Sharaf Politics:

Sharaf Politics Sharon D. Lang, 2013-10-18 This book examines the Arabic conflict resolution method known as sulha. In this process, notable male elders mediate conflicts between and within Arab communities. A lengthy process of political jockeying culminates in a ceremony that peaks when enemies shake hands and publicly forgive the crimes of the other. The reality of actual sulha deviates considerably from the ideal, but both the official framework and the actual events point to a deep-seated valorization of peace and reconciliation in Israeli-Palestinian society. *Classless Politics* Hesham

Sallam, 2022-10-25 Since the 1970s, the Egyptian state has embarked on a far-reaching and destabilizing project of economic liberalization, reneging on its commitments to social welfare. Despite widespread socioeconomic grievances stemming from these policies, class politics and battles over wealth redistribution have largely been sidelined from elite-led national politics. Instead, conflicts over identity have raged as Islamist movements became increasingly prominent political players. *Classless Politics* offers a counterintuitive account of the relationship between neoliberal economics and Islamist politics in Egypt that sheds new light on the worldwide trend of more identity-less class. Hesham Sallam examines why Islamist movements have gained support at the expense of the left, even amid conflicts over the costs of economic reforms. Rather than highlighting the stagnancy of the left or the agility of Islamists, he pinpoints the historical legacies of authoritarian survival strategies. As the regime resorted to economic liberalization in the 1970s, it tacitly opened political space for Islamist movements to marginalize its leftist opponents. In the long run, this policy led to the fragmentation of opponents of economic reform, the increased salience of cultural conflicts within the left, and the restructuring of political life around questions of national and religious identity. Historically rich and theoretically insightful, this book demonstrates how the participation of Islamist groups shapes the politics of neoliberal reform and addresses why economic liberalization since the 1970s has contributed to the surge in culture wars around the world today. **Values, Political Action, and Change in the Middle East and the Arab Spring**

Mansoor Moaddel, Michele J. Gelfand, 2017-01-18 Although many have tried, the spontaneity of the Arab Spring uprisings and the unpredictability of its diverse geographical outcomes have resisted explanation. For social scientists, part of the challenge has been how to effectively measure and analyze the empirical data, while another obstacle has been a lack of attention to the worldviews, value orientations, and long-term concerns from the people of the Middle East and North Africa. In order to meet these challenges head-on, Mansoor Moaddel and Michele J. Gelfand have assembled an international team of experts to explore and employ a new and diverse set of frameworks in order to explain the dynamics of cross-national variation in values, political engagement, morality, and development in these regions. To this end, the authors address a wide range of questions such as: To what extent do recent events reflect changes in values among the Middle Eastern public? Are youth uniformly more supportive of change than the rest of the population? To what extent are changes in values connected to changes in identities? How do we explain the process of change in the long term? As Moaddel and Gelfand remark in their book

s introduction Our hope is that this collective effort will not only contribute to the development of the social sciences in the Middle East and North Africa but also to practical political actions and public policies that serve social tolerance and harmony peace and economic prosperity for the people of the region

The Discourse of Palestinian-Israeli Relations

McMahon, 2010-04-15 This Foucault inspired analysis of the degeneration of the Oslo Process into direct Palestinian Israeli violence critically examines the ideas and practices that define Palestinian Israeli relations The text offers a radically different peace proposal that moves far beyond exhausted calls for confidence building measures and or an end to settlement construction

Shiism and Politics in the Middle East

Laurence Louer, 2021-12-01 In this timely book completed before the current outbreak of unrest in Bahrain that has formed part of the Arab Spring Laurence Louer explains the background of the Bahraini conflict in the context of the wider issue of Shiism as a political force in the Arab Middle East amongst other issues relating to the role of Shiite Islamist movements in regional politics Her study shows how Bahrain s troubles are a phenomenon based on local perceptions of injustice rather than on the foreign policy of Shiite Iran More generally the book shows that though Iran s Islamic Revolution had an electrifying effect on Shiite movements in Lebanon Iraq the Gulf and Saudi Arabia local political imperatives have in the end been the crucial factor in the direction they have taken In addition the overwhelming influence of the Shiite clerical institution has been diminished by the rise to prominence of lay activists within the Shiite movements across the Middle East and the emergence of Shiite anti clericalism This book contributes to dispelling the myth of the determining power of Iran in the politics of Iraq Bahrain and other Arab states with significant Shiite populations

Diplomacy and Displacement Onur Yildirim, 2007-05-07 This study presents a comprehensive balanced and factually grounded narrative of the Turco Greek Exchange of Populations as a historic event that has been the subject of much distortion in the historiographical traditions of nationalist lore in Greece and Turkey as well as in scholarly publications of various sorts elsewhere over the span of the past eighty years Diplomacy and Displacement contributes to the general literature on the Exchange by incorporating into the broader picture the Turkish dimension of the event particularly the Turkish side of the decision making process and the episode of the Muslim refugees that have been left outside the scope of the research agenda thereby breaking up the established notion of the Exchange skewed towards the Greek side It thus sheds doubt on the success paradigm attributed to this event By adopting a people centered approach to the Lausanne Treaty and its consequences the book offers a critique of official versions of the story and encourages people to consider policy decisions together with their huge and often devastating implications for the lives of ordinary people

