**Transformation and Healing by Ayahuasca Spirit in the Amazonian Rainforest** Karel Hlobil, 2009-09      **An Encyclopedia of Shamanism Volume 2** Christina Pratt, 2007-08-01 Shamanism can be defined as the practice of initiated shamans who are distinguished by their mastery of a range of altered states of consciousness Shamanism arises from the actions the shaman takes in non ordinary reality and the results of those actions in ordinary reality It is not a religion yet it demands spiritual discipline and personal sacrifice from the mature shaman who seeks the highest stages of mystical development      *In the Shadow of the Shaman*, 1988 In the Shadow of the Shaman is about the importance of connection to the deepest power of Nature It tells you how to use natural objects from the shamanic worlds Plant Mineral Animal and Human to help make this personal connection with Earth energies In doing this you are able to reconnect with the center of your own power Because the shamanic path is such a personal one often not able to be shared this book has been designed so that it has the experiential quality of the shamanic journey traditions The author is also careful to present the information in a clear organized manner In doing so she blends the deeply personal wisdom of a shamanic path with the shared community wisdom of a medicine path This represents an ideal for Aquarian shamanism But this book is not simply about shamanism it shows through techniques exercises meditations and rituals how anyone can become a shaman You will learn how to attune yourself with the shamanic worlds of Nature and with the Higher Self for self healing and self empowerment
