Vienna and the New Wohnkultur, 1918-1938 Michelle Jackson-Beckett, 2024-03-20 While the domestic sphere might seem tangential to the dire political situation and humanitarian crises of interwar Europe it was nevertheless at the forefront of debates about cultural identity and economic policy in the Viennese press culture and arts Vienna and the New Wohnkultur 1918 1938 explores why and how the Viennese design landscape was set apart aesthetically and theoretically from other European explorations of modern design Jackson Beckett examines interior design exhibitions press and debates about modern living in interwar Vienna an overlooked area of modern European architecture and design history arguing for a reconsideration of the contours of European modernism The text analyses varied interpretations of modern domestic culture Wohnkultur in Vienna and explores why these interpretations

were distinct from other strands of European modernism Vienna and the New Wohnkultur introduces new research and translation of primary sources on flexible adaptable and affordable design by architects designers and retailers Vienna s design discourse also prefigured important postmodern and contemporary discussions on historicism eclecticism empathy and user experience Through extensive new research in archival and period sources Jackson Beckett illustrates how design ideas taste and portrayals of domestic culture of fin de si cle Viennese Modernism Wiener Moderne were also deployed as forms of cultural and national identity both during the early years of the Social Democratic government in Vienna 1918 1934 and later under the fascist state 1934 1938

Bibliography of the History of Medicine ,1993 **Identity's Architect** Lawrence Jacob Friedman,2000 Drawing on private materials and extensive interviews historian Lawrence J Friedman illuminates the relationship between Erik Erikson s personal life and his notion of the life cycle and the identity crisis From publisher s description *Revolution in Mind* George Makari,2008 George Makari has written nothing less than a history of the modern mind But REVOLUTION IN MIND is also a tragedy It is the moving story of what we lost when the old world went up in flames Paul Auster An award winning scholar and writer delivers a definitive radically new history of Freud his disciples and the tumultuous history of psychoanalysis In this brilliant engaging and accessible work the first comprehensive history of the subject ever written renowned psychoanalyst George Makari goes past the heated debates over Freud to tell the fuller story of the origins and development of psychoanalysis in Europe Beginning with great changes in late 19th century science medicine and philosophy Makari traces the field s diverse intellectual influences and the fascinating characters who shaped its formation until 1945 Groundbreaking insightful and compulsively readable REVOLUTION IN MIND is a fascinating history of one of the most important movements of modern times *Greek Sculpture and the Problem of Description* A. A. Donohue,2005-06-08 This book examines how interpretation and examination of Greek sculpture are intertwined

Psychology, Art, and Antifascism Louis Rose,2016-09-15 A vivid portrait of two remarkable twentieth century thinkers and their landmark collaboration on the use and abuse of caricature and propaganda in the modern world In 1934 Viennese art historian and psychoanalyst Ernst Kris invited his mentee E H Gombrich to collaborate on a project that had implications for psychology and neuroscience and foreshadowed their contributions to the Allied war effort Their subject caricature and its use and abuse in propaganda Their collaboration was a seminal early effort to integrate science the humanities and political awareness In this fascinating biographical and intellectual study Louis Rose explores the content of Kris and Gombrich s project and its legacy

Black Vienna Janek Wasserman,2014-08-21 Interwar Vienna was considered a bastion of radical socialist thought and its reputation as Red Vienna has loomed large in both the popular imagination and the historiography of Central Europe However as Janek Wasserman shows in this book a Black Vienna existed as well its members voiced critiques of the postwar democratic order Jewish inclusion and Enlightenment values providing a theoretical foundation for Austrian and Central European fascist movements Looking at the complex interplay between intellectuals the

public and the state he argues that seemingly apolitical Viennese intellectuals especially conservative ones dramatically affected the course of Austrian history While Red Viennese intellectuals mounted an impressive challenge in cultural and intellectual forums throughout the city radical conservatism carried the day Black Viennese intellectuals hastened the destruction of the First Republic facilitating the establishment of the Austrofascist state and paving the way for Anschluss with Nazi Germany Closely observing the works and actions of Viennese reformers journalists philosophers and scientists Wasserman traces intellectual social and political developments in the Austrian First Republic while highlighting intellectuals participation in the growing worldwide conflict between socialism conservatism and fascism Vienna was a microcosm of larger developments in Europe the rise of the radical right and the struggle between competing ideological visions By focusing on the evolution of Austrian conservatism Wasserman complicates post World War II narratives about Austrian anti fascism and Austrian victimhood

