Reengineering China:

Re-engineering Affordable Care Policy in China Peter Nan-shong Lee, 2018-12-14 Presenting a comprehensive examination of China's medical care system this book tackles issues of policymaking organization management and financing in the context of the provision of affordable care in China Making use of extensive field investigations interviews and a thorough analysis of documents this book examines the re structuring of the medical care system spanning more than three and half decades from 1979 to the present day Assessing the difficulties of regulatory control in the health care sector it also explores theoretical alternatives including post Weberian constructs of uncertainty and control as well as franchise and asymmetric information in market transactions Ultimately it argues that patient medical care has become less and less affordable amid shrinking government subsidies breakdowns of public insurances and increases in user charges especially between the mid 1990s and mid 2000s Whilst the government took decades to re organize the public hospital system and rebuild public insurances it faced a dilemma of enforcing both low cost medical care and maintaining revenue flow to public hospitals through marketization Re engineering Affordable Care Policy in China provides extensive discussion of the policymaking process as well as detailed analysis of policy contents As such it will be invaluable to students and scholars of Chinese social policy and public administration as well as Chinese Studies more generally **Business China**, 1995

Globalizing China - Social and Governance Reforms Ka Ho Mok, 2022-12-30 Unlike most books which consider China's transformation and globalization over the last four decades by focusing on China's economic growth this book examines how the Chinese regime has handled the increasingly complex sociopolitical and socio economic challenges generated as a result of the country's economic growth and transformation challenges arising both from within the country and also from the external political environment Based on extensive original research the book outlines how China's economic development has generated social and governance pressures discusses the government's social educational and governance reforms and highlights how China's development experiences which differ from the Western economies with democratic political regimes have drawn increasing attention from other countries in the developing world as an example to follow *Mining Science and Technology* Yuehan Wang, Shirong Ge, Guangli Guo, 2004-09-15 Jointly sponsored by the China University of Mining and Technology and the University of Nottingham UK a total of 187 papers have been included in the proceedings of which fifty two are contributed by authors outside of China Scholars and experts from both China and abroad discuss and exchange information on the latest developments in mining sc New Dual Economy: New Economic Prosperity And The Reengineering Of The Traditional Economy Chunsheng Zhou, Ziliang Wang, 2025-04-02 This book attempts to establish a new theoretical framework to analyze the intrinsic patterns of economic growth structural transformation and the shift of economic momentum in the digital economy era The book provides a detailed discussion on the interactions between the old and new economic sectors the limitless and limited sectors the migration of labor and capital between different sectors as

well as the accumulation of knowledge capital such as data technology and creativity. Additionally, it delves into the growth mechanisms of the new dual economy. Given the characteristics of competition and deep integration between the limitless and limited sectors in the new dual economy era, the book also explores the transformation and digitalization of traditional enterprises. This book not only focuses on theoretical innovation and exploration but also closely relates to the realities of new economic development and China's economic transformation. It holds reference value for economic researchers, government departments, and entrepreneurs.

Re-balancing China Peter Nolan, 2015-03-01. Re-balancing China addresses three key sets of issues in China's political economy. Part One provides an analysis of the profound effect of the global financial crisis upon China's economy as well as the positive impact of the massive rescue package that was implemented in response to the crisis. Part Two focuses on the challenge of globalization for China's industrial policy. After more than two decades of industrial policy, China still has a negligible number of large firms that are competitive in global markets. China's experience presents a fundamental challenge to traditional concepts of industrial policy and development. Part Three examines China's international relations in particular its relationship with the US and the interactions between the two countries in the East and South China Seas.

Higher Education, Innovation and Entrepreneurship from Comparative Perspectives Ka Ho Mok, 2022-04-25. This book analyzes how universities in the Greater Bay Area in South China could work together for promoting innovation-centric entrepreneurship research and knowledge transfer as well as establishing a leading higher education hub in China mainland. This book brings together leading scholars from history, higher education, sociology, city and urbanism, and development studies to analyze the role of higher education, entrepreneurship, and talent hub from historical, comparative, and international perspectives. This book also shares different development experiences of Tokyo, Florida, and New York Bay economies and how higher education has supported their success stories.

Cities and Social Governance Reforms Ka Ho Mok, 2022-05-13. This book examines critically how the Chinese government has proactively engaged the nine cities and two special administrative regions in the Greater Bay Area (GBA) in Southern China for deeper collaborations in order to transform the country from the World Factory to become a leading world economy in innovation and entrepreneurialism. While most of the existing research related to China's GBA development offers the economic and technological advancement perspectives, this book focuses on critical reflections upon how the call for megacity development and deeper regional collaborations in the Bay Area will affect people's livelihoods, social integration, and urban governance. The central theme of this book builds around Cities, Social Cohesion, and Governance. Based upon policy and document analysis, first-hand fieldwork, and surveys and intensive interviews with major stakeholders responsible for pushing the Greater Bay Area development, this book offers not only regional perspectives in analyzing the Greater Bay Area development through comparing and contrasting development experiences within the country's different bay economies like the Shanghai and Zhejiang Bay Area and Beijing and Bohai Bay Area. The present book also draws

comparative and international insights from other well established bay economies like Tokyo Bay Florida Bay and New York Bay Areas when analyzing the development in the GBA in China

Critical Issues in Contemporary China Czeslaw Tubilewicz, 2024-09-11 The third edition of Critical Issues in Contemporary China offers an in depth and up to date analysis of Xi Jinping s strategies to address critical domestic and international challenges facing China in a new era This book joins the current debates about Xi Jinping s new era reflecting upon the continuity and change in the CCP s domestic and foreign policies under Xi s leadership and Xi s capacity to realize the Chinese Dream of national rejuvenation The international team of contributors evaluate such pressing issues as Xi s re centralization of power and securitization of domestic politics the Chinese economic model state civil society relations Xi s gender policy and return to the traditional family values Beijing s responses to unrest in Xinjiang and Hong Kong Xi s evolving unification strategies towards Taiwan the Belt and Road Initiative and the deterioration of US China relations Providing readers with rich empirical assessment of Xi s responses to the political economic social and international challenges facing contemporary China the third edition of Critical Issues will be an essential resource for students of Chinese politics economy society and foreign relations

[The Four Talent Giants](#)

Gi-Wook Shin, 2025-07-01 The Asia Pacific region has seen extraordinary economic achievements Japan s post World War II transformation into an economic powerhouse challenging US dominance by the late 1980s was miraculous China s rise as the world s second largest economy is one of the 21st century s most stunning stories India now a top five economy by GDP is rapidly ascending Despite its small population Australia ranked among the top ten GDP nations in 1960 and has remained resilient While cultivating attracting and leveraging talent has been crucial to growth in these countries their approaches have varied widely reflecting significant cultural historical and institutional differences In this sweeping analysis of talent development strategies Gi Wook Shin investigates how these four talent giants achieved economic power and sustained momentum by responding to risks and challenges such as demographic crises brain drain and geopolitical tensions This book offers invaluable insights for policymakers and is essential for scholars students and readers interested in understanding the dynamics of talent and economic growth in the Asia Pacific region and beyond
