## What is culture?

The roots are hidden beneath the ground and seemingly unseen, however, the health of the root system determines the health of the tree.

**Highly engaged workers score their organisation significantly higher than low engagement workers on the seven components of culture**

**Making Nature, Shaping Culture**, 1995-01-01 For ages farmers have domesticated plant varieties while scientists have made nature through hybridization and other processes This give and take mediated through negotiations persuasion the marketplace and even coercion has resulted in what we call nature and has led to a homogenization of plant crops Yet homogenization has led to new problems genetic vulnerability and the lack of systems to maintain plant germplasm of varieties no longer grown in the fields This book addresses issues previously viewed as primarily technical concerning the germplasm debate that is how what and where to store the range of genetic materials necessary to reproduce plants By examining Brazil Chile France and the United States the authors show how different cultures respond to the decline in genetic diversity The findings show that the quest for uniformity in foods agriculture and environment eventually threatens everyone The politicization of this debate is inevitable because the destruction of human cultural diversity goes hand in hand with the destruction of plant varietal diversity The authors agree that responses to the controversies must involve food security relinking of food with agriculture and the environment revaluing traditional knowledge and rethinking development They stress that answers will be found not by experts acting unilaterally but through the democratization of scientific and technical exchange Lawrence Busch is professor of sociology at Michigan State University William B Lacy is director of the Cooperative Extension Service at Cornell University Jeffrey Burkhardt is a professor of agricultural economics at the Institute for Food and Agricultural Sciences at the University of Florida Douglas Hemken is a Ph D candidate in the Department of Rural Sociology at the University of Wisconsin Jubel Moraga Rojel is professor of sociology at the Universidade Australe del Chile Timothy Koponen is a Ph D candidate in sociology at Northwestern University and Josi de Souza Silva is with the Commission on Plant Genetic Resources at FAO in Rome

**Metaphors Shaping Culture and Theory** Herbert Grabes,2009

**Understanding Military Culture** Allan D. English,2004-03-01 Culture has been described as the bedrock of military effectiveness because it influences everything an armed service does The recent conflicts in Afghanistan and Iraq have highlighted the importance of culture as a concept in analyzing the ability of military organizations to perform certain tasks In fact a military s culture may determine its preferred way of fighting and dealing with other challenges like incorporating new technologies more than its doctrine or organizational structure This book examines military culture from a theoretical and a practical point of view It focuses on the Canadian and American military cultures and it provides the first detailed examination of the culture of the Canadian Forces It also compares their culture to that of the US armed forces The book concludes that while the culture of the Canadian Forces has been Americanized to a certain extent the culture of the US armed forces due to changes in their personnel and roles has experienced a certain degree of Canadianization at the end of the 20th and the beginning of the 21st centuries
