Remaking the Chinese City Joseph W. Esherick, 2001-10-31

In China today, skyscrapers tower over ancient temples, freeways deliver lines of cars and tour buses to imperial palaces, cinema houses compete with old theaters featuring Peking Opera. The disparity evidenced in the contemporary Chinese cityscape can be traced to the early decades of the twentieth century when government elites sought to transform cities into a new world that would be at once modern and distinctly Chinese. *Remaking the Chinese City* aims to capture the full diversity of recent Chinese urbanism by examining the modernist transformations of China's cities in the first half of the twentieth century. Collecting in one place some of the most interesting and exciting new work on Chinese urban history, this volume presents thirteen essays discussing ten Chinese cities: the commercial and industrial center of Shanghai, the old capital Beijing, the southern coastal city of Canton, the interior's Chengdu, the tourist city of Hangzhou, the utopian New Capital built in Manchuria during the Japanese occupation, the treaty port of Tianjin, the Nationalists' capital in Nanjing, and temporary wartime capitals of Wuhan and Chongqing. Unlike past treatments of early twentieth century China which characterize the period as one of failure and decay, the contributors to this volume describe an exciting world in constant and fundamental change. During this time, the Chinese city was remade to accommodate parks and police-paved roads and public spaces. Rickshaws, trolleys and buses allowed the growth of new downtowns. Department stores, theaters, newspapers and modern advertising nourished a new urban identity. Sanitary regulations and traffic laws were enforced and modern media and transport permitted unprecedented freedoms. Yet despite their fondness for things Western and modern, early urban planners envisioned cities that would lead the Chinese nation and preserve Chinese tradition. The very desire for modernity led to the construction of a visible and accessible national past and the imagining of a distinctive national future. In their investigation of the national capitals of the period, the essays show how cities were reshaped to represent and serve the nation. To promote tourism, traditions were invented and recycled for the pleasure and edification of new middle class and foreign consumers of culture. Abundantly illustrated with maps and photographs, *Remaking the Chinese City* presents the best and most current scholarship on modern Chinese cities. Its thoroughness and detailed scholarship will appeal to the specialist while its clarity and scope will engage the general

Handbook of Contemporary Behavioral Economics Morris Altman, 2006 This groundbreaking handbook of original works by leading behavioral economists is the first comprehensive articulation of behavioral economics theory At a time when conventional approaches have failed to resolve key economic concerns the book provides a provocative alternative view of

how economic decisions are actually made Unstately Power: Local causes of China's economic reforms Lynn T. White, 1998 China's dramatic reforms are usually said to have been caused by the policies of state leaders under Deng Xiaoping. This fascinating new study by one of the West's leading authorities on contemporary China shows however that reforms began and are maintained by local networks. They emerged first in the economy partly as unintended results of previous policies. Agricultural extension in Mao Zedong's time freed so much labor from the land in rich areas such as the Shanghai delta that peasant leaders set up rural industries to employ clients. Many of these leaders were avowed state cadres but they acted for local constituencies more than for Beijing. Their initiatives can be documented in the early 1970s long before the 1978 proclamation of new enterprises which the central bureaucracy could not monitor taking materials and markets away from state industries. This caused socialist control of input prices and commodity flows to collapse by the mid 1980s. As a result shortages and inflation bedeviled the economy, the state ran deficits, management decentralized, local banks proliferated and immigration to cities soared. China Watching Robert Ash, David Shambaugh, Seiichiro Takagi, 2007-01-24 An international team of contributors analyzes the state of European Japanese and American scholarship on China over the last decade exploring in depth the main subjects and trends in research being done on contemporary Chinese politics, economy, foreign affairs and security studies. China's Urban Future and the Quest for Stability Rebecca Clothey, Richardson Dilworth, 2020-04-16 In recent decades China has used urbanization as an economic development tool to reconstruct the country's traditional institutions, culture and society. The downside of these many changes is that they have presented the country's government with a massive challenge: how can it maintain basic stability? China's Urban Future and the Quest for Stability examines the complexities of Chinese cities. Together the essays in this book explore how the relatively recent onset of urbanization has altered the country and how that experience is similar to and distinct from developments in other times and places. Each chapter analyzes one facet of China's transformation focusing on three main themes: urbanization and the rapid growth of Chinese cities; mobility in both the abstract and the literal sense; and marginalization evidenced by growing residential segregation in cities and diminishing access to education, health care and jobs. Underlying these themes is the issue of governance: the systems by which a state attempts to maintain control and achieve its ends often in ways that differ significantly from what one might expect. An up-to-date concise and multidisciplinary collection. China's Urban Future and the Quest for Stability discusses the social, economic and political forces at work in the urbanization of a modern superpower. **The Cambridge History of China** Roderick MacFarquhar, John King Fairbank, 1987

Revolutionizing the Family Neil J. Diamant, 2023-04-28 In 1950 China's new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce. Prohibiting arranged marriages, concubinage and bigamy, it was one of the most dramatic efforts ever by a state to change marital and family relationships. In this comprehensive study of the effects of that law, Neil J. Diamant draws on newly opened urban and rural archival sources to

offer a detailed analysis of how the law was interpreted and implemented throughout the country In sharp contrast to previous studies of the Marriage Law which have argued that it had little effect in rural areas Diamant argues that the law reshaped marriage and family relationships in significant but often unintended ways throughout the Maoist period His evidence reveals a confused and often conflicted state apparatus as well as cases of Chinese men and women taking advantage of the law to justify multiple sexual encounters to marry for beauty to demand expensive gifts for engagement and to divorce on multiple occasions Moreover he finds those who were best placed to use the law s more liberal provisions were not well educated urbanites but rather illiterate peasant women who had never heard of sexual equality and it was poor men not women who were those most betrayed by the peasant based revolution This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 2000 In 1950 China s new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change mari
