Reference and Information Services Kay Ann Cassell, Uma Hiremath, 2013 Search skills of today bear little resemblance to searches through print publications Reference service has become much more complex than in the past and is in a constant state of flux Learning the skill sets of a worthy reference librarian can be challenging unending rewarding and yes fun **Reference and Information Services** Melissa A. Wong, Laura Saunders, 2024-08-22 Written as a textbook for LIS students taking reference courses this fully updated and revised seventh edition of Reference and Information Services An Introduction also serves as a helpful handbook for practitioners to refamiliarize themselves with particular types and formats of sources and to refresh their knowledge on specific service topics The first section grounds the rest of the textbook with an overview of the foundations of reference and an introduction to the theories values and standards that guide reference service The second section provides an overview of reference services and techniques for service provision establishing a foundation of knowledge on reference service and extending ethical and social justice perspectives The third part offers an overview of the information life cycle and dissemination of information followed by an in depth examination of information sources by type as well as by broad subject areas Finally the concluding section guides the reader through the process of developing and maintaining their own vision of reference practice This textbook is essential reading for all preservice and working librarians particularly those concerned with ethical and social justice perspectives on reference work

Reference and Information Services Richard E. Bopp, Linda C. Smith, 2011-05-23 Reflecting the dramatic changes shaped by rapidly developing technologies over the past six years this new fourth edition of Reference and Information Services takes the introduction to reference sources and services significantly beyond the content of the first three editions In Part I Concepts and Processes chapters have been revised and updated to reflect new ideas and methods in the provision of reference service in an era when many users have access to the Web In Part II Information Sources and Their Use discussion of each source type has been updated to encompass key resources in print and on the Web where an increasing number of freely available sources join those purchased or licensed by libraries A number of new authors are contributors to this new edition bringing to their chapters their experience as teachers of reference and as practitioners in different types of libraries Discussions of services in Part I integrate digital reference as appropriate to each topic such as how to conduct a reference interview online using instant messaging Boxes interspersed in the text are used to present scenarios for discussion to highlight key concepts or to present excerpts from important documents Discussions of sources in Part II place more emphasis on designing effective search strategies using both print and digital resources The chapter on selection and evaluation of sources addresses the changing nature of reference collections and how to evaluate new types of sources Each chapter concludes with an updated list of additional readings to guide further study A new companion website will provide links to Web accessible readings and resources as well as additional scenarios for discussion and example search strategies

to supplement those presented in the text 1979-1990 Henryk Sawoniak,2012-02-14 No detailed description available for 1979 1990 Directory of ERIC Information Service Providers ,1986 *International Aspects of Reference and Information Services* Bill Katz,Ruth A. Fraley,2019-12-06 This book first published in 1987 is a stimulating and informative appraisal of the international librarianship scene and the reference service function Experts discuss how international reference services can be improved to facilitate true exchange of information around the world They look squarely at problems and provide answers to a host of pertinent questions such as information counselling and policies reference services and global awareness integrating a central reference international studies program and more Library and Information Services Badan Barman,2011-06-01 Library and Information Services Course Material for Diploma in Library and Information Science Programme of Krishna Kanta Handiqui State Open University Opportunities for Reference Services William A. Katz,1991 Here is a refreshing new book that takes a unique look at the many aspects of reference librarianship Written by reference librarians for reference librarians this new volume explores the changing roles of reference services and offers advice and practical ideas to guide librarians through the increasingly tangled maze of duties being thrust upon the reference staff Although the everyday work of the reference librarian is often taken for granted these insightful chapters illuminate the essential service performed by the reference librarians as they facilitate access to information for a wide variety of users Furthermore this book helps reference librarians face the future by examining the technological and service developments that will challenge their profession Opportunities for Reference Librarians addresses unique reference problems such as making use of the telephone as an information gathering tool selecting reference material for the interdisciplinary field of Health Physical Education and Recreation HPER and helping non law students with legal research The fascinating anecdotes and encouraging discussions will be invaluable to reference library professionals for years to come This important book covers a wide variety of topics of interest to reference librarians Topics related to information systems are examined such as the limitations of end user online services and an evaluation of the Library of Congress Information system Authoritative contributors make recommendations on how to design services to coordinate with the new technology and how to change librarians roles so they can assist people in using these systems Reading and the Reference Librarian Juris Dilevko,Lisa Gottlieb,2014-10-16 Reference librarians are no longer expected to know much about the information they find they are merely expected to find it Technological competency rather than knowledge has become the order of the day In many respects reference service has become a matter of typing search terms into a library s online catalog or a web search engine and providing the patron with the results of the search Calling for a re intellectualization of reference librarianship this book suggests another approach to providing quality reference service reading The authors surveyed both academic reference librarians and public library reference personnel in the United States and Canada about their reading habits From the 950 responses the authors present findings about the extent to which librarians read newspapers periodicals fiction and

nonfiction and recount and analyze stories about how reading has made them better librarians The authors also report that North American professors in the humanities and social sciences believe that the best reference librarians are those who have wide ranging subject based knowledge as opposed to the type of process based functional knowledge that is increasingly dominating the curricula of many Library and Information Science programs

Social Media Strategies for Dynamic Library Service Development Tella, Adeyinka, 2014-12-31 As social technologies continue to evolve it is apparent that librarians and their clientele would benefit through participation in the digital social world While there are benefits to implementing these technologies many libraries also face challenges in the integration and usage of social media Social Media Strategies for Dynamic Library Service Development discusses the integration of digital social networking into library practices Highlighting the advantages and challenges faced by libraries in the application of social media this publication is a critical reference source for professionals and researchers working within the fields of library and information science as well as practitioners and executives interested in the utilization of social technologies in relation to knowledge management and organizational development
