Among the ambiguities of life Spirit and churches In the end revisioning and hope      Writings in the Philosophy of Religion / Religionsphilosophische Schriften John P. Clayton,2020-03-23 No detailed description available for Writings in the Philosophy of Religion Religionsphilosophische Schriften      From Phenomenology to Existentialism Dov Schwartz,2012-12-07 This book focuses on the first and second stages of Soloveitchik s philosophy through a systematic and detailed discussion of some of his essays Schwartz exposes the philosophical methodology of Soloveitchik s religious thought 1945 1965      **A History of the Quests for the Historical Jesus, Volume 2** Colin Brown,Craig A. Evans,2022-11-08 A comprehensive two volume reassessment of the quests for the historical Jesus that details their origins and underlying presuppositions as well as their ongoing influence on today s biblical and theological scholarship Jesus life and teaching is important to every question we ask about what we believe and why we believe it And yet there has never been common agreement about his identity intentions or teachings even among first century historians and scholars Throughout history different religious and philosophical traditions have attempted to claim Jesus and paint him in the cultural narratives of their heritage creating a labyrinth of conflicting ideas From the evolution of orthodoxy and quests before Albert Schweitzer s famous Old Quest to today s ongoing questions about criteria methods and sources A History of the Quests for the Historical Jesus not only chronicles the developments but lays the groundwork for the way forward The late Colin Brown brings his scholarly prowess in both theology and biblical studies to bear on the subject assessing not only the historical and exegetical nuts and bolts of the debate about Jesus of Nazareth but also its philosophical sociological and theological underpinnings Instead of seeking a bedrock of facts Brown stresses the role of hermeneutics in formulating questions and seeking answers Colin Brown was almost finished with the manuscript at the time of his passing in 2019 Brought to its final form by Craig A Evans this book promises to become the definitive history and assessment of the quests for the historical Jesus Volume One sold separately covers the period from the beginnings of Christianity to the end of World War II Volume Two covers the period from the post War era through contemporary debates      **The Collected Writings of James Leo Garrett Jr., 1950-2015: Volume Five** James Leo Garrett Jr.,2022-03-29 James Leo Garrett Jr has been called the last of the gentlemen theologians and the dean of Southern Baptist theologians In The Collected Writings of James Leo Garrett Jr 1950 2015 the reader will find a truly dazzling collection of works that clearly evince the meticulous scholarship the even handed treatment the biblical fidelity the wide historical breadth and the honest sincerity that have made the work and person of James Leo Garrett Jr so esteemed and revered among so many for so long Volume 5 contains general theological considerations as well as a number of Garrett s reflections on twentieth century Christian leaders Spanning sixty five years and touching on topics from Baptist history theology ecclesiology church history and biography religious liberty Roman Catholicism and the Christian life The Collected Writings of James Leo Garrett Jr 1950 2015 will inform and inspire readers regardless of their religious or denominational affiliations      **Ethics and the Future of Religion** W. Royce Clark,2022-02-03 W Royce Clark observes that humanity

appears to be jeopardizing our own future in a chaos of mutual antagonism and hypocrisy Religions have traditionally provided ethical guidance but because their absolutized metaphysics are incompatible with each other we cannot rely on any one of them in a religiously pluralistic culture The ethics of various religions are also built on theocratic or authoritarian foundations which are incompatible with any democratic society Finally many of their premises are very ancient so not relevant or appropriate in our modern scientific world The Western Enlightenment brought challenges against religion s singularity exclusivity heteronomy and anti scientific assumptions all of which disrupted their ethics and the Absolute metaphysical grounds upon which those ethics rested raising the question of whether a freestanding ethic was possible Inasmuch as the primary claim of most religions was regarded as beyond challenge but was a conflation of history and myth modern historical method created more doubt than certainty about such allegedly certain doctrines as Jesus is the Son of God By the end of the 20th century the impossibility of validating such primary Christological claims from a historical approach became evident despite the articulate attempts at credibility in the brilliant works of John Dominic Crossan and Wolfhart Pannenberg which remained unconvincing in important ways Between 1832 and 2014 innovative Christian theologians such as Schleiermacher Hegel Tillich and Scharlemann took a detour from the futility of historical verification This study examines their remarkable attempts at a form of corroboration of the basic Christological claim even if their primary interests were more in Christology than ethics The question Clark takes up here is whether or not these figures have thereby provided a base for a universal ethic or the only answer is for principles freestanding from any religion

*Crisis of Transcendence* J. Sage Elwell, 2010-12-23 From the Internet to the iPhone digital technology is no mere cultural artifact It affects how we experience and understand our world and ourselves at the deepest levels it is a fundamental condition of living The digitization of modern life constitutes an essential field of religious concern because it impacts our individual and cultural sensibilities so profoundly Despite this it has yet to be thematized as the subject of religious or theological reflection The Crisis of Transcendence remedies this by asking a single significant question How is digital technology impacting the moral and spiritual depth of culture How can something as ineffable and nebulous as the depth of culture be known and articulated let alone critiqued Author J Sage Elwell suggests that an answer lies in the arts The arts have historically acted as a barometer of the depth of culture reflecting the spiritual impulses and inclinations at the heart of society He argues that if the arts matter at all they will illuminate more than themselves Through an experimental

interpretation of digital art Elwell offers a critical reflection on how digital technology is changing us and the world we live in at a level of religious significance Employing a theological aesthetic of digital art this book shows how the advent of digital technology as a revolutionary cultural medium is transforming the ways we think about God the soul and morality
