Reflections On A Dying Life:

Reflections on a Dying Life Donald X. Burt, 2005-02 An eminently accessible and deeply pastoral book of Christian eschatology The author uses his masterful knowledge of St Augustine's writings to create a classically Catholic spirituality of aging integrating a deep faith with his disciplined reason he gently lovingly sculpts an Augustinian spirituality of death and resurrection Back cover *Reflections on Death, Dying and Bereavement* William Smith, 2018-12-20 The methodology of *Reflections on Death Dying and Bereavement* is mainly philosophical It is intended to complement scriptural and theological studies The volume has five main sections that are further divided by chapter The first section contains foundational considerations Since the belief in a continuation of life after death or reunion with deceased loved ones offers consolation to many people the book examines the possibility of human immortality Various rational arguments are also presented

Positive Ageing Nilanjana Sanyal, Manisha Dasgupta, 2020-12-20 This book presents a kaleidoscopic view of the positive layers of ageing as well as key interventions that can help generate and maintain positivity and well being among the elderly It explores the connections of ageing with spirituality nature and existentialism and leisure to encourage creativity individuation happiness and emotional detachment It further examines various interventions such as end of life care mindfulness and yoga retrospection life review and so on which may improve the overall quality of life by promoting the health of the elderly individual The book focuses on authentic ageing transpersonal gerontology the concept of the elder child geriatric interventions and caregiving and suggests practical improvements in health and facilities for the elderly It also covers aspects of the inner life of the prolonged ailing or dying person from a mental health perspective and emphasizes the value of positive ageing A guide to applied geriatrics and geriatric psychology with its simple style and clear methods in end to end praxis the book shows how mental well being can be fostered in the elderly to help them find meaning and purpose in old age This book will interest students teachers and researchers of psychology positive psychology geropsychology and gerontological studies sociology and social work public health medical education and geriatric nursing It will also be useful to practitioners including psychologists counsellors gerontologists mental health professionals and NGOs working with the elderly and the interested reader A collection of several stories, moral tales, and reflections taken from the best English authors Collection, 1788

The biblical museum James Comper Gray, 1871 *Jeff, the Roofer, Reflections of a Double Negative Life* Jeffrey Poppy, 2009-11 Writer Jeffrey Poppy writes a stunningly candid book based on his life experiences in *Jeff the Roofer* *Reflections of a Double Negative Life* Poppy was born into life with drama as a newborn he had to have a blood transfusion Growing up with an abusive father he relived the abuse by self destruction through his teenage years and into adulthood Poppy played out his destruction in various ways a near death gunshot wound alcoholism drugs three failed marriages six trips to rehab and then homeless All avenues led to the same place his own inner demons until he entered an in house treatment center Upon release Poppy traveled to Amsterdam and met his muse who inspired his creative poetry Poppy

entered a song writing contest won second place and traveled back to the United States landing in Nashville Tennessee He recorded 42 of his own songs all inspired by his tenuous and amazing journey that finally released his demons and enabled him to find his own path Jeff the Roofer Reflections of a Double Negative Life begins with the song The Times that illustrates his quests and questions of life s meaning for him and the song Just Another Day takes him on the journey from inner strife to see freedom and triumph over self destructive and abusive ways Interwoven with heart wrenching storytelling are 28 compositions that chronicle his unsteady journey to recovery This beautifully descriptive book is a compelling and inspiring narration of prose and lyrics that expertly encapsulate one man s escape from the cycle of abuse and self destruction Jeffrey Poppy is a writer poet songwriter and craftsman Mr Poppy is currently writing his second novel and lives with his beloved dog in Durant Oklahoma Publisher s website <http://www.strategicpublishinggroup.com> title

Murphy,2015-04-07 The English writer E M Forster described old age as a seductive combination of increased wisdom and decaying powers to which too little intelligence is devoted This book is a response to that criticism It explains how old age has been considered throughout the ages by philosophers poets and other literary figures and explores how the extraordinary increase of life expectancy that began in the last century has been sustained by science and medicine Unfortunately the general public still prefers to keep the elderly out of sight and especially out of mind To overcome this marginalization I call for the emergence of a more inclusive humanism one that is welcoming to persons of all ages To overcome the pervasive isolation of the elderly requires a new dialogue across all the living generations Echoing the sentiments of Cicero in his classic study of old age I also call for a reflective maturity to develop among the elderly one that reaches deeply into themselves and increases their understanding of the world around them

Spiritual maturity demands growth in virtue and charity in the advance of years A reaching out to all in the pursuit of justice and the common good is strongly recommended The book concludes with some reflections upon hopes for personal immortality as well as the qualities of divine justice and mercy **Theological Reflection** Edward O. De Bary,2003

Theological reflection has its roots in the works of Bernard Lonergan David Tracy James and Evelyn Whitehead John de Beer Patricia Killen Flower Ross and Charles Winters It provides a way of learning theology so that participants can develop congruence between life s experience the world and the Christian faith the reflective methods are useful educational tools Other discipline may find them useful to enhance the way seminars are organized as learning opportunities to discover meaning

The Right to Die with Dignity Derya Nur Kayacan,2022-06-20 Can I choose to die As the number of requests for euthanasia and physician assisted suicide continues to rise human rights law faces a new conflict the right to die vs the right to life The right to die or in other words the right to choose the time and manner of one s own death is a question of personal autonomy and its limits This book provides a comprehensive understanding of the right to die and sheds light on its possible future under the European Convention on Human Rights After setting a clear framework by defining the key terminology the book takes a two part approach to achieving its aim The first part focuses on the right to die in practice by examining selected jurisdictions Switzerland which is famous for its assisted suicide organizations and the Netherlands which was the first country to legalize euthanasia are examined in detail Belgium Germany the United Kingdom and as an exception to the Convention perspective Canada are also included While this examination offers a better understanding of what the right to die looks like in practice it also provides insights on the slippery slope argument which serves as a counterweight to personal autonomy without making a definitive statement on its validity This part also illustrates the different paths that led or did not lead to the right to die in practice The second part is an analysis of the European Court of Human Rights case law on the right to die The Court has made important statements in only very cases while its caution when approaching such a delicate and controversial topic among its 47 members is understandably emphasized This analysis of the Court s approach to the balancing of personal autonomy against other interests allows us to take a look back at the practice in more permissive jurisdictions through the lens of the Convention Taken together the book s two parts provide valuable lessons for countries that decide to practice assisted dying which are outlined in the conclusion In addition given that a purely legal approach can only offer a partial picture the book argues that an interdisciplinary approach would be much more favorable in terms of providing the necessary basis for the right to die debate **Vox Dei, Or, The Great Duty**
