Marsh, 1999 This edition of The Canadian Encyclopedia is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the

23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada

Coping with Postmodernity Martin Villwock, 2011-06-08 Examination Thesis from the year 2008 in the subject Didactics for the subject English Pedagogy Literature Studies grade 1-3 University of Cologne Englisch Seminar language English abstract In the following chapter of this paper an outline of the present ontological crisis in terms of Lyotard's postmodern condition will be given Throughout the discussion of Coupland's fiction this concept will be relevant for its influence on the characters' thoughts and emotions Furthermore the chapter will analyze the importance and self-referentiality of narrative structures in Coupland's work The characters in Coupland's novels often come up with a plentitude of more or less successful strategies in order to deal with the semantic void they experience For this chapter material will be presented predominantly from the novels *All Families are Psychotic*, *Generation X* and *Microserfs* The third chapter will focus on the presentation of working life in Coupland's prose His novels reveal that work today has lost its former function as a source of orientation In this analysis the concept of alienation as introduced by Karl Marx will be used in order to grasp the nature of the conflict that the characters experience in their working lives in Coupland's novels The chapter will focus on the presentation of working life in

Generation X Microserfs and Shampoo Planet A fourth chapter will introduce yet a further source of disorientation the hyperreality constituted by the media Here Baudrillard's observations 1983 and 1994 will serve as a starting point in a discussion of the experience of the hyperreal and the possibility of contact with the real in Coupland's work Again material will be presented from the novels Generation X Microserfs and Shampoo Planet The subsequent chapter will consider the important role that irony plays in several of the analyzed novels Douglas Coupland particularly in his first novels impresses his readers with a smart and thoroughly ironic tone In his later novels however he is deliberately trying to establish a more sincere language mirrored by his characters desire to embark on a sincere quest for meaning The functions of the presentation of the different forms of disorientation and re orientation will be at the center of my discussion of Coupland's fiction

Hybrid Fictions Daniel Grassian, 2015-09-11 Since the 1960s academics have theorized that literature is on its way to becoming obsolete or at the very least has lost part of its power as an influential medium of social and cultural critique This work argues against that misconception and maintains that contemporary American literature is not only alive and well but has grown in significant ways that reflect changes in American culture during the last twenty years In addition this work argues that beginning in the 1980s a new allied generation of American writers born from the late 1950s to the early 1970s has emerged whose hybrid fiction blend distinct elements of previous American literary movements and contain divided social cultural and ethnic allegiances The author explores psychological philosophical ethnic and technological hybridity The author also argues for the importance of and need for literature in contemporary America and considers its future possibilities in the realms of the Internet and hypertext David Foster Wallace Neal Stephenson Douglas Coupland Sherman Alexie William Vollmann Michele Serros and Dave Eggers are among the writers whose hybrid fictions are discussed

Thoreauvian Modernities François Specq, Laura Dassow Walls, Michel Granger, 2013-02-01 Does Thoreau belong to the past or to the future Instead of canonizing him as a celebrant of pure nature apart from the corruption of civilization the essays in Thoreauvian Modernities reveal edgier facets of his work how Thoreau is able to unsettle as well as inspire and how he is able to focus on both the timeless and the timely Contributors from the United States and Europe explore Thoreau's modernity and give a much needed reassessment of his work in a global context The first of three sections Thoreau and Non Modernity views Thoreau as a social thinker who set himself against the modern currents of his day even while contributing to the emergence of a new era By questioning the place of humans in the social economic natural and metaphysical order he ushered in a rethinking of humanity's role in the natural world that nurtured the environmental movement The second section Thoreau and Philosophy examines Thoreau's writings in light of the philosophy of his time as well as current philosophical debates Section three Thoreau Language and the Wild centers on his relationship to wild nature in its philosophical scientific linguistic and literary dimensions Together these sixteen essays reveal Thoreau's relevance to a number of fields including science philosophy aesthetics environmental ethics political science and animal studies Thoreauvian Modernities posits that it is the germinating power of Thoreau's thought the challenge it poses to our own thinking and its capacity to address pressing issues in a new way that defines his enduring relevance and his modernity Contributors Kristen Case Randall Conrad David Dowling Michel Granger Michel Imbert Michael Jonik Christian Maul Bruno Monfort Henrik Otterberg Tom Pughe David M Robinson William Rossi Dieter Schulz François Specq Joseph Urbas Laura Dassow Walls

The Rhizomatic West Neil Campbell, 2008-12-01 Is the American West in Sergio Leone's spaghetti westerns the same American West we find in Douglas Coupland's Generation X In Jim Jarmusch's movies In Calexico's music Or is the American West as this book tells us a constantly moving mutating idea within a complex global culture And what precisely or better yet imprecisely does it mean Using Gilles Deleuze and Félix Guattari's concept of the rhizome Neil Campbell shows how the West or west-ness continually breaks away from a mainstream notion of American rootedness and renews and transforms itself in various cultural forms A region long traversed by various transient peoples from tribes and conquerors to immigrants traders and trappers the West reflects a mythic quest for settlement permanence and synthesis even notions of a national or global identity at odds with its rootless history culture and nature Crossing the concept of roots with routes this book shows how notions of the West in representations ranging from literature and film to photography

music and architectural theory give expression to ideas about identity nationhood and belonging in a world increasingly defined by movement across time and borders The Rhizomatic West offers a new vision of the American West as a hybrid performative space a staging place for myriad intersecting and constantly changing identities **Bloomsbury Good**

with political or cultural realities texts that deal with history as a fiction and texts that elude categorization even within the variety already explored For example in fiction a postmodernist novel might tell a story about a writer struggling with writing only perhaps to find that he is a character in a book by another writer struggling to write a book The A to Z of Postmodernist Literature and Theater examines the different areas of postmodernist literature and the variety of forms that have been produced This is accomplished through a chronology an introductory essay a bibliography and several hundred cross referenced dictionary entries on individual postmodernist writers the important postmodernist aesthetic practices significant texts produced throughout the history of postmodernist writing and important movements and ideas that have created a variety of literary approaches within the form By placing these concerns within the historical philosophical and cultural contexts of postmodernism this reference explores the frameworks within which postmodernist literature of the late twentieth and early twenty first century operates American Cultural Studies Neil C.
