PARIS, Monday, Oct. 29.—President de Gaulle won the referendum battle in his homeland, halting, nevertheless, but not crushing, widespread hopes of support for competitors with pro-American leanings.

In the face of complete unofficial returns early this morning, 60.76 per cent of the valid ballots cast were in favor of the President's proposal to elect his successor by popular vote instead of by the two-round college of electors ("college") specified in the present Constitution.

But, with abstentions running at about 34 per cent of the electorate, General de Gaulle had only a minority—about 48 per cent—of the registered voters backing him.

MOSCOW, Oct. 28.—President Khrushchev agreed today to halt the construction of Soviet bases in Cuba and to dismantle Soviet missile sites, both under United Nations supervision.

In a message to President Kennedy, the Soviet leader said that he already had ordered the dismantling of the sites and the ending and returning the bases to the Soviet Union.

The war said to have been done in return for the American promise offered in a letter sent by Mr. Khrushchev yesterday to President Kennedy. The letter expressed the United States readiness to lift the naval quarantine of Cuba and join the other nations of the Western Hemisphere in providing assistance against an invasion of the island.

WASHINGTON, Oct. 28.—President Kennedy and Premier Khrushchev reached apparent agreement today on a formula to end the crisis over Cuba and to begin talks on making tomorrow to submit arms.

Premier Khrushchev pledged the Soviet Union to stop work on its missile sites in Cuba, to dismantle the weapons and to cease them and take them home. All this would be done under supervision of United Nations representatives.

President Kennedy, for his part, pledged the lifting of the United States blockade when the United Nations had taken the "necessary measures," and that the United States would no longer Cuba.

The Other Missiles of October Philip Nash, 1997 Shedding important new light on the history

of the Cold War Philip Nash tells the story of what the United States gave up to help end the Cuban missile crisis of 1962 By drawing on documents only recently declassified he shows that one of President Kennedy s compromises with the Soviets involved the removal of Jupiter missiles from Italy and Turkey an arrangement concealed from both the American public and the rest of the NATO allies Nash traces the entire history of the Jupiters and explores why the United States offered these nuclear missiles which were capable of reaching targets in the Soviet Union to its European allies after the launch of Sputnik He argues that despite their growing doubts both Eisenhower and Kennedy proceeded with the deployment of the missiles because they felt that cancellation would seriously damage America s credibility with its allies and the Soviet Union The Jupiters subsequently played a far more significant role in Khrushchev s 1962 decision to deploy his missiles in Cuba in U S deliberations during the ensuing missile crisis and in the resolution of events in Cuba than most existing histories have supposed

The Missile Crisis from a Cuban Perspective Håkan Karlsson, Tomás Diez Acosta, 2019-03-04 Previous works on the Cuban Missile Crisis 1962 have approached the topic from the point of view of the U S and its allies while Cuban experiences have still not been sufficiently discussed This book presents new aspects which have seldom or never been offered before giving a detailed account of the crisis from a Cuban perspective It also investigates the archaeological and anthropological aspects of the crisis by exploring the tangible and intangible remains that still can be found on the former Soviet missile bases in the Cuban countryside and through interviews which add a local human dimension to the subject

Parameters ,1991 *Isolationism Reconfigured* Eric Nordlinger,1996-08-05 This iconoclastic and fundamental work Eric Nordlinger s last advocates a new variant of isolationism a national strategy confining U S military actions largely to North America and to neighboring sea and air lanes but encouraging international activism and engagement in nonsecurity realms In Nordlinger s view disengaging from security commitments on distant shores would liberate the United States to use its resources and decision making powers to act more effectively abroad in matters of economic policy and human rights A national strategy would then become a powerful new method of encouraging international ideals of democracy and isolationism would be freed of its previous associations with appeasement weakness economic protectionism and self serving nationalism Nordlinger draws on the recent historical record to show that a national strategy would have lessened the perils of earlier decades including those of the Cold War While real dangers did exist during this period engaged strategies such as containment too often exacerbated them The United States could have effectively and far less expensively helped to deter Communist aggression in Europe and Asia by encouraging other nations to make larger investments in their own protection Marshaling impressive empirical evidence in defense of a controversial position this final work by a leading scholar of international affairs is essential reading for scholars practitioners and lay readers alike *The Kremlinologist* Jenny Thompson,Sherry Thompson,2018-03 The Kremlinologist chronicles major events of the Cold War through the prism of the life of one of its top diplomats Llewellyn Thompson His life went from the wilds of the American West to the inner sanctums of the White House and the Kremlin As the ambassador to Moscow he became an important advisor to presidents and a key participant in major twentieth century events including the Cuban Missile Crisis and the Vietnam War Yet unlike his contemporaries McGeorge Bundy and George C Marshall who considered Thompson one of the most crucial actors in the Cold War and the unsung hero of the Cuban Missile Crisis he has not been the subject of a major biography until now Thompson s daughters Jenny Thompson Vukacic and Sherry Thompson set out to document their father s life as thoroughly as possible Relying on primary sources and interviews they received generous assistance from archivists historians and colleagues of their father They also acquired documents and information from Russian archives including the KGB archives As family they had unprecedented access to his FBI dossier State Department personnel files family archives letters diaries speeches and documents Their original research brings new material to light including important information on the U 2 Kennan s containment policy and Thompson s role in US covert operations machinery The book refutes historical misinterpretations of events in the Berlin Crisis the Austrian State Treaty and the Cuban Missile Crisis Provided by publisher *Kennedy's Quest for Victory : American Foreign Policy, 1961-1963* Thomas G.
