Sally Hemings & Thomas Jefferson Jan Lewis, Peter S. Onuf, 1999 The DNA tests would not have been conducted had there not already been strong historical evidence for the possibility of a relationship As historians from Winthrop D Jordan to Annette Gordon Reed have argued much more is at stake in this liaison than the mere question of paternity historians must ask themselves if they are prepared to accept the full implications of our complicated racial history a history powerfully shaped by the institution of slavery and by sex across the color line

Race Mixing Suzanne W. Jones, 2006-02-15 In the southern United States there remains a deep need among both black and white writers to examine the topic of race relations whether they grew up during segregation or belong to the younger generation that graduated from integrated schools In Race Mixing Suzanne

Jones offers insightful and provocative readings of contemporary novels the work of a wide range of writers black and white established and emerging Their stories explore the possibilities of cross racial friendships examine the repressed history of interracial love reimagine the Civil Rights era through children s eyes herald the reemergence of the racially mixed character investigate acts of racial violence and interrogate both rural and urban racial dynamics Employing a dynamic model of the relationship between text and context Jones shows how more than thirty relevant writers including Madison Smartt Bell Larry Brown Bebe Moore Campbell Thulani Davis Ellen Douglas Ernest Gaines Josephine Humphreys Randall Kenan Reynolds Price Alice Walker and Tom Wolfe illuminate the complexities of the color line and the problems in defining racial identity today While an earlier generation of black and white southern writers challenged the mythic unity of southern communities in order to lay bare racial divisions Jones finds in the novels of contemporary writers a challenge to the mythic sameness within racial communities and a broader definition of community and identity Closely reading these stories about race in America Race Mixing ultimately points to new ways of thinking about race relations We need these fictions Jones writes to help us imagine our way out of the social structures and mind sets that mythologize the past fragment individuals prejudice people and divide communities

Slavery in the Age of Memory

Ana Lucia Araujo, 2020-10-15 Exploring notions of history collective memory cultural memory public memory official memory and public history Slavery in the Age of Memory Engaging the Past explains how ordinary citizens social groups governments and institutions engage with the past of slavery and the Atlantic slave trade It illuminates how and why over the last five decades the debates about slavery have become so relevant in the societies where slavery existed and which participated in the Atlantic slave trade The book draws on a variety of case studies to investigate its central questions How have social actors and groups in Europe Africa and the Americas engaged with the slave past of their societies Are there any relations between the demands to rename streets of Liverpool in England and the protests to take down Confederate monuments in the United States How have black and white

social actors and scholars influenced the ways slavery is represented in George Washington's Mount Vernon and Thomas Jefferson's Monticello in the United States. How do slave cemeteries in Brazil and the United States and the walls of names of Whitney Plantation speak to other initiatives honoring enslaved people in England and South Africa? What shared problems and goals have led to the creation of the International Slavery Museum in Liverpool and the National Museum of African American History and Culture in Washington DC? Why have artists used their works to confront the debates about slavery and its legacies? The important debates addressed in this book resonate in the present day. Arguing that memory of slavery is racialized and gendered, the book shows that more than just attempts to come to terms with the past, debates about slavery are associated with the persistent racial inequalities, racism, and white supremacy which still shape societies where slavery existed. *Slavery in the Age of Memory: Engaging the Past* is thus a vital resource for students and scholars of the Atlantic world, the history of slavery, and public history.

Notorious in the Neighborhood Joshua D. Rothman, 2003. In this study of interracial sex in antebellum Virginia, Rothman examines a wide range of relationships between whites and free people of color and whites and slaves, between black women and white men and between black men and white women, and the complicated responses these relationships inspired.

Public Affairs Paul Apostolidis, Juliet A. Williams, 2004-01-14. Collection of essays analyzing political sex scandals and U.S. political culture from a variety of theoretical angles, including feminism, cultural studies, Marxist critical theory, queer theory, and critical race theory.

