heart disease

Watch out for hidden salt

75% (three-quarters) of the salt we eat is hidden in processed foods and foods we eat out.

Did you know there's salt in cakes and biscuits, bread and breakfast cereals?

5 tips to cut down on salt

• Eat less processed food – eat fresh and cook your own meals from scratch.

• Flavour your food with garlic, pepper, herbs and spices or a squeeze of lemon instead of salt.

• When eating out, ask the chef to hold back on the salt, or ask what low-salt dishes they offer.

• Watch out for hidden salt in sauces, such as tomato ketchup and pasta sauces – choose low-salt versions.

• Check food labels. A food that's high in salt has more than 1.5g salt per 100g whereas a low-salt option has 0.3g salt or less per 100g.
