Foundations For Paramedic Practice: A Theoretical Perspective Blaber, Amanda, 2012-04-01 *Foundations for Paramedic Practice Second Edition* provides an introduction to many of the subjects not traditionally taught in ambulance in house training such as psychology and sociology It addresses the theoretical elements of paramedic courses in higher education and provides clear links to practice The second edition features four new chapters on caring for vulnerable adults end of life issues theories of decision making and the scope of the paramedic role It also provides increased coverage of portfolio writing submission to HPC decision making and includes more case studies Contributors Amanda Blaber Vince Clarke Alison Cork Steve Cowland John Donaghy Rachael Donohoe Bob Fellows Ann French Graham Harris Mary Larkin Linda Nelson Marion Richardson Paul Street and

Jackie Whitnell The Business Side of Learning Design and Technologies Shahron Williams van Rooij, 2017-09-22 The Business Side of Learning Design and Technologies provides a ready reference with actionable tools and techniques for recognizing the impact of learning design technology decisions at the project business unit and organizational levels Written for early and mid career learning designers and developers as well as students and researchers in instructional learning design and technology programs this volume focuses on the business issues underlying the selection design implementation and evaluation of learning opportunities Using scholarly and practitioner research interviews with Learning and Development thought leaders and the author's own experience readers will learn how to speak the language of business to demonstrate the value of learning design and technologies **Doing Practitioner Research** Mark Fox, Gill Green, Peter Martin, 2007-03-21 Doing Practitioner Research focuses on helping practitioners conduct research in their own organisations and attention is given to the best methods for doing this effectively and sensitively The authors also attend to the theoretical political and organisational context of doing research as well as addressing the ethical and practical issues of undertaking research The authors cover in detail the range of skills and techniques necessary to make a successful start to the process of becoming an effective practitioner researcher This is an ideal text for growing number of practitioners working in health education and social care who are undertaking research Fox et al have provided the perfect introduction to why practitioners are in the unique position to conduct research that actually improves professional practice This book will be essential reading for those professionals practitioners engaged in research in their own organisation or undertaking a post graduate qualification in Health Social Care or Education *Coaching Children in Sport* Ian Stafford, 2011-05-02 Coaching Children in Sport explains why children should not be treated as mini adults in sport and helps coaches to devise effective ways of working that not only achieve results but also take into account the best interests of the child Including case studies practical reflective activities and guides to further reading throughout this book is an essential text for all courses and training programmes in sports coaching It is also vital reading for all students teachers and practitioners working with children in sport physical education or developmental contexts *Reflective Practice for Nurses* Claire Boyd, 2023-01-05 Reflective Practice for Nurses Become a reflective clinical practitioner and prepare for successful revalidation with this practical nursing guide Reflective practice is increasingly being regarded as an essential tool for improving nursing practice and since reflective practice is not always intuitive there is an urgent need for an accessible guide for nurses wishing to incorporate best practices into their role Reflective Practice for Nurses meets this need and introduces the core concepts and principles of reflective practice Designed for busy nursing professionals in want of a speedy overview and with jargon free language this is the easiest way to begin learning about reflective practice and how it can be used to support revalidation It promises to become an indispensable tool for nursing students and professionals looking to turn the sometimes fraught process of professional reflection into an asset to their practice Reflective Practice for Nurses readers will also find An introduction to

14 different models of reflection Easy to read format for nurses in high pressure professional situations Pocket sized presentation for portability and use on the go Reflective Practice for Nurses is essential for nursing students and practicing nurses looking to become more reflective and effective clinical practitioners

Fostering 21st Century Digital Literacy and Technical Competency Cartelli, Antonio,2013-02-28 The 21st century has seen an expansion in digital technology and the ways in which it affects everyday life These technologies have become essential in the growth of social communication and mass media Fostering 21st Century Digital Literacy and Technical Competency offers the latest in research on the technological advances on computer proficiency in the educational system and society This collection of research brings together theories and experiences in order to create a common framework and is essential for educators and professionals in the technology fields

