National Bureau of Standards, 1971 The Plain of Phaistos Harriet Blitzer, Despoina Hadzi-Vallianou, L. Vance Watrous, 2005-02-01 The Plain of Phaistos presents the results on an interdisciplinary regional field project 1984-1987 carried out on the island of Crete. This volume traces the changing patterns of settlement and cycles of social complexity from the Late Neolithic period to the present day within the heartland of the state of Phaistos. The authors and contributors publish geological, archaeological, environmental, botanical, historical, and ethnographic studies that establish the regional identity of the Western Mesara. Using a combination of empirical, processual, and post-processual theoretical approaches, the volume investigates a central problem: how and why did the Bronze Age and Classical states arise at Phaistos.
