Reflections of a Cat Whisperer is a journey through childhood and then into life as an adult. The short stories, thoughts and verses are descriptions of the interactions between numerous felines and me throughout the years. This collection is not one continuous story; rather, it contains descriptions of moments with my thundering herd and other felines. It is about a magical way of looking at life through which I received wisdom and continue to do so from these marvellous creatures.

Reflections of the Heart Deborah DeMoss

Smith, 2008-05-05. Do our animal companions understand us? How can we understand them? Reflections of the Heart gives us Sharon Callahan's thought-provoking perspective on animal-human relationships. Definitely a most illuminating read for all animal lovers. David Frei, cohost of The Westminster Kennel Club Dog Show, thanks Deborah DeMoss Smith, readers of Reflections of the Heart will be touched and healed profoundly by animal intuitive Sharon Callahan's life and work just as we have been along with the hundreds of friends, family, veterinary clients and patients to whom we've introduced her. Bob Goldstein, DVM and Susan Goldstein, Earth Animal and the Healing Center for Animals, a gold mine of inspiration, compassion and love. Anyone who loves animals will love them even more after reading this wonderful collection of stories. Deborah DeMoss Smith knows just how to reconnect us with the magic, splendor and awe of our animal kin through Sharon Callahan's intuitive experience. Marc Bekoff, Professor of Biology, University of Colorado Boulder and coauthor of The Ten Trusts with Jane Goodall, Jerry, a tabby cat distressed by a beloved family member's departure for college, Jupiter, a macaw parrot who yearned to live among his own kind, Rudy, a border collie whose grave illness did not stop him from keeping his profound promise to the young girl who loved him. All of these animals spoke with their human companions through the extraordinary gift of animal intuitive Sharon Callahan. Now award-winning journalist Deborah DeMoss Smith relates these and many other true inspirational tales of the human and animal lives Callahan has touched. Reflections of the Heart illustrates how the sometimes puzzling behavior of animals often mirrors our own actions and feelings. These stirring accounts offer a window into the emotional, mental and spiritual lives of our animal companions and remarkable insight into the special bond between animals and people.

commonly a positive assessment of many elements of the physical and human environment e.g ecosystems and landscapes monuments customs gender norms religious practices gastronomy and livelihoods Heritage and tourism are strongly related to each other in that heritage gives rise to tourist attractions and activities and tourism enhances the designation of heritage sites A post humanist perspective the moral valuation of equality between humans and other animals demands that both are sentient beings and self aware of their pain and pleasure Thus the involvement of animals as heritage elements by themselves or as an element of tourist consumption in heritage sites implies their commodification and lack of agency As such these practices are usually unethical since they threaten the animals primary interests not to suffer not to feel pain and to be able to live their freedom This book contains chapters that reveal both the unethical interactions between humans and animals within heritage tourism and those that show experiences in which efforts are made to minimize damage within the commercialization of animals involved as heritage themselves

Consciousness Neil Rossman, 1991-01-21

A central claim of this book is that the emergence of humanity involves a splitting of consciousness the ability of consciousness to become reflectively aware of itself But the splitting of consciousness is simultaneously the development of the possibility of fragmentation incoherence within consciousness and alienation non unity of consciousness with others and the world Thus through the growth of reflective consciousness separation comes to permeate the whole of human experience So understood it creates the need for integration and Rossman s discussion ultimately centers on its attainment Within this perspective various aspects of consciousness including perception organic sensation desire and belief are explored There is also extensive discussion of personal identity or the experience of being a self Finally the above analyses provide the ground for discussions of freedom morality and being religious

Transparency and Reflection Matthew Boyle, 2024 The maxim Know thyself has been central to philosophy since antiquity but today there is widespread skepticism both within philosophy and in our intellectual culture at large about the extent to which we can truly know our own minds and the extent to which self knowledge matters to our lives Transparency and Reflection argues that although we can be mistaken about ourselves in many respects such mistakes occur against the background of a fundamental self understanding that is necessarily available to any human subject To deny this essential capacity for self understanding Matthew Boyle argues is to leave out the very thing that makes us human **Mr. P.'s diary:**
