have employed the trope of masking textually and psychologically as a strategy to create an alternative discursive practice and to protect the self as subject Yamamoto's range is broad and her interdisciplinary approach yields richly textured in depth readings of a number of genres including film and travel narrative Looking at how the West has sexualized infantilized and feminized Japanese culture for over a century she examines contemporary Japanese American women's struggle with this orientalist fantasy Analyzing the various constraints and possibilities that these writers negotiate in order to articulate their differences she shows how masking serves as a self-affirming discourse that dynamically interacts with mainstream culture's racial and sexual projections

were dispossessed sent to incarceration sites and dispersed across Canada Over 4 000 were deported to Japan Cartographies of Violence analyses the effects of these processes for some Japanese Canadian women Using critical race feminist anti colonial and cultural geographic theory Mona Oikawa deconstructs prevalent images stereotypes and language used to describe the Internment in ways that masks its inherent violence Through interviews with women survivors and their daughters Oikawa analyses recurring themes of racism and resistance as well as the struggle to communicate what happened Disturbing and provocative Cartographies of Violence explores women s memories in order to map the effects of forced displacements incarcerations and the separations of family friends and communities Judges and Their Audiences

Lawrence Baum,2009-01-10 What motivates judges as decision makers Political scientist Lawrence Baum offers a new perspective on this crucial question a perspective based on judges interest in the approval of audiences important to them The conventional scholarly wisdom holds that judges on higher courts seek only to make good law good policy or both In these theories judges are influenced by other people only in limited ways in consequence of their legal and policy goals In contrast Baum argues that the influence of judges audiences is pervasive This influence derives from judges interest in popularity and respect a motivation central to most people Judges care about the regard of audiences because they like that regard in itself not just as a means to other ends Judges and Their Audiences uses research in social psychology to make the case that audiences shape judges choices in substantial ways Drawing on a broad range of scholarship on judicial decision making and an array of empirical evidence the book then analyzes the potential and actual impact of several audiences including the public other branches of government court colleagues the legal profession and judges social peers Engagingly written this book provides a deeper understanding of key issues concerning judicial behavior on which scholars disagree identifies aspects of judicial behavior that diverge from the assumptions of existing models and shows how those models can be strengthened **Brave New Words**

orientation embedded in the experiences of racialization 2 a heightened sensitivity to pathos arising out of our dissonance with the societal norms and values and 3 amphibolous spirituality that is a co existence of multiple religious traditions without any resolution of their differences The angle of vision embedded in this epistemological framework of Asian Americans lives may well provide a clue to an alternate architectural paradigm in building a new peoplehood and to redefine democratic freedom as the historical paradigm of American peoplehood Asian American Sexualities Russell Leong,2014-06-17 Asian American Sexualities works to dispel the stereotype of oriental sexual decadence as well as the model minority heterosexual Asian sterotype in the US Writing from an impressive array of interdisciplinary perspectives the contributors discuss a variety of topics including sexuality and identity politics community activism and gay activism transnational aspects of love between women in Thailand queer South Asian culture in the US gay and lesbian filmmakers same sex sexuality in Pacific literature and Asian American male homosexuality and AIDS The relationship of the gay and lesbian experience to Asian American studies and Ethnic Studies is also explored **The Greenwood Encyclopedia of Asian American Literature** Guiyou Huang,2008-12-30 Asian American literature dates back to the close of the 19th century and during the years following World War II it significantly expanded in volume and diversity Monumental in scope this encyclopedia surveys Asian American literature from its origins through 2007 Included are more than 270 alphabetically arranged entries on writers major works significant historical events and important terms and concepts Thus the encyclopedia gives special attention to the historical social cultural and legal contexts surrounding Asian American literature and central to the Asian American experience Each entry is written by an expert contributor and cites works for further reading and the encyclopedia closes with a selected general bibliography of essential print and electronic resources While literature students will value this encyclopedia as a guide to writings by Asian Americans the encyclopedia also supports the social studies curriculum by helping students use literature to learn about Asian American history and culture as it pertains to writers from a host of Asian ethnic and cultural backgrounds including Afghans Chinese Japanese Koreans Filipinos Iranians Indians Vietnamese Hawaiians and other Asian Pacific Islanders The encyclopedia supports the literature curriculum by helping students learn more about Asian American literature In addition it supports the social studies curriculum by helping students learn about the Asian American historical and cultural experience **Jungle Born** John Seymour Eyton,1925 *A History of American Working-Class Literature* Nicholas Coles,Paul Lauter,2017-03-02 A History of American Working Class Literature sheds light not only on the lived experience of class but the enormously varied creativity of working class people throughout the history of what is now the United States By charting a chronology of working class experience as the conditions of work have changed over time this volume shows how the practice of organizing economic competition place and time shape opportunity and desire The subjects range from transportation narratives and slave songs to the literature of deindustrialization and globalization Among the literary forms discussed are memoir journalism film
