The experience of reproductive loss raises a series of profoundly theological questions how can God have a plan for my life Why didn t God answer my prayers How can I have hope after such an experience Who am I after such a loss Sadly these are questions that along with reproductive loss have largely been ignored in theology Karen O Donnell tackles these questions head on drawing on her own experiences of repeated reproductive loss as she re conceives theology from the perspective of the miscarrying person Offering a fresh original and creative approach to theology O Donnell explores the complexity of the miscarrying body and its potential for theological revelation She offers a re conception of theologies of providence prayer hope and the body as she reimagines theology out of these messy origins This book is for those who have experiences such losses and those who minister to them But it is also for all those who want to encounter a creative and imaginative approach to theology and the life of faith in our messy complex world Storytelling and Ethics Hanna Meretoja,Colin

Davis,2017-09-18 In recent years there has been a huge amount of both popular and academic interest in storytelling as something that is an essential part of not only literature and art but also our everyday lives as well as our dreams fantasies aspirations historical self understanding and political actions The question of the ethics of storytelling always inevitably lurks behind these discussions though most frequently it remains implicit rather than explicit This volume explores the ethical potential and risks of storytelling from an interdisciplinary perspective It stages a dialogue between contemporary literature and visual arts across media film photography performative arts interdisciplinary theoretical perspectives debates in narrative studies trauma studies cultural memory studies ethical criticism and history traumatic histories of violence cultural history The collection analyses ethical issues involved in different strategies employed in literature and art to narrate

experiences that resist telling and imagining such as traumatic historical events including war and political conflicts The chapters explore the multiple ways in which the ethics of storytelling relates to the contemporary arts as they work with draw on and contribute to historical imagination The book foregrounds the connection between remembering and imagining and explores the ambiguous role of narrative in the configuration of selves communities and the relation to the non human While discussing the ethical aspects of storytelling it also reflects on the relevance of artistic storytelling practices for our understanding of ethics Making an original contribution to interdisciplinary narrative studies and narrative ethics this book both articulates a complex understanding of how artistic storytelling practices enable critical distance from culturally dominant narrative practices and analyzes the limitations and potential pitfalls of storytelling Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
