

A romantic scene of a man and a woman dancing on a beach at sunset. The sun is low on the horizon, creating a warm orange glow. The couple is in silhouette, holding hands and swaying. Two birds are flying in the sky, and their reflections are visible in the water.

Happiness Hazrat Inayat Khan,2020-09-28 THE SOUL in Sanskrit in the terms of the Vedanta is called Atman which means happiness or bliss itself It is not that happiness belongs to the soul it is that the soul itself is happiness Today we often confuse happiness with pleasure but pleasure is only an illusion a shadow of happiness and in this delusion man may pass his whole life seeking after pleasure and never finding satisfaction There is a Hindu saying that man looks for pleasure and finds pain Every pleasure seems happiness in outward appearance it promises happiness for it is the shadow of happiness but just as the shadow of a person is not the person though representing his form so pleasure represents happiness but is not happiness in reality According to this idea one rarely finds souls in this world who know what happiness is they are constantly disappointed in one thing after another That is the nature of life in the world it is so deluding that if man were disappointed a thousand times he would still take the same path for he knows no other The more we study life the more we realize how rarely there is a soul who can honestly say I am happy Almost every soul whatever his position in life will say he is unhappy in some way or another and if you ask him why he will probably say that it is because he cannot attain to the position power property possessions or rank for which he has worked for years Perhaps he is craving for money and does not realize that possessions give no satisfaction perhaps he says he has enemies or that those whom he loves do not love him There are a thousand excuses for unhappiness that the reasoning mind will make But is even one of these excuses ever entirely correct Do you think that if these people gained their desires they would be happy If they possessed all would that suffice No they would still find some excuse for unhappiness all these excuses are only like covers over a man's eyes for deep within is the yearning for the true happiness which none of these things can give He who is really happy is happy everywhere in a palace or in a cottage in riches or in poverty for he has discovered the fountain of happiness which is situated in his own heart As long as a person has not found that fountain nothing will give him real happiness **Creating a Happier Life**

Hazrat Inayat Khan,2020-09-28 SUFISM has never had a first exponent or a historical origin It existed from the beginning because man has always possessed the light which is his second nature and light in its higher aspect may be called the knowledge of God the divine wisdom in fact Sufism Sufism has always been practiced and its messengers have been people of the heart thus it belonged to the masters as well as to others Tradition states that Adam was the first prophet which shows that wisdom was already the property of the first man There have always been some among the human race who have desired wisdom These sought out spiritual beings in their solitude serving them with reverence and devotion and learning wisdom from them Only a few could understand those spiritual beings but many were attracted by their great personalities They said We will follow you we will serve you we will believe in you we will never follow any other and the holy ones said to them My children we bless you Do this do that This is the best way to live And they gave their followers precepts and principles such as might produce in them meekness and humility In this way the religions were formed But in the course of time the truth was lost The tendency to dominate arose and with it the patriotism of the community and prejudice against others and thus wisdom was gradually lost Religion was accepted though with difficulty but the evolution of the world at that time was not such as could understand the Sufis They were mocked at ill treated ridiculed they were obliged to hide themselves from the world in the caves of the mountains and in the solitude At the time of Christ there were Sufis among the

first of those who gave heed to him and in the time of Muhammad the Sufis on Mount Zafah were the first to respond to his cry One of the explanations of the term Sufi is this association with Mount Zafah Muhammad was the first to open the way for them in Arabia and they had many followers among them Sadik and Ali *Up from Paralysis* Joseph Seiler,2013-06 Joseph shares his experiences with the disease Guillain Barre Syndrome GBS which twice less than 1 in 1 000 000 chance of this and very quickly paralyzed him He slowly healed In the paralysis state his mind was at a heightened level of awareness Unable to do anything physical he applied himself to understanding the vivid messages that became so present to him He provides a chronicle of the GBS but more he provides a detailed account of the discoveries made available to him explained in his own simple language Up From Paralysis shares Joseph s journey of discovery of how it all works for him and he suggests for us too when it comes to listening to that tiny whisper of wisdom some call intuition Spirit Guidance from the other side which is actually inside Learn how to through increased clarity live a more successful life in all dimensions The Vital Message Arthur Conan Doyle,1919 In The New Revelation the first dawn of the coming change has been described In The Vital Message the sun has risen higher and one sees more clearly and broadly what our new relations with the Unseen may be As I look into the future of the human race I am reminded of how once from amid the bleak chaos of rock and snow at the head of an Alpine pass I looked down upon the far stretching view of Lombardy shimmering in the sunshine and extending in one splendid panorama of blue lakes and green rolling hills until it melted into the golden haze which draped the far horizon Such a promised land is at our very feet which when we attain it will make our present civilisation seem barren and uncouth Already our vanguard is well over the pass Nothing can now prevent us from reaching that wonderful land which stretches so clearly before those eyes which are opened to see it That stimulating writer V C Desertis has remarked that the Second Coming which has always been timed to follow Armageddon may be fulfilled not by a descent of the spiritual to us but by the ascent of our material plane to the spiritual and the blending of the two phases of existence It is at least a fascinating speculation But without so complete an overthrow of the partition walls as this would imply we know enough already to assure ourselves of such a close approximation as will surely deeply modify all our views of science of religion and of life What form these changes may take and what the evidence is upon which they will be founded are briefly set forth in this volume **Positive Psychology For Dummies** Averil Leimon,Gladeana McMahon,2012-02-27 Why do some people achieve greater success and happiness than others The key is positive psychology For most of its history psychology has focused mainly on the darker side of human behaviour depression anxiety psychosis and psychopathic behaviour In 1998 Martin Seligman became president of the American Psychological Association and inspired a movement to focus on the positives in human behaviour Positive Psychology For Dummies Taps into the burgeoning media focus on happiness and positive mental attitude Provides key information on the origins theory methods practitioners and results of positive psychology Demonstrates how to understand what makes you tick how to hone positive emotions and how to use positive
