Wonderful Things: A History of Egyptology, Volume 3

Jason Thompson, 2018-10-16 The discovery of ancient Egypt and the development of Egyptology are momentous events in intellectual and cultural history The history of Egyptology is the story of the people famous and obscure who constructed the picture of ancient Egypt that we have today recovered the Egyptian past while inventing it anew and made a lost civilization comprehensible to generations of enchanted readers and viewers thousands of years later This the third of a three volume history of Egyptology follows the progress of the discipline from the trauma of the First World War through the vicissitudes of the twentieth century and into Egyptology's new horizons at the beginning of the twenty first century Wonderful Things affirms that the history of ancient Egypt has proved continually fascinating but it also demonstrates that the history of Egyptology is no less so Only by understanding how Egyptology has developed can we truly understand the Egyptian past

[An Introduction to](#)

[the Archaeology of Ancient Egypt](#) Kathryn A. Bard, 2015-01-07 This student friendly introduction to the archaeology of ancient Egypt guides readers from the Paleolithic to the Greco Roman periods and has now been updated to include recent discoveries and new illustrations Superbly illustrated with photographs maps and site plans with additional illustrations in this new edition Organized into 11 chapters covering the history of Egyptology and Egyptian archaeology prehistoric and

pharaonic chronology and the ancient Egyptian language geography resources and environment and seven chapters organized chronologically and devoted to specific archaeological sites and evidence Includes sections on salient topics such as the constructing the Great Pyramid at Giza and the process of mummification **Contesting Antiquity in Egypt** Donald Malcolm Reid, 2019-09-03 The history of the struggles for control over Egypt's antiquities and their repercussions during a period of intense national ferment The sensational discovery in 1922 of Tutankhamun's tomb close on the heels of Britain's declaration of Egyptian independence accelerated the growth in Egypt of both Egyptology as a formal discipline and of pharaonism popular interest in ancient Egypt as an inspiration in the struggle for full independence Emphasizing the three decades from 1922 until Nasser's revolution in 1952 this compelling follow up to *Whose Pharaohs* looks at the ways in which Egypt developed its own archaeologies Islamic Coptic and Greco Roman as well as the more dominant ancient Egyptian Each of these four archaeologies had given birth to and grown up around a major antiquities museum in Egypt Later Cairo Alexandria and Ain Shams universities joined in shaping these fields *Contesting Antiquity in Egypt* brings all four disciplines as well as the closely related history of tourism together in a single engaging framework Throughout this semi colonial era the British fought a prolonged rearguard action to retain control of the country while the French continued to dominate the Antiquities Service as they had since 1858 Traditional accounts highlight the role of European and American archaeologists in discovering and interpreting Egypt's long past Donald Reid redresses the balance by also paying close attention to the lives and careers of often neglected Egyptian specialists He draws attention not only to the contests between westerners and Egyptians over the control of antiquities but also to passionate debates among Egyptians themselves over pharaonism in relation to Islam and Arabism during a critical period of nascent nationalism Drawing on rich archival and published sources extensive interviews and material objects ranging from statues and murals to photographs and postage stamps this comprehensive study by one of the leading scholars in the field will make fascinating reading for scholars and students of Middle East history archaeology politics and museum and heritage studies as well as for the interested lay reader

Historical Dictionary of Ancient Nubia Richard A. Lobban Jr., 2021-04-10 This new book descends from a former combined reference book on Ancient and Medieval Nubia but now expands and focuses primarily on Prehistoric and Ancient times It contextualizes the foundational roots of human evolution in the Paleolithic and Mesolithic stone ages and on to the Neolithic revolution built on farming and livestock Meanwhile Kerma was the most ancient African states and their relationship with dynastic Egypt Precisely ancient Kerma was a serious political economic and military rival to Old and Middle Kingdoms of Egypt But in the New Kingdom the balance of regional forces was dramatically changed with Egyptians defeating Kerma and occupying and colonizing Kush Nubia for 500 years In the 11th century BCE the political unity of Egypt withered away and after recovering from foreign exploitation Nubians began to reconstitute a small state at Kurru with renewed pyramid building and then finding no Egyptian resistance these Nubians kings advanced on Egyptian Nubia and

then on to Upper Egypt Finally Nubians were able to take over all of Egypt as the pharaohs of century long Dynasty XXV This so called Ethiopian dynasty had the famed pharaohs of Piankhy Shabaka Shabataka Taharka and Tanutamun ruling for various terms three of who are mentioned in the Biblical Old Testament Even when Nubians were expelled from Egypt by foreign Assyrian invaders they retreated to Napata to carry on their ancient state for three more independent centuries as Egyptian remained conquered by various foreigners for 2 500 years Most notable of these foreign conquerors of Egypt were the Greeks Ptolemies and the Roman who arrived and polytheists and left as Christians During this Greco Roman period in Egypt Nubians strategically withdrew still further south to the Kingdom of Mero from the 4th century BCE to the 4th century CE Meroe is also covered in great detail as it was famed for many regnant queens a unique and undeciphered writing system iron production and important monumental works including more pyramids than found in Egypt Yes smaller and later but many more pyramids that are still standing in several World Heritage sites in Nubia After Mero began a long decline it was finally vulnerable to attack from Christian Axum on the 4th century CE Two murky centuries of regional rule known as the X Group were to follow but by the 6th century Nubians recreated three Christian states that are covered in detail in the following Historical Dictionary of Medieval Christian Nubia and the Historical Dictionary of Sudan for Islamic and modern times
