Medicine, Religion, and the Body Elizabeth Burns Coleman, Kevin White, 2010 This book explores the ways in which the body is sacred in Western medicine as well as how this idea is played out in questions of life and death of the autopsy and of the meanings attributed to illnesses and disease Ritual and religious modifications to and limitations on what may be done to the body raise cross cultural issues of great complexity philosophically and theologically as well as sociologically within medicine and for health care practitioners but also as a matter of primary concern for the patient The book explores the ways in which medicine organises the moral and the immoral the sacred and the profane how it mediates cultural concepts of the sacred of the body of blood and of life and death In the Balance Candice Lee Goucher, 1998 **Subject Guide to Books in Print**, 1997 **Subject Guide to Children's Books in Print 1997** Bowker Editorial Staff, R R Bowker Publishing, 1996-09 **American Book Publishing Record**, 1999 *A New History of Western Art* Koenraad Jonckheere, 2022-10-15 A radical re examination of 2 500 years of European art deconstructing and demystifying its long history from ancient to present How has art evolved from the pursuit of the ideal human form to a black square on a white canvas Why is a banana duct taped to a wall worth more on the art market than a beautiful seventeenth century landscape By taking art for what it actually is a piece of stone or wood a sheet of paper with some lines drawn on it a painted canvas this lively and accessible account shows how seemingly meaningless objects can be transformed into celebrated works of art Breaking with conventional notions of artistic genius Koenraad Jonckheere explores how stories and emotions give meaning to objects and why changing historical circumstances result in such shifting opinions over time Tracing its story from ancient times to present *A New History of Western Art* reframes the evolution of European art and radically reshapes our understanding of art history Published in association with Hannibal Books The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800 George Watson, Ian R. Willison, 1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of *The Cambridge Bibliography of English Literature* The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **War**, Letter Writing in Late Modern Europe Marina Dossena, Gabriella Del Lungo Camiciotti, 2012-04-16 In recent years there has been a renewed interest in correspondence both as a literary genre and as cultural practice and several studies have appeared mainly spanning the centuries between Early and Late Modern times However it is between the eighteenth and nineteenth centuries that the roots of contemporary usage begin to evolve thanks to the circulation of new educational materials and more widespread schooling practices In this volume chapters

representing diverse but complementary methodological approaches discuss linguistic and discursive practices of correspondence in Late Modern Europe in order to offer material for the comparative cross linguistic analyses of patterns occurring in different social contexts The volume aims to provide a general and solid methodological structure for the study of largely untapped language material from a variety of comparable sources and is expected to appeal to scholars and students interested in the linguistic history of epistolary writing practices as well as to all those interested in the more recent history of European languages

The Magical Adventures of Mary Parish Frances Timbers, 2016-01-01. Mary Parish wasn't your ordinary seventeenth-century woman. She was a cunning woman who spent her time in the realm of magic interacting with fairies, hunting for buried treasures, and communicating with the spirit world along with her partner, the young aristocrat Goodwin Wharton. Drawing largely from Goodwin's personal journals, Frances Timbers reconstructs Mary's life in this microhistory and explores themes of class, gender, and relationships in seventeenth-century England. Mary's story provides insight into magical beliefs and practices of early modern history and sheds light on how class and gender affected everyday life.
