of Non-human Animals: A Posthumanist Reflection Álvaro López López, Gino Jafet Quintero Venegas, Carol Kline, 2023-12-19 Heritage is a social construction rooted in modern and contemporary societies It is commonly a positive assessment of many elements of the physical and human environment e.g ecosystems and landscapes monuments customs gender norms religious practices gastronomy and livelihoods Heritage and tourism are strongly related to each other in that heritage gives rise to tourist attractions and activities and tourism enhances the designation of heritage sites A post humanist perspective the moral valuation of equality between humans and other animals demands that both are sentient beings and self-aware of their pain and pleasure Thus the involvement of animals as heritage elements by themselves or as an element of tourist consumption in heritage sites implies their commodification and lack of agency As such these practices are usually unethical since they threaten the animals primary interests not to suffer not to feel pain and to be able to live their freedom This book contains chapters that reveal both the unethical interactions between humans and animals within heritage tourism

and those that show experiences in which efforts are made to minimize damage within the commercialization of animals involved as heritage themselves *How to Be a Cat* Kitty Pusskin, Mark Leigh, 2016-04-07 *How to Be a Cat* is the official rulebook of the feline world a hilarious and useful guide for living with or putting up with humans and always getting the upper paw
