Kari Polanyi Levitt and Canadian Political Economy Michèle Rioux, Hughes Brisson, 2021-12-15 This book acts as a tribute to the legacy of the Canadian political economist Kari Polanyi Levitt daughter of Karl Polanyi one of the great economists of the 20th century Polanyi Levitt's life and work were devoted to understanding the scientific and political challenges that humanity faces and the incredible impacts of development trade and globalization in their diverse manifestations including in the context of the current COVID 19 pandemic This book reflects on Polanyi Levitt's conviction that the solution to contemporary challenges lies not in the development of sophisticated technologies but in questioning how we want to live with each other and working to re-embed the economy in the wider social system Ultimately the book contends that Polanyi Levitt's message is simple humanity must rethink the way we live in this world our place in the universe and our relationship with nature Drawing on a 10 year research project encompassing interviews and literature review this short volume introduces and celebrates Kari Polanyi Levitt's legacy and invites political economists to engage with her work

Reclaiming Development Kari Levitt, 2005 For over 20 years the developing world has been adjusting to the agendas of the International Monetary Fund and the World Bank In the 1990s Structural Adjustment Programmes were repackaged and marketed as the coming of the golden age of globalisation promising benefits to countries that adopt neo liberal policies Whether by convention or apparent absence of viable alternatives Caribbean governments have been quick to implement policies of deregulation liberalisation

and privatisation In this they have been supported by their intellectuals who have been equally quick in embracing globalisation and too ready to concede the end of national sovereignty Kari Levitt argues that it is time to reclaim the right to development and the right of nations to engage in the international economy on their own terms She advocates an international rule based order which permits space for member countries to follow divergent paths to development according to their own philosophies institutions cultures and societal priorities This book represents a historic sweep of Caribbean thought and personalities over the past 30 years drawn against the background of the changes in the international political economy Whether in her collaboration with Lloyd Best on the Plantation Economy Model her analyses of Debt and Adjustment or her insistence on the right of sovereign nations to pursue their own development path Kari Levitt remains consistent in her conviction that development whether of individuals or nations must be rooted in time and place and cannot be imposed by external prescription

The Global Politics of Poverty in Canada Will Langford, 2021-01-16 In the 1960s and 1970s in the midst of the Cold War and an international decolonization movement development advocates believed that poverty could be ended at home and abroad The Global Politics of Poverty in Canada explores the relationship between poverty democracy and development during this remarkable period Will Langford analyzes three Canadian development programs that unfolded on local regional and international scales He reveals the interconnections of anti poverty activism carried out by the Company of Young Canadians among M tis in northern Alberta and francophones in Montreal by the Cape Breton Development Corporation and by Canadian University Service Overseas in Tanzania In dialogue with the New Left liberal reformers committed to development programs they believed would empower the poor to confront their own poverty and thereby foster a more meaningful democracy However democracy and development proved to be fundamentally contested and development programs stopped short of amending capitalist social relations and the inequalities they engendered The Global Politics of Poverty in Canada explores how Canadians engaged in informal and formal politics in the course of their everyday lives locally and transnationally Langford provides an enduring record of otherwise fleeting anti poverty programs and their effects the lived activism and opinions of development workers and ordinary people

Michael Polanyi and His Generation Mary Jo Nye, 2011-09-16 In *Michael Polanyi and His Generation* Mary Jo Nye investigates the role that Michael Polanyi and several of his contemporaries played in the emergence of the social turn in the philosophy of science This turn involved seeing science as a socially based enterprise that does not rely on empiricism and reason alone but on social communities behavioral norms and personal commitments Nye argues that the roots of the social turn are to be found in the scientific culture and political events of Europe in the 1930s when scientific intellectuals struggled to defend the universal status of scientific knowledge and to justify public support for science in an era of economic catastrophe Stalinism and Fascism and increased demands for applications of science to industry and social welfare At the center of this struggle was Polanyi who Nye contends was one of the first advocates of this new conception of science Nye reconstructs Polanyi's

scientific and political milieus in Budapest Berlin and Manchester from the 1910s to the 1950s and explains how he and other natural scientists and social scientists of his generation including J D Bernal Ludwik Fleck Karl Mannheim and Robert K Merton and the next such as Thomas Kuhn forged a politically charged philosophy of science one that newly emphasized the social construction of science
