began publication as a response to China's reform particularly the policy of opening to the outside world Chinese scholars began to undertake distinctive original research in these fields This collection provides a cross section of their efforts during the initial phase To enable western scholars to understand the historical process of this change in Chinese academics Yu Guangyuan's *On the Emancipation of the Mind* and Xu Liangying's *Essay on the Role of Science and Democracy in Society* have been included in this collection Three of the papers included on the philosophy of science are discussions of philosophical issues in cosmology and biology by scientists themselves The remaining four are written by philosophers of science and discuss information and cognition homeostasis and Chinese traditional medicine the I Ching Yi Jing and mathematics etc Papers have been selected on the history of both classical and modern science and technology the most distinctive of which are macro comparisons of the development of science in China and the west Some papers discuss the issue of the demarcation of periods in the history of science the history of ancient Chinese mathematics astronomy metallurgy machinery medicine etc Others discuss the history of modern physics and biology the history of historiography of science in China and the history of regional development of Chinese science and technology Also included are biographies of three post eighteenth century Chinese scholars Li Shanlan 1811 1882 Hua Hengfang 1833 1902 and Cai Yuanpei 1868 1940 who contributed greatly to the introduction of western science and scholarship to China In addition three short papers have been included introducing the interactions between Chinese scholars and three great western scientists Niels Bohr Norbert Wiener and Robert A Millikan

From Xia Dynasty to Qing Dynasty: An Overview of the History of Chinese Dynasties Zhi Dao, The book is the volume of *From Xia Dynasty to Qing Dynasty: An Overview of the History of Chinese Dynasties* among a series of books for China Classified Histories

**Slavery Civilization in Xia, Shang and West Zhou Dynasty** Da Xue, The book is the volume of *Slavery Civilization in Xia Shang and West Zhou Dynasty* among a series of books of Chinese Dynastic History The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title

of Huangdi or emperor of the Qin marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty (206 BC–220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well-versed in calligraphy, history, literature, and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644–1912), which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood, the most recent being the Chinese Civil War (1927–1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China. In some eras, control stretched as far as Xinjiang and Tibet, as at present. Traditional culture and influences from other parts of Asia and the Western world, carried by waves of immigration, cultural assimilation, expansion, and foreign contact, form the basis of the modern culture of China.

*The Economic History in Sui, Tang and Five Dynasties* Li Shi, The book is the volume of *The Economic History in Sui, Tang and Five Dynasties* among a series of books of *Deep into China Histories*. The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty (c. 1600–1046 BC) and the *Bamboo Annals* (296 BC) describe a Xia dynasty (c. 2070–1600 BC) before the Shang, but no writing is known from the period. The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization. The Zhou dynasty (1046–256 BC) supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature, and philosophy first developed during those troubled times. In 221 BC, Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty (206 BC–220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly.
