Salton Sea Yesterday Today:

Material Dreams Kevin Starr, 1990 In *Material Dreams* Starr turns to one of the most vibrant decades in the Golden State's history the 1920s when some two million Americans migrated to California the vast majority settling in or around Los Angeles Although he treats readers to intriguing side trips to Santa Barbara and Pasadena Starr focuses here mainly on Los Angeles revealing how this major city arose almost defiantly on a site lacking many of the advantages required for urban development creating itself out of sheer will the Great Gatsby of American cities He describes how William Ellsworth Smyth the Peter the Hermit of the Irrigation Crusade propounded the importance of water in Southern California's future and how such figures as the self educated Irish engineer William Mulholland who built the main aqueducts to Los Angeles and George Chaffey who diverted the Colorado River transforming desert into the lush Imperial Valley brought life supporting water to the arid South He examines the discovery of oil Yes it's oil oil oil that makes LA boil went the official drinking song of the Uplifters Club the boosters and land developers the evangelists such as Bob Shuler the Methodist Savanarola of Los Angeles and Aimee Semple McPherson and countless other colorful figures of the period There are also fascinating sections on the city's architecture such as the remarkably innovative Bradbury Building and its eccentric neophyte designer George Wyman the impact of the automobile on city planning the great antiquarian book collections the Hollywood film community and much more By the end of the decade Los Angeles had tripled in population and become the fifth largest city in the nation In *Material Dreams* Kevin Starr captures this explosive growth in a narrative tour de force that combines wide ranging scholarship with captivating prose

The Bureau of Reclamation: Origins and growth to 1945 William D. Rowley, 2006 On cover Reclamation Managing Water in the West Tells the history of the Bureau of Reclamation from 1902 1945 **Big**

Dams of the New Deal Era David P. Billington, Donald C. Jackson, 2017-04-20 The massive dams of the American West were designed to serve multiple purposes improving navigation irrigating crops storing water controlling floods and generating hydroelectricity Their construction also put thousands of people to work during the Great Depression Only later did the dams baneful effects on river ecologies spark public debate **Big Dams of the New Deal Era** tells how major water storage structures were erected in four western river basins David P Billington and Donald C Jackson reveal how engineering science regional and national politics perceived public needs and a river's natural features intertwined to create distinctive dams within each region In particular the authors describe how two federal agencies the Army Corps of Engineers and the Bureau of Reclamation became key players in the creation of these important public works By illuminating the mathematical analysis that supported large scale dam construction the authors also describe how and why engineers in the 1930s most often opted for massive gravity dams whose design required enormous quantities of concrete or earth rock fill for stability Richly illustrated **Big Dams of the New Deal Era** offers a compelling account of how major dams in the New Deal era restructured the landscape both politically and physically and why American society in the 1930s embraced them wholeheartedly

