Records Of British Business And Industry 1760 1914 Textiles And Leather:

Records of British Business and Industry, 1760-1914: Textiles and Leather Great Britain. Royal Commission on Historical Manuscripts, 1982 **Records of British Business and Industry, 1760-1914** Great Britain. Royal Commission on Historical Manuscripts, 1990 This volume describes the records of 1200 companies partnerships and individuals active in the manufacture and finishing of textiles clothing and leather when these industries were establishing and consolidating Britain's position as the world's most important industrial and commercial power It is based on a survey that covered collections in record repositories libraries and museums and also archives retained by the original firms or their successors Details of many of these have not previously been available to the historian The guide provides information not only about practices and developments in management accounting production and marketing but also about textile design industrial archaeology and social conditions **Records of British Business and Industry**, 1990 *British Cotton Textiles: Maturity and Decline* David Higgins, Steven Toms, 2018-11-09 This book examines the decline of the cotton textiles industry which defined Britain as an industrial nation from its peak in the late nineteenth century to the state of the industry at the end of the twentieth century Focusing on the owners and managers of cotton businesses the authors examine how they mobilised financial resources their attitudes to industry structure and technology and their responses to the challenges posed by global markets The origins of the problems which forced the industry into decline are not found in any apparent loss of competitiveness during the long nineteenth century but rather in the disastrous refloating after the First World War As a consequence of these speculations rationalisation and restructuring became more difficult at the time when they were most needed and government intervention led to a series of partial solutions to what became a process of protracted decline In the post 1945 period the authors show how government policy encouraged capital withdrawal rather than encouraging the investment needed for restructuring The examples of corporate success since the Second World War such as David Alliance and his Viyella Group exploited government policy access to capital markets and closer relationships with retailers but were ultimately unable to respond effectively to international competition and the challenges of globalisation The chapters in this book were originally published in *Business History and Accounting Business and Financial History* *British Archives* J.
