Red Lacquered Gate The Story Of Bishop:

The Red Lacquered Gate William E. Barrett, 2014-07-11 **The United States in Asia** David Shavit, 1990-11-30

Shavit's historical dictionary addresses the critical need in academic libraries for reference sources that provide undergraduate and beginning graduate students of American foreign policy with introductory information on the persons, events, and institutions that have influenced US relations with other nations. A useful dictionary. Choice. Contact between the United States and Asia began in the 17th century when several Americans went to India as employees of the East India company. A myriad of sea captains and merchants, missionaries, consuls, and diplomats, travelers, journalists, businessmen, engineers, naturalists, educators, and authors and artists followed, establishing a gamut of relationships between the United States and Asia. This volume provides in alphabetical format information about those individuals, institutions, and events that most affected the relationships between the United States and Asia. The dictionary focuses on individuals who contributed in a significant way to US Asian relations, especially those who left a written record of their experiences. The book covers all countries of Asia except those of the Middle East, which are in a separate volume by Shavit. Shavit has succeeded in making the information highly accessible as well as comprehensive. The front matter includes a list of abbreviations, place names, and a chronology. A short introduction then leads into the dictionary itself. References at the end of each entry note whether the subject is covered in general biographical dictionaries and list books and articles on the subject. A system of asterisks cross-references people, events, and institutions that have their own entries in the dictionary. Two appendixes: a list of the chiefs of American diplomatic missions to Asia from 1843 to 1989 and a list of individuals organized by profession and occupation are added. Handy reference materials. A bibliographical essay and index complete the book. This impressive new historical dictionary is a useful reference guide for any student of American relations with Asia. [American Catholic China Missionaries, 1918-1941](#) Thomas A. Breslin, 1972 **China, American Catholicism, and the Missionary** Thomas A. Breslin, 1980 **The Nature of Disaster in China** Chris Courtney, 2018-02-15 In 1931 China suffered a catastrophic flood that claimed millions of lives. This was neither a natural nor human-made disaster. Rather, it was created by an interaction between the environment and society. Regular inundation had long been an integral feature of the ecology and culture of the middle Yangtze, yet by the modern era floods had become humanitarian catastrophes. Courtney describes how the ecological and economic effects of the 1931 flood pulse caused widespread famine and epidemics. He takes readers into the inundated streets of Wuhan, describing the terrifying and disorientating sensory environment. He explains why locals believed that an angry Dragon King was causing the flood and explores how Japanese invasion and war with the Communists inhibited both official relief efforts and refugee coping strategies. This innovative study offers the first in-depth analysis of the 1931 flood and charts the evolution of one of China's most persistent environmental problems. **Ave Maria**, 1967 [Franciscan Message](#), 1967 **Be Centered in Christ and Not in Self** Angelyn Dries, 2017-07-25 The story of the one hundred years
