the past in films and photographs as well as some illuminating experiences as a visiting professor at several US universities More importantly he reflects on what it has meant to move to Mexico and become a Mexican Mexico is home to a thriving school of photohistorians perhaps unequaled in the world Some were trained in art history and a few continue to pursue that discipline However the great majority work from the discipline known as photohistory which focuses on vernacular photographs made outside of artistic intentions A central premise of the book is that knowing the cultures of the past and of the other is crucial in societies dominated by short term and parochial thinking and that today s hyper audiovisuality requires historians to use modern media to offer their knowledge as alternatives to the perpetual present in which we live España a finales de la Edad Media. 2.