Clinical Psychology Since 1917 Donald K. Routh, 2013-11-21 This book is dedicated to my wife Marion W Routh In her way she has been informally involved in clinical psychology organizations for as many years as I have She has also served for many years as the first reader of almost all manuscripts I have written including the one for this book I can always depend on her to tell me straight out what she thinks When she found out I was writing this book she was afraid that the mass of detailed factual information I was gathering would be dull to read Therefore when I actually started writing I laid aside all notes and just told the story in a way that flowed as freely as possible I went back later to fill in the documentation and to correct factual errors that had crept in When she looked over the first draft of the book her comment was It is not as boring as I thought it would be Her frankness is so dependable that I knew from these words that there was hope but that I had my work cut out for me in the revision process By the middle of the second draft she grudgingly had to admit that she was getting hooked on the book and kept asking where the next chapter was

The Dawn of Cognitive Science L. Albertazzi, 2013-04-17 Current debate in cognitive science

from robotics to analysis of vision deals with problems like the perception of form the structure and formation of mental images and their modelling the ecological development of artificial intelligence and cognitive analysis of natural language It focuses in particular on the presence of a hierarchy of intellectual constructions in different formats of representation These diverse approaches which share a common assumption of the inner nature of representation call for a new epistemology even a new psychophysics based on a theory of reference which is intrinsically cognitive As a contribution to contemporary research the reading presents the core of theories developed in Central Europe between the late nineteenth and early twentieth centuries by philosophers physicists psychologists and semanticists who shared a dynamic approach and a pronounced concern with problems of interaction and dependence These theories offer innovative solutions to some of the epistemological and philosophical problems currently at the centre of debate like part whole theory of relations and conceptual and linguistic categorization

African Intellectuals in the Post-colonial World Fetson A Kalua,2019-08-28 This book examines the role of African intellectuals in the years since the end of colonialism studying the contribution that has been made by such individuals both to political causes and to development within Africa Studying the concept of the intellectual within an African context this book explores the responses of such individuals to crucial issues such as cultural identity and knowledge production The author argues that since the end of colonialism in Africa various often intertwining factors such as nationalism and co option have been used by black politicians or the political elites to muddle the roles and functions of black African intellectuals Focusing on these confused roles and functions the book posits that over the years most intellectuals in Africa have found the practice of cheerleading for a political cause more productive than making valuable contributions towards dynamic and progressive leadership in their countries This book will be of interest to students and scholars of African studies politics and development studies

The Dark Valley Piers Brendon,2002-01-08 The 1930s were perhaps the seminal decade in twentieth century history a dark time of global depression that displaced millions paralyzed the liberal democracies gave rise to totalitarian regimes and ultimately led to the Second World War In this sweeping history Piers Brendon brings the tragic dismal days of the 1930s to life From Stalinist pogroms to New Deal programs Brendon re creates the full scope of a slow international descent towards war Offering perfect sketches of the players riveting descriptions of major events and crises and telling details from everyday life he offers both a grand rousing narrative and an intimate portrait of an era that make sense out of the fascinating complicated and profoundly influential years of the 1930s

Freud's Free Clinics Elizabeth Ann Danto,2005-04-26 Today many view Sigmund Freud as an elitist whose psychoanalytic treatment was reserved for the intellectually and financially advantaged However in this new work Elizabeth Ann Danto presents a strikingly different picture of Freud and the early psychoanalytic movement Danto recovers the neglected history of Freud and other analysts intense social activism and their commitment to treating the poor and working classes Danto s narrative begins in the years following the end of World War I and the fall of the Habsburg Empire

Joining with the social democratic and artistic movements that were sweeping across Central and Western Europe analysts such as Freud Wilhelm Reich Erik Erikson Karen Horney Erich Fromm and Helene Deutsch envisioned a new role for psychoanalysis These psychoanalysts saw themselves as brokers of social change and viewed psychoanalysis as a challenge to conventional political and social traditions Between 1920 and 1938 and in ten different cities they created outpatient centers that provided free mental health care They believed that psychoanalysis would share in the transformation of civil society and that these new outpatient centers would help restore people to their inherently good and productive selves Drawing on oral histories and new archival material Danto offers vivid portraits of the movement's central figures and their beliefs She explores the successes failures and challenges faced by free institutes such as the Berlin Poliklinik the Vienna Ambulatorium and Alfred Adler's child guidance clinics She also describes the efforts of Wilhelm Reich's Sex Pol a fusion of psychoanalysis and left wing politics which provided free counseling and sex education and aimed to end public repression of private sexuality In addition to situating the efforts of psychoanalysts in the political and cultural contexts of Weimar Germany and Red Vienna Danto also discusses the important treatments and methods developed during this period including child analysis short term therapy crisis intervention task centered treatment active therapy and clinical case presentations Her work illuminates the importance of the social environment and the idea of community to the theory and practice of psychoanalysis

