Sartwell Philosopher music critic and syndicated columnist Crispin Sartwell has forged a distinctive and fiercely original identity over the years as a cultural commentator In books about anarchism art and politics Native American and African American thought and culture Eastern spirituality and American transcendentalism Sartwell has relentlessly insisted on an ethos rooted in unadorned honesty with oneself and a healthy skepticism of others This volume of selected popular writings combines music and art criticism with personal memoir about addiction and rebellion as well as cultural commentary on race sexuality cynicism and the meaning of life Crispin Sartwell deserves to be recognized as the heir to a distinctively American intellectual legacy Like the American cynics he loves Twain Bierce Mencken he is fiercely individualistic deeply antiauthoritarian and slavishly aligned with no creed or academic discipline He uses his significant erudition not to escape the ordinary or himself but rather to let loose riches of insight suffering and beauty through a relentless examination of life culture and reality Sartwell is also in my opinion the best philosophical prose stylist of his generation His writing crystalline vivid and intoxicating is an uncontrollable substance And though Sartwell swaggers provokes and sometimes infuriates he does so with a tacit humility and self scrutiny which empowers readers to follow his example and convert their own rage into beauty Elizabeth Walden Bryant University Crispin Sartwell is the most important philosophical voice of his generation He has risen into the public consciousness in the last two decades due to his controversial views on social political and cultural subjects Through television appearances journalism and blogging along with his numerous scholarly books he has made a reputation as a thinker of serious thoughts Yet there is a lightness to his world that is irreverent fun and entertaining These essays reflect some of his best writing from the past fifteen years They are highly readable but they are also profound reflections on the subjects that will draw many of us into deeper ponderings about the meaning of life or more to the point the meaning of our lives Randall Auxier author of Time Will and Purpose Living Ideas from the Philosophy of Josiah Royce

The Encyclopedia of Popular Music Colin Larkin, 2011-05-27 This text presents a comprehensive and up to date reference work on popular music from the early 20th century to the present day The Course Reflection Project Nicole Schonemann, Emily Metzgar, Andrew Libby, 2015-05-01 Service learning is entering a post initiatory phase At tertiary institutions of all types and sizes service learning programs are common and service learning requirements for graduation are growing in popularity Taken together alongside continued faculty interest in effective teaching these factors have raised the visibility and popularity of service learning Now the greater need in service learning is not to prove the need for or efficacy of service learning but to turn the focus squarely back on practice Following established best practice is not enough instructors also need to reflect on how this fits within the specific context and application of each unique course and service learning partnership While there are many excellent resources that detail best practice and showcase exemplary service learning courses faculty reflection and course revision often goes unmentioned In response to the lack of attention on the role of reflection and course revision we convened groups of faculty from a variety of disciplines to reflect deeply on their

courses paying specific attention to obstacles and challenges These conversations were converted to articles for this edited collection each chapter representing the process of reflection and revision and serving as a guide to develop effective practice in varied curricular contexts This text contributes to the body of literature on service learning in a unique and practical manner Faculty teaching or interested in teaching service learning classes would benefit from this text as well as university administrators and community service directors involved in service learning at a programmatic and institutional level This book should be marketed to faculty teaching disciplinary service learning classes and service learning pedagogy classes and administrative offices involved in service learning This could be a supplementary text for graduate level pedagogy courses Higher education institutional libraries would benefit from this text as well as the national and state campus compact offices

**From Goodwill to Grunge** Jennifer Le Zotte, 2017-02-02 In this surprising new look at how clothing style and commerce came together to change American culture Jennifer Le Zotte examines how secondhand goods sold at thrift stores flea markets and garage sales came to be both profitable and culturally influential Initially selling used goods in the United States was seen as a questionable enterprise focused largely on the poor But as the twentieth century progressed multimillion dollar businesses like Goodwill Industries developed catering not only to the needy but increasingly to well off customers looking to make a statement Le Zotte traces the origins and meanings of secondhand style and explores how buying pre owned goods went from a signifier of poverty to a declaration of rebellion Considering buyers and sellers from across the political and economic spectrum Le Zotte shows how conservative and progressive social activists from religious and business leaders to anti Vietnam protesters and drag queens shrewdly used the exchange of secondhand goods for economic and political ends At the same time artists and performers from Marcel Duchamp and Fanny Brice to Janis Joplin and Kurt Cobain all helped make secondhand style a visual marker for youth in revolt