Reporting Political Islam and Democracy Mohammed-Ali Abunajela, Nael Jebril, 2020-05-14 For over a decade Al Jazeera Arabic occupied an unprecedented position among Arab audiences and families Its attractive and daring news coverage has inspired millions of Arabs and led other news channels to follow suit by changing their reporting narrative and presentational style However in the aftermath of the Arab uprisings in 2011 the close adoption of the Arab uprisings in general and the Egyptian one in particular made the channel fall into the eye of the public storm through its extensive 24 hour coverage This book assesses whether the channel systematically provided a platform for certain ideologies or ignored others and if and how Al Jazeera s language had shifted after the 2011 Arab uprisings It also explores the rationale behind

adopting particular editorial principles featured in the analyses and scrutinises the findings within the framework of media religion and democratisation **Democracy and Reform in the Middle East and Asia** Amin Saikal,Amitav

Acharya,2013-12-23 The protests that swept across the Middle East and North Africa in late 2010 and 2011 confounded long time observers of the region in both the media and academia After addressing the conditions in the Middle East and North Africa that produced these attempts at revolution Amin Saikal and Amitav Acharya explore the global impact of the protests both in terms of their ideological influence on opposition groups and the prospects for democratic transition in a variety of authoritarian and semi authoritarian governments Democracy and Reform in the Middle East and Asia commences with a comprehensive attempt to understand the cultural economic and political background out of which the uprisings in Egypt Tunisia and Libya emerged It then expands outwards investigating the impact of the Arab uprisings on a regional level in other Middle Eastern and north African states such as Iran Morocco and Algeria and on a more global level in the Asian states of China Malaysia Singapore Indonesia and the former Soviet Muslim republics Saikal and Acharya bring a global perspective to the still unfolding wave of calls for more meaningful political participation which continues to make itself felt in the Middle East to shed light upon the ideal role of both regional and international actors in promoting sustainable transitions from authoritarianism to democracy This book not only offers explanations for why certain countries were more susceptible to the spread of the uprisings in the Middle East and North Africa but also contrasts the organic and grassroots vehicles for democratization characteristic of the most recent Arab uprisings with the Western model of externally imposed regime change to illustrate the conditions necessary for a successful democratic transition Touching on perennial issues in politics for example democracy authoritarian rule and social protest this book is vital for researchers of politics and international relations **To Make the Earth Whole** Marc Gopin,2009-06-15 To Make the Earth Whole studies the art of citizen diplomacy_a process that can address clashes of religion and culture across regional lines even when traditional

negotiations between governments can fail While faith and regional differences have been sources of division around the world in recent decades millions of citizens are also creating bonds of friendship and collaboration that are forming the basis of a global community Drawing on the experiences gleaned from years practicing citizen diplomacy in some of the world s most politically charged climates scholar practitioner of conflict resolution and rabbi Marc Gopin describes his work in Syria as a central case study of the book The author outlines the strategic basis for creating community across lines of enmity the social network theory to explain how this happens and the long term vision required for a progressive but inclusive global community that respects religious communities even as it limits their coercive power over others This powerful and practical book outlines an incremental and evolutionary strategy of positive change that stands a strong chance of success even in today s most conservative and repressive religious and political contexts To Make the Earth Whole also examines the ethical challenges of citizen diplomacy from the perspectives of both Western and Eastern philosophies and religions The world s

wisdom traditions are essential in devising a way for citizens to develop the foundations for global community **The Real Stories behind Honour Killing** Shahnaz Shoro,2019-03-01 Honour killing as it is widely understood is the cold blooded murder of a woman or a man involved with her by the male members of her household in order to cleanse the reputation of the family clan community or tribe This violent tradition in the name of religion custom and culture continues to be carried out in a significantly large part of the world The majority of people still believe that honour killings happen for reasons such as marriage from choice or a love affair of a kinswoman rape a demand for divorce from a woman or the birth of a female child all of which are perceived as bringing shame on the family However current research on honour killing suggests that there are a number of intriguing and very cleverly knitted plots of jealousy greed violence and murder which show that in the name of honour various other purposes are being served and people are killed in ways which give the impression that they are honour killings By collecting data from people involved in such situations this book opens a Pandora s box showing that such killings are carried out not to assuage the hurt honour of a patriarchal society but to serve a variety of malign intentions goals and agendas It will serve to let the world comprehend the phenomenon of honour related violence where culture and crime unite under the umbrella of highly discriminating laws against women This book consists of twenty six testimonies from those involved in honour killings bringing together interviews with killers victims and the falsely accused Honour Killing in the Second Decade of the 21st Century Shahnaz Shoro,2017-08-21 Honour killing is considered the worst form of domestic violence against human beings particularly against women It is clear that societies across the world through their laws and their courts continue to countenance legal defences which overwhelmingly benefit males committing violence against females Despite the statistics that honour killings are being reported from all over the world the greatest number of shocking reports of honour killings come from Muslim countries Unfortunately Pakistan is among those countries where women are facing various forms of violence in the name of religion customs and traditions and cases of honour killing are regularly reported there It is imperative to understand and see killings in the name of honour from the perspective of those who have been directly affected by the socio religious cultural norms which condone them The findings gathered here show that honour killing is not only family or community violence or a tradition to preserve honour but that behind these killings ulterior purposes are being served and therefore the number of the killings is increasing every year in Pakistan This book will allow the reader to understand precisely the menace of honour killing and to consider how it can be addressed to save innocent lives and to stop these severe violations of human rights
