Reconstructing The Common Good Theology And The Social Order:

Reconstructing the Common Good Gary J. Dorrien, 2008-05-01 This landmark study in the history and theory of modern Christian socialism examines the work of such major figures as Rauschenbusch, Tillich, Moltmann, Gutierrez and Miguez Bonino. Dorrien argues that these theologians provide a singular context for addressing questions of freedom and totalitarianism, sacralization and democratization, individual autonomy and the common good. He focuses on the differing conceptions of the common good that these major theorists have propounded and explicates as well their theological arguments on the relationship between the Kingdom of God and projects of historical praxis. With a new Preface addressing the tumultuous events in Eastern Europe, *Reconstructing the Common Good* develops and sustains a forceful argument for the continuing relevance of a decentralized, pluralistic, democratic form of socialism. *The Word as True Myth* Gary J. Dorrien, 1997-01-01 Gary Dorrien follows the threads of theology through the twentieth century, examining how Christians have reconciled their myth-filled religious beliefs within a world secularized by Enlightenment criticism and science. To understand how religion keeps its place in Christians' lives, Dorrien writes, we must explore how modern theologians have answered the question of myth in today's Christianity. Dorrien's narrative walks readers through modern theology, stopping with each of the major thinkers along the way to see how they dealt with the issue of modern Christian mythology. Ultimately, he offers his own new neo-orthodoxy, a theology of Word and Spirit that is pluralistic and affirms the mythical character of the gospel while holding fast to the Gospels' myth negating condemnation of idolatry and their focus on history. *Social Ethics in the Making* Gary Dorrien, 2011-04-06 In the early 1880s, proponents of what came to be called the social gospel founded what is now known as social ethics. This ambitious and magisterial book describes the tradition of social ethics, one that began with the distinctly modern idea that Christianity has a social ethical mission to transform the structures of society in the direction of social justice. Charts the story of social ethics, the idea that Christianity has a social ethical mission to transform society from its roots in the nineteenth century through to the present day. Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy, church, and general public. Looks at the wide variety of individuals who have been prominent exponents of social ethics, from academics and self-styled public intellectuals through to pastors and activists. Set to become the definitive reference guide to the history and development of social ethics. Recipient of a CHOICE Outstanding Academic Title for 2009 award. *Economy, Difference, Empire* Gary J. Dorrien, 2010 Sourcing the major traditions of progressive Christian social ethics: social gospel, liberalism, Niebuhrian realism, and liberation theology. Gary Dorrien argues for the social ethical necessity of social justice politics. In carefully reasoned essays, he focuses on three subjects: the ethics and politics of economic justice, racial and gender justice, and antimilitarism, making a constructive case for economic democracy along with a liberationist understanding of racial and gender justice and an anti-imperial form of liberal internationalism. In Dorrien's view, the three major discourse traditions of progressive Christian social ethics share a

fundamental commitment to transform the structures of society in the direction of social justice His reflections on these topics feature innovative analyses of major figures such as Walter Rauschenbusch Reinhold Niebuhr James Burnham Norman Thomas and Michael Harrington and an extensive engagement with contemporary intellectuals such as Rosemary R Ruether Katie Cannon Gregory Baum and Cornel West Dorrien also weaves his personal experiences into his narrative especially his involvement in social justice movements He includes a special chapter on the 2008 presidential campaign and the historic candidacy of Barack Obama

Soul in Society Gary J. Dorrien, 1995 Gary Dorrien s major work addresses the roots of and remedy to the current crisis in American Christian social ethics Focusing on the story of American liberal Protestantism the book examines in fascinating depth the three major movements in this century the Social Gospel Christian Realism and Liberation Theology in a way that also brings African American feminist environmentalist Catholic and other voices into the increasingly multicultural quest Dorrien then carefully assesses the crisis of social Christian thought in a culture that is increasingly secular materialistic and dominated by capitalism He shows how the progressive Christian vision of social and economic democracy can be redeemed in the face of its apparent defeat He argues strongly for a social Christianity faithful to the spiritual reality and kingdom oriented ethic of the way of Christ Dorrien s engaging narrative knowledgeable and fair analysis and thoughtful proposal bring desperately needed clarity and commitment to the Christian social conscience
