Red Shirt The Cross Of Savoy:

The Red Shirt and the Cross of Savoy George Whitney Martin, 1969 The Red Shirt and the Cross of Savoy George Martin, 1969 *Britain's War for the Mediterranean* William Casey Baker, 2024-04-24 Britain's War for the Mediterranean provides a definitive study on British warmaking in the Mediterranean during the War of the First Coalition. It traces the origins of foreign and naval policies from the early eighteenth century to describe the duality of British affairs. These contradictions manifested themselves in the War of the First Coalition as Great Britain attempted to build consensus in the Mediterranean World while clinging to its power base of naval power and commerce. The book explores the decisions of individuals and the wider trends of the British political and naval system honed over the course of the eighteenth century. In explaining war against Revolutionary France, the book follows the decisions of admirals, diplomats, and politicians in attempting to cobble together a coalition of Spanish, Austrian, Sardinian, and Neapolitan forces. This book also makes connections with the other theaters of war: The Austrian Netherlands and the Caribbean. Britain's War for the Mediterranean examines the internal working of the British government during the crisis of the French Revolution. It focuses on how politicians, diplomats, and military commanders formulated strategy for the Mediterranean theater. One of the major conclusions of this book is that the British government never spoke with one voice. Lacking synchronization in a changing conflict, the structure and conflicting objectives of each branch of the government failed to create a coherent plan to resist Republican expansion in the region. The book complicates the simplistic view of previous works on the weakness of allies and the naivete of the Pitt ministry providing agency to diplomats and commanders across the region. The second major conclusion is that these conflicting objectives were firmly rooted in the experiences of the eighteenth century. British diplomacy, crippled in the aftermath of the American Revolution, saw the French Revolution as an opportunity to build consensus and a shared view of a British world. French aggression offered an opportunity to reclaim a position of influence lost over the course of the 1700s. In contrast, the trajectory of British foreign policy shaped the use of the Royal Navy in the eighteenth century. A trans-Atlantic force, a war in the Mediterranean forced British admirals to relearn the complicated nature of regional foreign policy. Diplomacy and naval power clashed over the conduct of the war, one rooted in foreign courts, the other in maritime coercion.

Cardinal Giacomo Antonelli and Papal Politics in European Affairs Frank J. Coppa, 1990-01-01 Coppa provides the first full-length study of Giacomo Antonelli, friend and advisor to Pope Pius IX, Pio Nono, and his Secretary of State and chief minister from 1849 to 1876. Based on the documents of the secret Vatican Archives and neglected family papers in the State Archive in Rome, the book gives an important reevaluation of this key diplomatic figure, separating the man from the myth and delving into his character and policies. The book examines both the personality and policies of the Cardinal, who was seen to be the Pope's Richelieu and Mazarin combined. Confronting the polemical literature which has charged him with sexual misconduct and venality, the study examines his early formation and career. The

inspiration for his European policies his relationship to Pio Nono and the part he played in the Counter Risorgimento and the Papal reaction By improving our understanding of Papal Italian and European developments during these crucial decades this study provides new insights into Rome s fortress mentality and its rejection of the main currents that were transforming western life currents that influenced not only the Catholic Church but European society as a whole *The Longman Companion to European Nationalism 1789-1920* Raymond Pearson,2014-09-25 A highly topical analysis of European Nationalism from the French Revolution through to the aftermath of the First World War when the nationalist issues and problems that dominate the political landscape of our own time were already fully established Covering an enormous range of peoples from the Icelanders to the Gypsies from Brittany to Wallachia the book presents a wealth of historical geopolitical information unavailable elsewhere Essential as a reference work it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context For historians political scientists departments of European studies and general readers **Italy's Most Wanted™** Luciano Mangiafico,2007-11-30 Visit the Old Country

Elizabeth Barrett Browning's Spiritual Progress: Face to Face with God Linda M. Lewis, 1998 Lewis English Bethany College studies Browning's religion as poetry and her poetry as religion interpreting her literary life as an arduous spiritual quest Using insights from contemporary feminist thought she argues that Browning's religious assumptions and insights range from the conventional to the iconoclastic and that her political and social ideology are consistent in light of her spiritual quest Draws on Browning's most admired poetry as well as her early poems and her political works and compares her ideology to that of early feminists conservatives and male Victorian poets Annotation copyrighted by Book News Inc Portland OR
