Soffan, 2016-10-04 First published in 1980 this book looks at the factors which influenced the position held by women in the United Arab Emirates in the second half of the 20th century It argues that Islamic Law has granted women rights and privileges in the spheres of family life marriage education and economic pursuits which aim at improving their status in society However due to the interpretations of various religious scholars influenced by local traditions and social trends women have often not been given these rights particularly in family life and marriage In contrast the book also explores how the wealth brought about by the discovery of oil has served to further strengthen the position of UAE women principally in the fields of education social affairs and economic activity This book will be of interest to those studying women in Islamic society and modernisation in the Middle East **The Egyptian Expeditionary Force in World War I** Michael J.

Mortlock, 2014-01-10 This military history follows the 5th Battalion of the Suffolk regiment from England to Syria and the end of World War I Among the previously untapped primary source materials used are the author's father's correspondence and photographs from his 1913-1919 service with the 5th Suffolk in England Gallipoli Egypt Palestine and Syria It follows chronologically the frustrating failures and the final victory of the campaigns in North Africa and the Middle East and refutes the widely held misconception that cavalry played no major role in the conflict **Routledge Library Editions: Women in**

Islamic Societies Various Authors, 2021-02-25 Women in Islamic societies are often seen as a hidden and homogenous group The volumes in this set originally published between 1960 and 1983 explore the wide variety of women's roles in a range of Islamic societies from Yemen the United Arab Emirates and Kurdistan to Malaysia West Africa Iran and Turkey Due to their anthropological focus each book pays particular attention to the everyday lives of women in these regions including

Handbook of Arab American Psychology Mona M. Amer, Germaine H. Awad, 2015-11-19 The Handbook of Arab

American Psychology is the first major publication to comprehensively discuss the Arab American ethnic group from a lens that is primarily psychological. This edited book contains a comprehensive review of the cutting edge research related to Arab Americans and offers a critical analysis regarding the methodologies and applications of the scholarly literature. It is a landmark text for both multicultural psychology as well as for Arab American scholarship. Considering the post 9/11 socio-political context in which Arab Americans are under ongoing scrutiny and attention as well as numerous misunderstandings and biases against this group, this text is timely and essential. Chapters in the Handbook of Arab American Psychology highlight the most substantial areas of psychological research with this population relevant to diverse sub-disciplines including cultural, social, developmental, counseling, clinical, health, and community psychologies. Chapters also include content that intersect with related fields such as sociology, American studies, cultural, ethnic studies, social work, and public health. The chapters are written by distinguished scholars who merge their expertise with a review of the empirical data in order to provide the most updated presentation of scholarship about this population. The Handbook of Arab American Psychology offers a noteworthy contribution to the field of multicultural psychology and joins references on other racial/ethnic minority groups including Handbook of African American Psychology, Handbook of Asian American Psychology, Handbook of U.S. Latino Psychology, and The Handbook of Chicana/o Psychology and Mental Health.

Arab American Children with Disabilities Jamal M. Al Khatib, 2016-07-22 Despite a proliferation of special education literature on racial minorities over the past three decades, research and writing on Arab American children with disabilities remain remarkably sparse. The New York Review of Books ,1969 **Imagining the Arabs** Webb Peter Webb,2016-05-31 Who are the Arabs When did people begin calling themselves Arabs And what was the Arabs role in the rise of Islam Investigating these core questions about Arab identity and history by marshalling the widest array of Arabic sources employed hitherto and by closely interpreting the evidence with theories of identity and ethnicity Imagining the Arabs proposes new answers to the riddle of Arab origins and fundamental reinterpretations of early Islamic history This book reveals that the time honoured stereotypes which depict Arabs as ancient Arabian Bedouin are entirely misleading because the essence of Arab identity was in fact devised by Muslims during the first centuries of Islam Arab identity emerged and evolved as groups imagined new notions of community to suit the radically changing circumstances of life in the early Caliphate The idea of the Arab was a device which Muslims utilised to articulate their communal identity to negotiate post Conquest power relations and to explain the rise of Islam Over Islam s first four centuries political elites genealogists poetry collectors historians and grammarians all participated in a vibrant process of imagining and re imagining Arab identity and history and the sum of their works established a powerful tradition that influences Middle Eastern communities to the present day Biopsychosocial Perspectives on Arab Americans Sylvia C. Nassar,Kristine J. Ajrouch,Florence J. Dallo,Julie Hakim-Larson,2023-08-01 The biopsychosocial study of Arab Americans yields compelling insights into innovative theoretical and applied initiatives In the context of a growing population of Arab Americans coupled with the current tenure of xenophobia and exposed structural racism in the US clinical and community practitioners must be attuned to their clients of Arab ancestry whose experiences development and health concerns are distinctly different than that of their White counterparts This second edition with its uniquely interwoven sections of culture psychosocial development and health and disease provides a rich overview of timely critical topics The audience for the text includes counselors social workers psychologists nurses psychiatrists sociologists and any other public and mental health practitioners researchers and policy makers who work with and on behalf of clients and patients of Arab descent The authors represent a team of leading experts spanning disciplines of sociology clinical mental health and community public health This edition draws on leading experts in Arab American health and sociology who document the complexity of this population s immigration and acculturation experience It offers critical and current research that speaks to the centrality of context and diversity in treating Americans of Arab descent Contributors explore the complex and limited racial framework within which Arabs in the U S form their identities and the impact of structural racism on their

lives and health This collection offers practitioners much needed insights on a population often hidden or rendered invisible by data limitations and yet misrepresented by cultural stereotypes Helen Hatab Samhan Former Executive Director Arab American Institute Foundation Nassar Ajrouch Hakim Larson and Dallo s breakthrough work in the area of culturally competent health care has been inspiring across interdisciplinary fields and to the communities they serve Their work on Arab American health issues in particular has greatly improved clinical practice at the community and national levels I heartily recommend taking the time to become familiar with their important body of work and this latest text Ismael Ahmed Former Michigan State Director of Health and Human Services