Hearings United States. Congress. House. Committee on Interior and Insular Affairs, 1962 *Aeolian Features of Southern California* Ronald Greeley, 1978 **Air quality issues in the Coachella Valley** United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Energy and Air Quality, 2004 **Historic Spots in California** Douglas E. Kyle, Hero Eugene Rensch, Ethel Grace Rensch, Mildred Brooke Hoover, William Abeloe, 2002-09-06 The only complete guide to the historical landmarks of California this standard work has now been thoroughly revised and updated The edition is enriched by some 200 photographs most of which were taken by the reviser and all of which are new to this edition Since the last revision in 1990 enormous changes have taken place within the state many landscapes and buildings have been greatly altered and some are no longer in existence Every effort has been made through personal observation to record the present condition of the landmarks and to provide clear and accurate descriptions of their locations The text is written with the idea that the reader might use the book while traveling around the state and thus mileage and signposts have been given where it was thought helpful For this new edition the reviser has added additional information on the state s geography the presence of Native Americans and state and local museums To provide historical background the reviser has written a short historical overview The chapters of the book are organized by county in alphabetical order A rough chronology is followed for each county beginning with pertinent facts on geography continuing with Native American life the coming of the Spaniards and other Europeans the American conquest of the 1840s and in those areas where it had a major impact the gold rush The text then continues into the period of intensive agricultural development railroads industrialization the growth of cities the effects of World War II and on into more recent times The bibliography like the text has been updated to 2001 and includes some of the established classics in California history as well as more recent material Reviews of the Fourth Edition Prodigious in detail and scope this is the definitive guide to historical landmarks in California and a valuable resource not only for travelers but also for anyone interested in California history California Highways This is an outstanding and accessible piece of scholarship one that every student of California will value San Francisco Chronicle Kyle and Stanford University Press are to be lauded for this monumental undertaking Southern California Quarterly Robert Smithson Robert Smithson, Eugenie Tsai, Cornelia H. the authoritative and award winning account of the rise and fall of the United Farm Workers and its most famous and controversial leader Cesar Chavez Based interviews conducted over many years with farm workers organizers and the opponents and friends of the UFW the book tells a story of collective action and empowerment rich in evocative detail and stirring human interest Beginning with the influence of the ideas of Saul Alinsky and Catholic Social Action at the union s founding through the UFW s thrilling triumphs in the California fields the drama concludes with the debilitating internal struggles that effectively crippled the union A vivid rendering of farm work and the world of the farm worker Trampling Out the Vintage is a dramatic reappraisal of the political trajectory of Cesar Chavez and the United Farm Workers and an essential re evaluation of their most tumultuous years A River No More Philip L. Fradkin,1996-09-30 Here is the definitive history of the development of the Colorado River and the claims made on its waters from its source in the Wyoming Rockies to the California and Arizona borders where so saline it kills plants it peters out just short of the Gulf of California Ever increasing demands on the river to supply cities in the desert render this new edition all too timely Philip Fradkin has updated this valuable book with a new preface The Borderlands Andrew Grant Wood,2008-01-30 The more than 2 000 mile U S Mexico border is a focus of intense interest today as immigration security and environmental issues dominate the headlines This is the first A to Z encyclopedia to overview the unique and vibrant elements that make up the borderlands More than 150 essay entries provide students and general readers with a solid sense of the U S Mexico border history culture and politics Coverage runs the gamut from key historical and contemporary figures art cuisine sports and religion to education environment legislation radio rhetoric slavery tourism and women in Ciudad Juarez The more than 2 000 mile U S Mexico border is a focus of intense interest today as immigration security and environmental issues dominate the headlines This is the first A to Z encyclopedia to overview the unique and vibrant elements that make up the borderlands More than 150 essay entries provide students and general readers with a solid sense of the U S Mexico border history culture and politics Coverage runs the gamut from key historical and contemporary figures art cuisine sports and religion to education environment legislation radio rhetoric slavery tourism and women in Ciudad Juarez Alphabetical and topical lists of entries in the frontmatter allow readers to find topics of interest quickly as does the index Those looking for more in depth coverage will find many helpful suggestions in the Further Reading section per entry as well as in the Selected Bibliography A chronology and historical photos also complement the text Report of the ... Annual Meeting of the Lake Mohonk Conference of Friends of the Indian and Other Dependent Peoples ,1907 Hoover Dam Joseph E. Stevens,2014-11-20 In the spring of 1931 in a rugged desert canyon on the Arizona Nevada border an army of workmen began one of the most difficult and daring building projects ever undertaken the construction of Hoover Dam Through the worst years of the Great Depression as many as five thousand laborers toiled twenty four hours a day seven days a week to erect the huge structure that would harness the Colorado River and transform the American West Construction of the giant dam was a triumph of

