Recollections Of An Old 52nd Man:

Recollections of an Old 52nd Man John Dobbs, 1859 Wellington's Men Remembered Volume 1 Janet Bromley, David Bromley, 2012-04-19 Wellington's Men Remembered is a reference work to be published in two volumes which has been compiled on behalf of the The Waterloo Association containing over 3 000 memorials to soldiers who fought in the Peninsular War and at Waterloo between 1808 and 1815 together with 150 battlefield and regimental memorials in 28 countries world wide **Dead Men Telling Tales** Matilda Greig, 2021 Dead Men Telling Tales is an original account of the lasting cultural impact made by the autobiographies of Napoleonic soldiers over the course of the nineteenth century Focusing on the nearly three hundred military memoirs published by British French Spanish and Portuguese veterans of the Peninsular War 1808 1814 Matilda Greig charts the histories of these books over the course of a hundred years around Europe and the Atlantic and from writing to publication to afterlife Drawing on extensive archival research in multiple languages she challenges assumptions made by historians about the reliability of these soldiers direct eyewitness accounts revealing the personal and political motives of the authors and uncovering the large cast of characters from family members to publishers editors and translators involved in production behind the scenes By including literature from Spain and Portugal Greig also provides a missing link in current studies of the Revolutionary and Napoleonic Wars showing how the genre of military memoirs developed differently in south western Europe and led to starkly opposing national narratives of the same war Her findings tell the history of a publishing phenomenon which gripped readers of all ages across the world in the nineteenth century made significant profits for those involved and was fundamental in defining the modern soldier's tale *The Military Memoir and Romantic Literary Culture, 1780-1835* Neil Ramsey, 2016-12-05 Examining the memoirs and autobiographies of British soldiers during the Romantic period Neil Ramsey explores the effect of these as cultural forms mediating warfare to the reading public during and immediately after the French Revolutionary and Napoleonic wars Forming a distinct and commercially successful genre that in turn inspired the military and nautical novels that flourished in the 1830s military memoirs profoundly shaped nineteenth century British culture's understanding of war as Romantic adventure establishing images of the nation's middle class soldier heroes that would be of enduring significance through the nineteenth and twentieth centuries As Ramsey shows the military memoir achieved widespread acclaim and commercial success among the reading public of the late Romantic era Ramsey assesses their influence in relation to Romantic culture's wider understanding of war writing autobiography and authorship and to the shifting relationships between the individual the soldier and the nation The memoirs Ramsey argues participated in a sentimental response to the period's wars by transforming earlier impersonal traditions of military memoirs into stories of the soldier's personal suffering While the focus on suffering established in part a lasting strand of anti war writing in memoirs by private soldiers such stories also helped to foster a sympathetic bond between the soldier and the civilian that played an important role in developing ideas of a national

war and functioned as a central component in a national commemoration of war **The Publishers' Circular and Booksellers' Record** ,1928 The Publisher ,1901 **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1894 **Wellington's Light Division and the Invasion of Spain** Robert Burnham,Ron McGuigan,2025-12-30 After evicting the French from Portugal in 1811 the Duke of Wellington went on the offensive having decided to attack into Spain and liberate the country To do this however he first had to capture the key border fortresses of Ciudad Rodrigo and Badajoz By doing this he would secure the main routes into Portugal and protect his supply lines By mid April in 1812 Wellington's forces had captured both fortresses and he began planning to move into central Spain to liberate Madrid Then by late July he fought and effectively destroyed the French Army of Portugal at the Battle of Salamanca and a month later was welcomed by the population of Madrid as its liberator However September saw the offensive stall and a gathering of French forces By October the order came to abandon Madrid and withdraw back to Portugal Wellington's army had to move quickly to avoid being cut off and its line of communication with Lisbon severed The retreat soon turned into a grueling slog in miserable weather with little food all the while the British troops were pursued by a relentless enemy hard on their heels It would be late November before the army reached the safety of the Portuguese border As in previous years the Light Division was in the thick of the fighting It was part of the assault force at both the storming of Ciudad Rodrigo and of Badajoz It led the army into Spain and was on the left flank at Salamanca It was one of the first units to march into Madrid and during the retreat it was part of the rear guard By the end of November 1812 the division was back in its cantonments around Ciudad Rodrigo It had however taken horrendous casualties at all levels over the past eleven months and it was only a shadow of itself Packed with first hand accounts and previously unpublished material these new sources especially the diaries permit us to check the movements and locations of the regiments the impact of over extended supply lines and the arrival of reinforcements and new commanders as never before revealed *The Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1901 **The Wandering Army** Huw J. Davies,2022-12-13 A compelling history of the British Army in the eighteenth and nineteenth centuries showing how the military gathered knowledge from campaigns across the globe Superb analysis William Anthony Hay Wall Street Journal At the outbreak of the War of Austrian Succession in 1742 the British Army's military tactics were tired and outdated stultified after three decades of peace The army's leadership was conservative resistant to change and unable to match new military techniques developing on the continent Losses were cataclysmic and the force was in dire need of modernization both in terms of strategy and in leadership and technology In this wide ranging and highly original account Huw J Davies traces the British Army's accumulation of military knowledge across the following century An essentially global force British armies and soldiers continually gleaned and synthesized strategy from war zones the world over from Europe to the Americas Africa and Asia Davies records how the army and its officers put this globally acquired knowledge to use exchanging information and developing into a remarkable

vehicle of innovation leading to the pinnacle of its military prowess in the nineteenth century
