First Nations perspectives on cultural heritage and issues of reform within and beyond Western law Written in collaboration with First Nation partners it contains seven case studies featuring indigenous concepts legal orders and encounters with legislation and negotiations a national review essay three chapters reflecting on major themes and a self reflective critique on the challenges of collaborative and intercultural research Although the volume draws on specific First Nation experiences it covers a wide range of topics of concern to Inuit Metis and other indigenous peoples The Handbook of Contemporary Indigenous Architecture Elizabeth Grant, Kelly Greenop, Albert L. Refiti, Daniel J. Glenn, 2018-06-26 This Handbook provides the first comprehensive international overview of significant contemporary Indigenous architecture practice and discourse showcasing established and emerging Indigenous authors and practitioners from Australia Aotearoa New Zealand the Pacific Islands Canada USA and other countries It captures the breadth and depth of contemporary work in the field establishes the historical and present context of the work and highlights important future directions for research and practice The topics covered include Indigenous placemaking identity cultural regeneration and Indigenous knowledges The book brings together eminent and emerging scholars and practitioners to discuss and compare major projects and design approaches to reflect on the main issues and debates while enhancing theoretical understandings of contemporary Indigenous architecture The book is an indispensable resource for scholars students policy makers and other professionals seeking to understand the ways in

which Indigenous people have a built tradition or aspire to translate their cultures into the built environment It is also an essential reference for academics and practitioners working in the field of the built environment who need up to date knowledge of current practices and discourse on Indigenous peoples and their architecture