human ingenuity yet the full story of this monumental endeavor has never been told Now in an engrossing fast paced narrative Joseph E Stevens recounts the gripping saga of Hoover Dam Drawing on a wealth of material including manuscript collections government documents contemporary newspaper and magazine accounts and personal interviews and correspondence with men and women who were involved with the construction he brings the Hoover Dam adventure to life Described here in dramatic detail are the deadly hazards the work crews faced as they hacked and blasted the dam s foundation out of solid rock the bitter political battles and violent labor unrest that threatened to shut the job down the deprivation and grinding hardship endured by the workers families the dam builders gambling drinking and whoring sprees in nearby Las Vegas and the stirring triumphs and searing moments of terror as the massive concrete wedge rose inexorably from the canyon floor Here too is an unforgettable cast of characters Henry Kaiser Warren Bechtel and Harry Morrison the ambitious headstrong construction executives who gambled fortune and fame on the Hoover Dam contract Frank Crowe the brilliant obsessed field engineer who relentlessly drove the work force to finish the dam two and a half years ahead of schedule Sims Ely the irascible teetotaling eccentric who ruled Boulder City the straightlaced company town created for the dam workers by the federal government and many more men and women whose courage and sacrifice greed and frailty made the dam s construction a great human as well as technological adventure Hoover Dam is a compelling irresistible account of an extraordinary American epic

Eagle Mountain Landfill Project, Riverside County ,1992 The Bureau of Reclamation Brit Allan Storey,2008 *Proceedings of the ... Annual Meeting of the Lake Mohonk Conference of Friends of the Indian and Other Dependent Peoples ,1904* *The Story of the First Decade in Imperial Valley, California* Edgar F. Howe,Wilbur Jay Hall,1910 The earliest published history of California s Imperial Valley an 8 000 square mile region located in the southern part of the Colorado Desert Documenting the pioneer period in the Valley s history which roughly corresponds with the first decade of the 20th century Howe and Hall provide abundant details concerning the irrigation project directed by Charles Rockwood and George Chaffey that turned part of the desert into rich agricultural and residential lands Also includes information on Valley s history before modern settlement the accidental formation of the Salton Sea and several early settlers *Colorado River Basin Water Management* National Research Council,Division on Earth and Life Studies,Water Science and Technology Board,Committee on the Scientific Bases of Colorado River Basin Water Management,2007-06-30 Recent studies of past climate and streamflow conditions have broadened understanding of long term water availability in the Colorado River revealing many periods when streamflow was lower than at any time in the past 100 years of recorded flows That information along with two important trends a rapid increase in urban populations in the West and significant climate warming in the region will require that water managers prepare for possible reductions in water supplies that cannot be fully averted through traditional means Colorado River Basin Water Management assesses existing scientific information including temperature and streamflow records tree ring based reconstructions and climate model

projections and how it relates to Colorado River water supplies and demands water management and drought preparedness The book concludes that successful adjustments to new conditions will entail strong and sustained cooperation among the seven Colorado River basin states and recommends conducting a comprehensive basinwide study of urban water practices that can be used to help improve planning for future droughts and water shortages *MotorBoating* ,1973-05 **Robert Smithson** Ann Reynolds,2004-10-01 An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson Robert Smithson 1938 1973 produced his best known work during the 1960s and early 1970s a period in which the boundaries of the art world and the objectives of art making were questioned perhaps more consistently and thoroughly than any time before or since In Robert Smithson Ann Reynolds elucidates the complexity of Smithson s work and thought by placing them in their historical context a context greatly enhanced by the vast archival materials that Smithson s widow Nancy Holt donated to the Archives of American Art in 1987 The archive provides Reynolds with the remnants of Smithson s working life magazines postcards from other artists notebooks and perhaps most important his library from which she reconstructs the physical and conceptual world that Smithson inhabited Reynolds explores the relation of Smithson s art making thinking about art making writing and interaction with other artists to the articulated ideology and discreet assumptions that determined the parameters of artistic practice of the time A central focus of Reynolds s analysis is Smithson s fascination with the blind spots at the center of established ways of seeing and thinking about culture For Smithson New Jersey was such a blind spot and he returned there again and again alone and with fellow artists to make art that through its location alone undermined assumptions about what and more important where art should be For those who guarded the integrity of the established art world New Jersey was elsewhere but for Smithson elsewheres were the defining if often forgotten locations on the map of contemporary culture