The Forgotten Analyst Prophecy Coles, 2024-12-05 Hermine Hug Hellmuth was an extremely gifted and intelligent woman with a poetic mind that had been influenced by the German Romantic Movement Her untimely murder at the age of fifty four by her illegitimately born nephew Rolph has cast a shadow over her reputation Her original contribution to understanding the mind of the child her fine appreciation of the psychological suffering of the illegitimate child and her challenge to Freud's theory about female sexuality has been largely ignored in order to save the reputation of the history of psychoanalysis Her murder needs to be understood against the backdrop of the many tragedies she suffered She lost her mother Ludovika when she was twelve and her father Hugo deceived her over her illegitimately born half sister Antonia Hermine felt deeply unloved and could never trust anyone to get close to her When Antonia died leaving behind her nine year old illegitimately born son Rolph Hermine was faced again with the stigma of illegitimacy and her father's lie about Antonia She was further humiliated by Antonia's stipulation in her will that Rolph was not to be cared for by Hermine The sisters had fallen out over Hermine's analysis with self styled psychoanalyst Isidor Sadger who disliked Antonia and Hermine publishing extensive observations about Rolph and his sexual behaviour Rolph was a troubled child and his disrupted upbringing after his mother's death was compounded by Hermine's ambivalent behaviour towards him In the end her father's lie Antonia's will and the behaviour of her delinquent nephew rebounded upon her and the intergenerational trauma achieved its nemesis in her murder Prophecy Coles brings new insights to the life of the first child psychoanalyst She reveals Hug Hellmuth to be a woman before her time in her profound understanding of children women's sexuality and desires the impact of a mother's

state of mind upon inter uterine life and the concept of motherese the universal pre verbal language of mothers and their newborn babies Coles exposes Hug Hellmuth's genius her flaws and her inadequate care of her troubled nephew to create a rounded picture of a brilliant woman trying to find her own path while struggling with her own demons and the constraints of the time

The Murder of Professor Schlick David Edmonds, 2022-03-29 On June 22 1936 the philosopher Moritz Schlick was on his way to deliver a lecture at the University of Vienna when Johann Nelb ck a deranged former student of Schlick's shot him dead on the university steps Some Austrian newspapers defended the madman while Nelb ck argued in court that his onetime teacher had promoted a treacherous Jewish philosophy Weaving an enthralling narrative set against the backdrop of rising extremism in Hitler's Europe David Edmonds traces the rise and fall of the Vienna Circle associated with brilliant thinkers like Otto Neurath Kurt G del Rudolf Carnap Ludwig Wittgenstein and Karl Popper and of a philosophical movement movement that sought to do away with metaphysics and pseudoscience in a city darkened by and unreason

Engineered to Sell Jan L. Logemann, 2019-11-20 The mid twentieth century marketing world influenced nearly every aspect of American culture music literature politics economics consumerism race relations gender and more In *Engineered to Sell* Jan L Logemann traces the transnational careers of consumer engineers in advertising market research and commercial design who transformed capitalism from the 1930s through the 1960s He argues that the history of marketing consumer goods is not a story of American exceptionalism Instead the careers of immigrants point to the limits of the Americanization paradigm Logemann explains the rise of a dynamic world of goods and examines how and why consumer engineering was shaped by transatlantic exchanges From Austrian psychologists and little known social scientists to the illustrious Bauhaus artists the emigrants at the center of this story illustrate the vibrant cultural and commercial connections between metropolitan centers Vienna and New York Paris and Chicago Berlin and San Francisco By focusing on the transnational lives of emigrant consumer researchers marketers and designers *Engineered to Sell* details the processes of cultural translation and adaptation that mark both the midcentury transformation of American marketing and the subsequent European shift to American consumer capitalism

Forced Migration and Scientific Change Mitchell G. Ash, Alfons Söllner, David

Lazar, 2002-06-06 The dismissal of civil servants on racist or political grounds in April 1933 marked the beginning of a massive forced exodus of mainly Jewish scholars and scientists from Nazi Germany a phenomenon unprecedented in the modern history of academic life The essays in this volume examine whether that exodus of reason led to significant scientific change and if so how that change should be characterised The volume challenges the focus of earlier work on the intellectual migration on losses for German science and gains for British and American science Instead the authors proceed from the assumption that the sciences are open dynamic and historically contingent systems and explore the multiple complex interactions of biographical social and cultural circumstances with changes or lack of change in the migrants' scientific thinking and research