A Hideous Monster of the Mind Bruce Dain, 2002. Scientific racism and the idea of races as cultural constructions were thus interrelated aspects of the same effort to explain human differences.

The Ever-Changing Past James M. Banner, Jr., 2021-02-16. An experienced multi-faceted historian shows how revisionist history is at the heart of creating historical knowledge. A rallying cry in favor of historians who revisiting past subjects change their minds. Rewarding reading. *Kirkus Reviews*: History is not and has never been inert; certain, merely factual, and beyond reinterpretation. Taking readers from Thucydides to the origin of the French Revolution to the Civil War and beyond, James M. Banner Jr. explores what historians do and why they do it. Banner shows why historical knowledge is unlikely ever to be unchanging, why history as a branch of knowledge is always a search for meaning and a constant source of argument, and why history is so essential to individuals' awareness of their location in the world and to every group and nation's sense of identity and destiny. He explains why all historians are revisionists while they seek to more fully understand the past and how they always bring their distinct

minds dispositions perspectives and purposes to bear on the subjects they study **Martha Jefferson Randolph** Cynthia A. Kierner, 2012 Martha Jefferson Randolph Daughter of Monticello *Ties That Bound* Marie Jenkins Schwartz, 2017-04-06

Behind every great man stands a great woman And behind that great woman stands a slave Or so it was in the households of the Founding Fathers from Virginia where slaves worked and suffered throughout the domestic environments of the era from Mount Vernon Monticello and Montpelier to the nation's capital American icons like Martha Washington Martha Jefferson and Dolley Madison were all slaveholders And as Marie Jenkins Schwartz uncovers in *Ties That Bound* these women as the day to day managers of their households dealt with the realities of a slaveholding culture directly and continually even in the most intimate of spaces Unlike other histories that treat the stories of the First Ladies slaves as separate from the lives of their mistresses *Ties That Bound* closely examines the relationships that developed between the First Ladies and their slaves For elite women and their families slaves were more than an agricultural workforce slavery was an entire domestic way of life that reflected and reinforced their status In many cases slaves were more constant companions to the white women of the household than were their husbands and sons who often traveled or were at war By looking closely at the complicated intimacy these women shared Schwartz is able to reveal how they negotiated their roles illuminating much about the lives of slaves themselves as well as class race and gender in early America By detailing the prevalence and prominence of slaves in the daily lives of women who helped shape the country Schwartz makes it clear that it is impossible to honestly tell the stories of these women while ignoring their slaves She asks us to consider anew the embedded power of slavery in the very earliest conception of American politics society and everyday domestic routines **Thomas Jefferson, Time, and History** Hannah Spahn, 2011-12-06 Beginning with the famous opening to the Declaration of Independence When in the course of human events almost all of Thomas Jefferson's writings include creative stylistically and philosophically complex references to time and history Although best known for his forward looking statements envisioning future progress Jefferson was in fact deeply concerned with the problem of coming to terms with the impending loss or fragmentation of the past As Hannah Spahn shows in *Thomas Jefferson Time and History* his efforts to promote an exceptionalist interpretation of the United States as the first nation to escape from the crimes and calamities of European history were complicated both by his doubts about the outcome of the American experiment and by his skepticism about the methods and morals of eighteenth century philosophical history Spahn approaches the conundrum of Jefferson's Janus faced equally forward and backward oriented thought by discussing it less as a matter of personal contradiction and paradox than as the expression of a late Newtonian Enlightenment in a period between ancient and modern modes of explaining change in time She follows Jefferson in his creation of an influential narrative of American and global history over the course of half a century opening avenues into a temporal and historical imagination that was different from ours and offering new assessments of the solutions Jefferson and his generation found or failed to find to central moral and political problems like slavery The Repeating Body Kimberly

