Matthew Page Andrews

Reflections Of Baltimore:

Reflections of Baltimore Jeana Kimball, 1989 **Reflections on Judging** Richard A. Posner, 2013-10-07 For Richard Posner legal formalism and formalist judges notably Antonin Scalia present the main obstacles to coping with the dizzying pace of technological advance Posner calls for legal realism gathering facts considering context and reaching a sensible conclusion that inflicts little collateral damage on other areas of the law **Tercentenary History of Maryland** Matthew Page Andrews, 1925 *Baltimore and Ohio Employees Magazine*, 1928 *Baltimore and Ohio Employees Magazine*, 1928

History of Maryland Matthew Page Andrews, 1929 *A Return to Justice* Ashley Nellis, 2015-12-14 Juveniles who commit crimes often find themselves in court systems that do not account for their young age but it wasn't always this way. The original aim of a separate juvenile justice system was to treat young offenders as the children they were considering their unique child status and amenability for reform. Now after years punishing young offenders as if they were adults slowly the justice system is making changes that would allow the original vision for juvenile justice to finally materialize. In its original design the founders focused on treating youth offenders separately from adults and with a different approach. The hallmarks of this approach appreciated the fact that youth cannot fully understand the consequences of their actions and are therefore worthy of reduced culpability. The original design for youth justice prioritized brief and confidential contact with the juvenile justice system so as to avoid the stigma that would otherwise mar a youth's chances for success upon release. Rehabilitation was seen as the priority and efforts to redirect wayward youth were to be implemented when possible and appropriate. The original tenets of the juvenile justice system were slowly dismantled and replaced with a system more like the adult criminal justice system one which takes no account of age. In recent years the tide has turned again. The number of incarcerated youth has been cut in half nationally. In addition juvenile justice practices are increasingly guided by scholarship in adolescent development that confirms important differences between youth and adults. And states and localities are choosing to invest in evidence based approaches to juvenile crime prevention and intervention rather than in facilities to lock up errant youth. This book assesses the strategies and policies that have produced these important shifts in direction. Important contributing factors include the declining incidence of youth committed crime, advances in adolescent brain science, nationwide budgetary concerns, focused advocacy with policymakers and practitioners, and successful public education campaigns that address extreme sanctions for youth such as solitary confinement and life sentences without the possibility of parole. Yet more needs to be done. The U.S. Supreme Court has recently voiced its unfaltering conclusion that children are different from adults in a series of landmark cases. The question now is how to take advantage of the opportunity for juvenile justice reform of the kind that would reorient the juvenile justice system to its original intent both in policy and practice and would return to a system that treats children as children. Using case examples throughout Nellis offers a compelling history and shows how we might continue on the road to reform. [The Other Empire](#) John Marriott, 2003 This is

a detailed study of the various ways in which London and India were imaginatively constructed by British observers during the nineteenth century This process took place within a unified field of knowledge that brought together travel and evangelical accounts to exert a formative influence on the creation of London and India for the domestic reading public Their distinct narratives rhetoric and chronologies forged homologies between representations of the metropolitan poor and colonial subjects those constituencies that were seen as the most threatening to imperial progress Thus the poor and particular sections of the Indian population were inscribed within discourses of western civilization as regressive and inferior peoples Over time these discourses increasingly promoted notions of overt and rigid racial hierarchies of which a legacy still remains Drawing upon cultural and intellectual history this comparative study seeks to rethink the location of the poor and India within the nineteenth century imagination

Mimesis and Its Romantic Reflections Frederick Burwick, 2010-11-01

In Romantic theories of art and literature the notion of mimesis defined as art's reflection of the external world became introspective and self reflexive as poets and artists sought to represent the act of creativity itself Frederick Burwick seeks to elucidate this Romantic aesthetic first by offering an understanding of key Romantic mimetic concepts and then by analyzing manifestations of the mimetic process in literary works of the period Burwick explores the mimetic concepts of art for art's sake Idem et Alter and palingenesis of mind as art by drawing on the theories of Philo of Alexandria Aristotle Immanuel Kant Friedrich Schiller Friederich Wilhelm Joseph von Schelling Thomas De Quincey and Germaine de Sta l Having established the philosophical bases of these key mimetic concepts Burwick analyzes manifestations of mimesis in the literature of the period including ekphrasis in the work of Thomas De Quincey mirrored images in the poems of Samuel Taylor Coleridge and William Wordsworth and the twice told tale in the novels of Charles Brockden Brown E T A Hoffmann and James Hogg Although artists of this period have traditionally been dismissed in discussions of mimesis Burwick demonstrates that mimetic concepts comprised a major component of the Romantic aesthetic
