**Reflections of the Heart** Vivian L. Miller, 2021-03-15 This book is meant to give you real ways to defeat dark forces written in story form to give you the tools to gain victory in every circumstance Melanie Singleton dealt with challenges few people ever face As a young child she was drawn to make a difference in the world yet she was approaching thirty and still working at a job that was far from fulfilling The young woman was able to see beneath the carefully constructed facade of most of the people around her Rather than be hurt it was easier and less painful to keep a wall in place As she develops a friendship with the Spencers she discovers that although behavior often reflects the contents of a person's heart there are forces in the fifth dimension which will attempt to influence every individual What happens as Melanie begins to navigate around the obstacles set in place by the fifth dimension Is it possible to turn defeat into victory in spite of those forces Is every decision truly our own or are they reflections of the heart

Great Thoughts from Master Minds ,1908      Eco-Thoughts Anna Lisa Tota,2024-10-08 What if the pollution of the world did not only concern the environment in which we live but also the flow of our thoughts in every moment of everyday life What if those thoughts invasive like locusts could transform and become eco thoughts that make us and others feel good Ecology concerns us from the inside passes through us and literally shapes us what is inside is outside This book offers eco words and eco thoughts as it sheds light on the traps that our minds construct for ourselves that we so often fall into whether we mean to or not It examines the erroneous paths that we sometimes meander down while we are thinking in our everyday lives in order to help us to identify and avoid them The thoughts we formulate are not really ours as if our mind prefers to flow in what has already been thought lived and felt The author offers her reflections and insights to those who wish to direct their minds towards streams of thought that really do belong to us that make us feel good In order to do this we must learn how to disable the traps and free ourselves of what is contaminating before they take hold and harm us An original and thought provoking examination of how are own internal lives can become toxic and how to prevent this that will be of particular value to students and scholars of sociology philosophy communication studies memory studies and social psychology      Home Discipline, Or Thoughts on the Origin and Exercise of Domestic Authority.
