Community in Conflict Gary Kaunonen, Aaron Goings, 2013-07-01 A mirror of great changes that were occurring on the national labor rights scene, the 1913-14 Michigan Copper Strike was a time of unprecedented social upheaval in Michigan's Upper Peninsula. With organized labor taking an aggressive stance against the excesses of unfettered capitalism, the stage was set for a major struggle between labor and management. The Michigan Copper Strike received national attention and garnered the support of luminaries in organized labor like Mother Jones, John Mitchell, Clarence Darrow, and Charles Moyer. The hope of victory was overshadowed, however, by violent incidents like the shooting of striking workers and their family members and the bitterness of a community divided. No other event came to symbolize or memorialize the strike more than the Italian Hall tragedy, in which dozens of workers and working class children died. In *Community in Conflict*, the efforts of working people to gain a voice on the job and in their community through their unions and the efforts of employers to crush those unions take center stage. Previously untapped historical sources such as labor spy reports, union newspapers, coded messages, and artifacts shine new light on this epic and ultimately tragic period in American labor history.

Transnational Labour History Marcel van der Linden, 2017-07-05 There has been a growing recognition amongst scholars that labour historians need to look beyond national borders in order to place the history of the working classes into a much broader context than has hitherto been the case. Whilst studies focused on individual countries are essential, it is only by comparing and contrasting the experiences across time and space that a true understanding of the subject can be attempted. Professor Marcel van der Linden has contributed much to the debate on cross border processes and comparisons. This volume makes available in English a collection of twelve of his most important essays on the theme of transnational labour history. Previously published in a range of journals and volumes, with two original contributions, *Transnational Labour History* brings them together in a single convenient collection, together with a new introduction. This work will undoubtedly provide an invaluable resource for all students of European labour history.

Radicals in the Barrio Justin Akers Chacón, 2018-06-26 *Radicals in the Barrio* uncovers a long and rich history of political radicalism within the Mexican and Chicano working class in the United States. Chacón clearly and sympathetically documents the ways that migratory workers carried with them radical political ideologies, new organizational models, and shared class experience as they crossed the border into southwestern barrios during the first three decades of the twentieth century. Justin Akers Chacón's previous work includes *No One is Illegal: Fighting Racism and State Violence on the U.S.-Mexico Border* with Mike Davis.
