Study of Iceland's Nobel prize winning novelist and his works Light in the Dark Björn Norðfjörð, 2025-02-24

Light in the Dark tells the dramatic history of Icelandic cinema from its modest origin in the early twentieth century to the heterogeneous and complex national cinema of today. In tracing this wide-ranging history, author Björn Norðfjörð describes the constant tug between local and national cultural forces and the transnational and global pull of world cinema. Norðfjörð starts by casting light on the earliest films made in the country, expanding outward to survey Scandinavians' adaptations of Icelandic literature filmed during the late silent period, documentaries of the interwar period, and the first narrative features following the end of World War II and national independence. He traces the emergence of national cinema proper to the 1980s with the foundation of the Icelandic Film Fund, explores the subsequent impact of first European art cinema and then Hollywood genre cinema, and finally considers the remarkable international success of Icelandic cinema in the twentieth-first century. Along the way, Norðfjörð draws attention to many additional issues and topics regarding Icelandic cinema, including depictions of nature and animals, the aesthetics of fire and ice, the role of film adaptation, the impact of Nordic noir and crime fiction, Hollywood runaway productions, and the question of women's cinema in Icelandic filmmaking. Throughout the book, films from all periods of Icelandic filmmaking are analysed in detail with equal emphasis on content and form, including both lesser-known titles and key films like *The Outlaw and His Wife* (Victor Sjöström, 1917), *Salka Valka* (Arne Mattsson, 1954), *Land and Sons* (Sigurður Guðmundsson, 1980), *When the Raven Flies* (Hrafn Gunnlaugsson, 1984), *Cold Fever* (Friðrik Friðriksson, 1995), *101 Reykjavík* (Baltasar Kormákur, 2015), *Rams* (Grímur Hkonarson, 2015), and *Godland* (Hlynur Pálmason, 2022).

Intersecting Worlds Jenna Grace Sciuto, 2025-01-15

Intersecting Worlds Colonial Liminality in US Southern and Icelandic Literatures recalibrates readings of US southern and American writers by exploring comparable depictions of race, colonialism, whiteness, gender, and sexuality in Icelandic literature. This book explores the liminality, ambiguity, and general unease that result when postcolonial theories are applied to both Iceland and the US South. It investigates the parallels and also the limitations to such comparisons with the labels and binaries created to represent colonial dynamics, flattening the complex positionings of Iceland and the US South. Iceland, an independent nation since 1944, has a complex colonial history. As a former dependency of Denmark that endured a US military presence from 1941 to 2006, Iceland's global positioning invites comparisons to formerly colonized spaces. At the same time, Iceland's history and geopolitical location differ from other colonized nations, which were subject to brutal violence and dehumanizing practices. This comparative project investigates Iceland's colonial liminality and draws connections to the colonial ambiguity of the US South, depicted as colonized by the federal government during Reconstruction, and the site of the colonization of the Black population through slavery and its later iterations. Exploring the work of US southern writers like William Faulkner, Gayl Jones, Jean Toomer, and Carson McCullers alongside twentieth-century Icelandic novelists including

Northern Lights B. J. Epstein, 2009 This volume is a collection of essays based on papers given at the Nordic Translation Conference which took place in London in March 2008 The purpose of the collection is twofold First it serves to place the Nordic languages firmly into the field of translation studies where hitherto little research has focused on the Nordic region the essays include many Nordic specific studies and ideas Second the book presents research and conclusions which are relevant to translation studies in all languages and cultures Therefore this volume which covers a wide range of Nordic languages and both literary and non literary topics is unambiguously pertinent to the Nordic countries while also being universally valuable The Oxford Guide to Literature in English Translation Peter France, 2000 This guide highlights the

place of translation in our culture encouraging awareness of the process of translating and the choices involved making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Hungarian Korean to Turkish For some works e.g. Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available **Scandinavian-Canadian Studies** Association for the Advancement of Scandinavian Studies in Canada. Managing Crises and De-Globalisation Sven-Olof Olsson, 2009-12-16 As small open economies the Nordic states have always been more dependent on foreign trade than larger powers and have thus had a historic preference for free trade But during the inter war period the Nordic countries were squeezed between powerful and aggressive trading partners above all Great Britain and Germany Although the period between the end of the First World War and 1929 was marked by a return to a liberal world economy the Great Depression ushered in a decade of protectionism The bilateralisation of international trade was especially evident after Britain's Ottawa treaties in 1932 and the Nazi seizure of power in 1933 Their dependence on trade with Britain and Germany meant that the Nordic countries were exposed to the full force of British and German bilateralism The paradox is that in spite of international trade wars and regulated exchange the Nordic countries managed better than other European states during the interwar period and that the Great Depression was not as deep or long lasting as in other countries The chapters in this book discuss why and how this rather successful Nordic experience was achieved The topics covered include commercial and monetary policies but also important industries such as forestry agriculture and fishing Many of the chapters are comparative and discuss economic developments in two or more Nordic countries *Catalogue of the Icelandic Collection Bequeathed by Willard Fiske* Cornell University. Responsible Selves Kevat Nousiainen, Asa Gunnarsson, Johanna Niemi-Kiesilinen, Karin Lundström, 2018-12-20 This title was first published in 2001 In the Nordic countries women are considered equal to men Advanced social and economic rights are often given as the explanation for the equality In this volume Nordic feminist legal scholars give a more contradictory image of gender equality The gendered construction of the legal subject and the legal understanding of gender have a two pronged potential both to change and to reproduce gender relations Nordic women have been considered responsible for upholding the gendered social system as responsible selves rather than as individuals engaged in rights discourse The authors claim with examples that the belief in equality has made certain discriminative practices difficult to recognize and conceptualize Also a transformation of the social welfare system puts the collective equality policies to the test
