Reflective Analysis Of Student Work Improving Teaching Thro:

Reflective Analysis of Student Work Norene J. Bella, 2004-01-07 Any school wishing to maximize conditions for their staff to grow professionally from within will want to acquire and incorporate the suggestions in this book. Arthur L. Costa, Emeritus Professor of Education, California State University, Sacramento. Improve the quality of your instruction through this innovative form of professional development. In an era of structured trainings and top-down mandates, this visionary guide offers a new approach solidly founded on research which empowers teachers to take charge of the learning process. It encourages a shift from isolation to collaboration, from imparting to participating, and from content-focused to process-oriented learning in order to simultaneously boost student achievement and teacher's professional development. Bringing the focus back to teaching students how to learn, the author promotes a process of teamwork and modeling that challenges educators to reflect on their curriculum, instruction, and assessment techniques to collaboratively work to improve them. Highlights include: Ideas on how to powerfully engage students by becoming a co-learner and facilitator in the classroom; Tips for analyzing student work with the help of co-workers and how to incorporate these findings into the lesson plan cycle; Adaptable schedules for sessions that last one-half hour to several hours, perfect for time-strapped teachers; Calendar of collaborative professional development activities to last the entire school year.

Reflective Analysis of Student Work Norene J. Bella, 2004-01-07 See how teamwork and modeling can empower you to better yourself while strengthening instruction for students to become lifelong learners.

Enhancing Teaching and Learning through Assessment Steve Frankland, 2007-10-17 Assessment is the daily life of a teacher: designing plans, setting questions, giving feedback, and grading are all activities that teachers undertake on a regular basis. Yet the close examination of such activities can be hindered by constraints caused by the context in which different teaching and learning activities occur and an unawareness of the effect that assessment has on the students themselves. This book provides a practical guide on the effective use of assessment. It includes the use of assessment tools and pedagogical design that help students deepen their learning. Major issues on assessment and some excellent examples are presented as a useful resource to university teachers in enhancing teaching and students' learning. It will also be found useful by teachers when implementing various assessment methods. School administrators and teaching development professionals will find the book useful when making decisions related to learning and teaching issues in their institutions.

Collaborative Analysis of Student Work Georgea M. Langer, Amy B. Colton, Loretta S. Goff, 2003 When teachers get together and apply their combined knowledge and experience to the challenges of teaching and learning, amazing things can happen. In this book, you will find out how to set up collaborative analysis of student work in your school. Developed and refined with more than 100 elementary and secondary teachers, this adaptable system combines the best of action research, study groups, standards-based learning, student assessment, teacher reflection, and portfolio assessment. The authors guide you through each component with concrete, detailed descriptions and

authentic examples You ll learn ideas for setting up effective study groups strategies for documenting students progress toward learning standards methods for reflecting on professional growth ways to share the benefits with colleagues and students This system of professional inquiry challenges you to examine your beliefs about what students can do and helps you identify which teaching methods are working most successfully You and your colleagues can acquire deeper insight into the link between your instruction and each student s learning and enhance your ability to help every student succeed