Transition to Registered Practice Chris Thurston,Nick Wrycraft,2019-11-25 An essential guide for students transitioning from undergraduate to registered nurse The book covers all topics included on a final year transition module is suitable for all fields of nursing and is mapped to the latest NMC standards In addition to the book s coverage of key final year transition topics such as law and ethics decision making and clinical accountability there is also helpful guidance on how to further your career and become a successful nurse post registration This includes advice on leadership and management skills preceptorship revalidation and continued professional development CPD To help students understand the realities of being a registered nurse there are Practice Scenarios in each chapter and real life accounts from service users expressing their experience of using health services so that students can understand the real needs of people in their care The book also includes examples and scenarios from all fields to show the differing practice environments and challenges that students will face

Applied Sport Psychology Brian Hemmings,Tim Holder,2013-09-09 Taking a refreshingly different approach to the subject this new textbook uses original case studies of psychological support work with individual athletes and groups to illustrate the underlying theory and inform the reader of cutting edge practice in the field It addresses real world issues and helps the student understand the problems and challenges that the sport psychologist faces and is employed to resolve The book begins by exploring the use of case studies as a professional method for disseminating applied knowledge and practice in sport psychology The remaining chapters constitute the core of the book the case studies themselves Each case study demonstrates scientific rigour in reporting the background information initial assessment intervention and monitoring evaluation of the intervention and also considers consultant effectiveness through reflective practice The chapters also contain summaries and an accompanying set of questions for students Written by a team of experienced practitioners this book shows how sport psychology actually works in practice As such it will prove invaluable to students of sport psychology in both sport and exercise science and psychology programmes It will also be an extremely useful resource for coaches and sports professionals undergoing training in sport psychology

Developing the Reflective Healthcare Team Tony Ghaye,2008-04-15 Team working and learning through reflection are both fundamental to quality

healthcare This book is the first to explore the use of the practices of reflection to develop health care teams that can deliver sustainable high quality personalised care Developing the Reflective Healthcare Team is structured in three parts which are about new views of reflective practice improving team working and the use of the TA2LK facilitative reflective process to develop high performing teams The Handbook of Community Mental Health Nursing Michael Coffey, Ben

Hannigan, 2005-07-25 This handbook brings together authoritative contributions from leading mental health researchers educators and practitioners to provide a comprehensive text for community mental health nurses in training and practice In thirty three chapters it covers a wide range of topics from the history of the profession to current approaches to specific client groups organised around three linked themes professional context practice issues education and research Each chapter includes a summary of key points and suggestions for further reading and also includes useful appendices listing key professional and voluntary organisations journals Internet and mailing lists The handbook reflects the diversity and scope of the role of the CMHN and recognizes the multidisciplinary and service user context in which nurses work It is an essential text for CMHNs and mental health nurse educators and offers a useful source of reference for allied professionals

Dilemmas of Care in the Nordic Welfare State Hanne Marlene Dahl, Tine Rask Eriksen, 2018-01-18 The Nordic welfare model has become an ideal in feminist literature and in welfare state studies This has heightened scientific and political interest in the model and its key aspects including the provision and production of care as public responsibility In this engaging volume contributors from various professional disciplines including sociologists anthropologists political scientists and educationalists provide a comprehensive overview of the complex state of paid work in social care within the Nordic welfare states and of the dilemmas facing state provided care in the region They develop insights into the conditions practices and trends in the area of paid care in the social and health care sector insights that expose the dilemmas and tensions associated with paid care and care education Divided into four parts the book will greatly interest academics post graduate students and professionals concerned with the Nordic model and welfare states It will also benefit those from outside the region interested in a specific Nordic tradition of research on publicly provided care and the current dilemmas and challenges facing training in care **Medical Ethics Education: An Interdisciplinary and Social Theoretical**

Perspective Nathan Emmerich, 2013-07-01 There is a diversity of ethical practices within medicine as an institutionalised profession as well as a need for ethical specialists both in practice as well as in institutionalised roles This Brief offers a social perspective on medical ethics education It discusses a range of concepts relevant to educational theory and thus provides a basic illumination of the subject Recent research in the sociology of medical education and the social theory of Pierre Bourdieu are covered In the end the themes of Bourdieuan Social Theory socio cultural apprenticeships and the characterological turn in medical education are drawn together the context of medical ethics education **Nursing Ethics**