Juanita Brown, 2015-08-27 Haunted by representations of black women that resist the reality of the body's vulnerability Kimberly Juanita Brown traces slavery's afterlife in black women's literary and visual cultural productions Brown draws on black feminist theory visual culture studies literary criticism and critical race theory to explore contemporary visual and literary representations of black women's bodies that embrace and foreground the body's vulnerability and slavery's inherent violence She shows how writers such as Gayl Jones Toni Morrison Audre Lorde and Jamaica Kincaid along with visual artists Carrie Mae Weems and Mar a Magdalena Campos Pons highlight the scarred and broken bodies of black women by repeating passing down and making visible the residues of slavery's existence and cruelty Their work not only provides a corrective to those who refuse to acknowledge that vulnerability but empowers black women to create their own subjectivities In *The Repeating Body* Brown returns black women to the center of discourses of slavery thereby providing the means with which to more fully understand slavery's history and its penetrating reach into modern American life **American Education** Wayne J. Urban, Jennings L. Wagoner, Jr., 2013-08-15 *American Education A History* 5e is a comprehensive highly regarded history of American education from pre colonial times to the present Chronologically organized it provides an objective overview of each major period in the development of American education setting the discussion against the broader backdrop of national and world events The first text to explore Native American traditions including education prior to colonization it also offers strong ongoing coverage of minorities and women New to this much anticipated fifth edition is substantial expanded attention to the discussions of Native American education to reflect recent scholarship the discussion of teachers and teacher leaders and the educational developments and controversies of the 21st century **The Elephant in the Room** Eviatar Zerubavel, 2006-04 Citing the fable of the Emperor's New Clothes as a classic example of a situation where everyone refuses to acknowledge an obvious truth Zerubavel sheds new light on the social and political underpinnings of silence and denial the keeping of open secrets **The Hemingses of Monticello** Annette Gordon-Reed, 2009-08-25 This epic work tells the story of the Hemingses a slave family whose close blood ties to American president Thomas Jefferson had been systematically edited out from American history until very recently This book sets the family's compelling saga against the backdrop of Revolutionary America Paris on the eve of its own revolution 1970s Philadelphia and plantation life at Monticello Much anticipated this book promises to be the most important history of an American slave family ever written **To Begin the World Anew** Bernard Bailyn, 2007-12-18 Two time Pulitzer Prize winning historian Bernard Bailyn has distilled a lifetime of study into this brilliant illumination of the ideas and world of the Founding Fathers In five succinct essays he reveals the origins depth and global impact of their extraordinary creativity The opening essay illuminates the central importance of America's provincialism to the formation of a truly original political system In the chapters following he explores the ambiguities and achievements of Jefferson's career Benjamin Franklin's changing image and supple diplomacy the circumstances and impact of the Federalist Papers and the continuing influence of American constitutional thought

throughout the Atlantic world To Begin the World Anew enlivens our appreciation of how America came to be and deepens our understanding of the men who created it "Miscegenation" Elise Lemire, 2010-08-03 In the years between the Revolution and the Civil War as the question of black political rights was debated more and more vociferously descriptions and pictorial representations of whites coupling with blacks proliferated in the North Novelists short story writers poets journalists and political cartoonists imagined that political equality would be followed by widespread inter racial sex and marriage Legally possible yet socially unthinkable this amalgamation of the races would manifest itself in the perverse union of whites with blacks the latter figured as ugly animal like and foul smelling In Miscegenation Elise Lemire reads these literary and visual depictions for what they can tell us about the connection between the racialization of desire and the social construction of race Previous studies of the prohibition of interracial sex and marriage in the U S have focused on either the slave South or the post Reconstruction period Looking instead to the North and to such texts as the Federalist poetry about Thomas Jefferson and Sally Hemings James Fenimore Cooper s Last of the Mohicans Edgar Allan Poe s Murders in the Rue Morgue and the 1863 pamphlet in which the word miscegenation was first used Lemire examines the steps by which whiteness became a sexual category and same race desire came to seem a biological imperative
