Orchards Of Eden White Bluffs On The Columbia:

Orchards of Eden Nancy M. Mendenhall, 2006-01 America's early 1900s dream of greening the western desert through irrigation drew hundreds of would-be farmers to the Columbia River hamlet of White Bluffs in Washington State. Yearning for a healthy, possibly lucrative life in the wild desert setting, they struggled with nature, railroads, power companies, commission houses, water systems, and the ever-disappointing market. Through oral histories, letters, photographs, and meticulous research, author Nancy Mendenhall tells the story of how, despite all the adversities, the orchardists built a remarkable thriving community until it was cut short by events of World War Two. At times reading like an epic novel, this rich social history shows in detail the hard roles of pioneer women, children, and their men, and delves deeply into their emotional and intellectual lives.

The Washington Apple Amanda L. Van Lanen, 2022-09-29 In the nineteenth century, most American farms had a small orchard, or at least a few fruit-bearing trees. People grew their own apple trees or purchased apples grown within a few hundred miles of their homes. Nowadays, in contrast, Americans buy mass-produced fruit in supermarkets, and roughly 70 percent of apples come from Washington State. So how did Washington become the leading producer of America's most popular fruit? In this enlightening book, Amanda L. Van Lanen offers a comprehensive response to this question by tracing the origins, evolution, and environmental consequences of the state's apple industry. Washington's success in producing apples was not a happy accident of nature; according to Van Lanen, apples are not native to Washington any more than potatoes are to Idaho or peaches to Georgia. In fact, Washington apple farmers were late to the game, lagging behind their eastern competitors. The author outlines the numerous challenges early Washington entrepreneurs faced in such areas as irrigation, transportation, and labor. Eventually, with crucial help from railroads, Washington farmers transformed themselves into growers by embracing new technologies and marketing strategies. By the 1920s, the state's growers managed not only to innovate the industry but to dominate it. Industrial agriculture has its fair share of problems involving the environment, consumers, and growers themselves. In the quest to create the perfect apple, early growers did not question the long-term environmental effects of chemical sprays. Since the late twentieth century, consumers have increasingly questioned the environmental safety of industrial apple production. Today, as this book reveals, the apple industry continues to evolve in response to shifting consumer demands and accelerating climate change. Yet through it all, the Washington apple maintains its iconic status as Washington's most valuable agricultural crop.

Nowhere to Remember Laura Arata, David W. Harvey, 2021-06-22 There wasn't that many people, but they were good people. Madeline Gilles: First time I ever tasted cherries or even seen a cherry tree was in White Bluffs. Or ever ate an apricot or seen an apricot. It was covered with orchards and alfalfa fields. Leatris Boehmer Reid: Euro-American Priest River Valley settlers turned acres of sagebrush into fruit orchards. Although farm life required hard work, and modern conveniences were often sparse, many former residents remember idyllic, close-knit communities where neighbors helped neighbors. Then, in 1943, families received forced evacuation notices. Fruit farmers had

to leave their crops on their trees And that was very hard on them no future no money they moved wherever they could get a place to live Catherine Finley recalled Some were given just thirty days and Manhattan Project restrictions meant they could not return Drawn from Hanford History Project personal narratives Nowhere to Remember highlights life in Hanford White Bluffs and Richland three small agricultural communities in eastern Washington s mid Columbia region It covers their late 1800s to early 1900s origins settlement and development the arrival of irrigation dependence on railroads Great Depression struggles and finally their unique experiences in the early years of World War II David W Harvey examines the impact of wagon trade steamships and railroads grounding local history within the context of American West history Robert Franklin details the tight bonds between early residents as they labored to transform scrubland into an agricultural Eden Laura Arata considers the early twentieth century experiences of women who lived and worked in the region Robert Bauman utilizes oral histories to tell forced removal stories Finally Bauman and Franklin convey displaced occupants reactions to their lost spaces and places of meaning and explore ways they sought to honor their heritage *The Apocalypse Factory* Steve
