Nursing in Criminal Justice Services Ann Norman,Elizabeth Walsh,2014-09-29 At some point in their careers most nurses encounter patients who are directly or indirectly involved with the criminal justice system whether on hospital wards where prisoners are receiving treatment whilst guarded by prison officers in schools where children have a parent in prison or in a GP practice where patients have substance misuse issues This thought provoking book offers an understanding of the challenges and opportunities of caring for those in contact with criminal justice Written by a range of experts in the field *Nursing in Criminal Justice Services* takes the reader along the health and justice pathway from initial patient contact with nurses in police stations to nursing care in courts through prison nursing services and finally into the work of the multi disciplinary team in the community where nurses work alongside the probation services It also addresses some of the broader issues facing nurses working in criminal justice settings including governance legislation professional development and the need to reflect on practice Importantly the authors challenge some frequently held beliefs about people in criminal justice settings where staff have to manage the competing priorities of providing care and ensuring security They show how at its best this type of nursing can provide safe compassionate care for vulnerable and often frightened people leading to hugely improved outcomes for offenders and ultimately society as a whole Contents include Recovery and redemption

Making Sense of Wales Graham A S Day, 2002-07-30 Making Sense of Wales gives an account of the main changes that have taken place in Welsh society over the last fifty years as well as analysing the major efforts to interpret those changes By placing work done in Wales in the context of broader developments within sociological approaches over the period Graham Day demonstrates that there is a body of work on Wales worth considering in its own right as a specific contribution to sociology He also shows the relevance of sociological accounts of Wales for understanding contemporary empirical and theoretical concerns in social analysis Beginning with post war analysis which considered Wales in terms of regional planning and policy Day shows how more theoretically informed perspectives have come to the fore in recent years He also examines more contemporary developments such as gender and class transformations the emphasis on the centrality of the Welsh language for conceptions of Wales and Welshness as well as the impact of new forms of governance and questions of social exclusion *Bibliotheca Celtica*, 1990

The Proposed National Assembly for Wales (Legislative Competence) (Local Government) Order 2009 Great Britain: Parliament: House of Commons: Welsh Affairs Committee, 2010 The proposed National Assembly for Wales Legislative Competence Local Government Order 2009 is the twelfth Legislative Competence Order on which the Welsh Affairs Committee has reported The Order will give the Assembly powers in respect of the structures and work of local government in Wales at all levels The Welsh Assembly Government has requested this power because it wishes to develop and strengthen the role of community councils and councillors in Wales The proposed Order will allow the Welsh Assembly Government to fulfil its commitment to seek legislation to address issues identified in the 2003 Aberystwyth Report The Committee agrees that a clear need for the proposed LCO has been identified and is consistent with the Government's commitment to build up the capacity of town and community councils The proposed Order is drafted in broad and accessible terms with the minimum of exceptions and interpretation The Committee is concerned however that there are now many terms used to describe the various tiers of local government in Wales and agree with the suggestions put forward that the Minister should speedily undertake a review of terminology relating to local government Specifically the term community is cited as having various meanings dependent on context Furthermore given that there have already been several LCO proposals identified in terms of local government to call this the National Assembly for Wales Legislative Competence Local Government Order introduces the potential for confusion A title such as National Assembly for Wales Legislative Competence Community Councils Order or similar is suggested

Community Health and Wellbeing Steve Cropper, Alison Porter, Gareth Williams, 2007-10-22 This book argues that the traditional government approach of exhorting individuals to live

Ward,2016-04-29 Highly Commended in the Society of Educational Studies Book Prize This book explores how economic changes and the growing importance of educational qualifications in a shrinking labour market particularly effects marginalized young men It follows a group of young working class men in a de industrial community and challenges commonly held representations that often appear in the media and in policy discourses which portray them as feckless out of control educational failures and lacking aspiration Ward argues that for a group of young men in a community of social and economic deprivation expectations and transitions to adulthood are framed through the industrial legacy of geographically and historically shaped class and gender codes These codes have an impact on what it means to be a man and what behaviour is deemed acceptable and what is not *School Choice in an Established Market* Stephen Gorard,2019-01-04 First published in 1997 this study examines the trend towards markets in UK schools with a particular focus on fee paying schools in South Wales by outlining the varied economic and political arguments both for and against increased parental choice and exploring parents real reasons for using fee paying schools Stephen Gorard destroys the cosy myth that fee paying schools are large successful charitable institutions catering chiefly for a select group of privileged families Instead he reveals them as typically privately owned coeducational and with fewer than a hundred pupils based in a poorly converted residential site with few facilities It is the first book which allows children s voices to be heard fully in the context of debates on the choice of a new school Gorard has gathered the voices of parents and children via observation

interview and survey comparing them directly and revealing stark differences in the perception of each generation
