In the movies, many characters heal very quickly after getting hurt. Some, like Wolverine or Rapunzel, even have special healing powers. However, when a person gets hurt in real life, it may take a lot of patience and hard work to get better. People who are recovering from an injury may also need support from the community and care from healthcare and educational professionals. In particular, it takes time and hard work to recover after a traumatic brain injury (TBI). People with TBI work with a special group of professionals, called a rehabilitation team, to get better. In this article, we will learn about a boy named Dante, who had a TBI after falling off his bicycle. We will learn what happened in Dante's brain after he got hurt and how his rehabilitation team helped him after his TBI. We will finish up by talking about how you can help people with TBI in your community.

Even though you cannot see your brain, it is the most complicated part of your body. Your brain controls how you move, think, and experience the world. It controls things that you do intentionally, like the words
