Reform And Revolution In Communist Systems:

Reform and Revolution in Communist Systems Gary K. Bertsch, 1991 From Reform to Revolution Minxin PEI, Minxin Pei, 2009-06-30 This is the first comprehensive effort to compare the recent political experiences of the Union of Soviet Socialist Republics and the People's Republic of China by tracing their overlapping and diverging paths of regime change Radicalism and Education Reform in 20th-Century China Suzanne Pepper, 2000-07-10 The first comprehensive book to cover the whole sweep of twentieth century Chinese education **From Reform to Revolution** Minxin Pei, 1994 The author concludes with provocative statements about regime transition from communism He rejects the idealistic notion that democratization can by itself remove the structural obstacles to economic transformation and he sees high economic and political costs as unavoidable in transition from communism along either the Soviet or the Chinese path *Christian Democracy and the Fall of Communism* Michael Gehler, Piotr H. Kosicki, Helmut Wohnout, 2019-11-20 Debates on the role of Christian Democracy in Central and Eastern Europe too often remain strongly tied to national historiographies With the edited collection the contributing authors aim to reconstruct Christian Democracy's role in the fall of Communism from a bird's eye perspective by covering the entire region and by taking third way options in the broader political imaginary of late Cold War Europe into account The book's twelve chapters present the most recent insights on this topic and connect scholarship on the Iron Curtain's collapse with scholarship on political Catholicism Christian Democracy and the Fall of Communism offers the reader a two fold perspective The first approach examines the efforts undertaken by Western European actors who wanted to foster or support Christian Democratic initiatives in Central and Eastern Europe The second approach is devoted to the re emergence of homegrown Christian Democratic formations in the 1980s and 1990s One of the volume's seminal contributions lies in its documentation of the decisive role that Christian Democracy played in supporting the political and anti political forces that engineered the collapse of Communism from within between 1989 and 1991

The Great Wave David Hackett Fischer, 1996 Fischer has examined price records in many nations and finds that great waves of rising prices in the 13th 16th 18th and 20th centuries were all marked by price swings of increasing volatility falling wages a growing gap between rich and poor and an increase in violent crime family disintegration and cultural despair 109 graphs charts 7 maps China's Development Challenges Richard Schiere, 2009-12-21 This book argues that a major potential source of social tension in transition and developing countries is not poverty as such but vulnerability to poverty the risk of becoming poor It demonstrates how in China many recent public sector reforms have made many households extremely vulnerable to poverty **The Capitalist Transformation of State Socialism** David Lane, 2013-11-20 David Lane outlines succinctly yet comprehensively the development and transformation of state socialism While focussing on Russia and the countries of Eastern Europe he also engages in a discussion of the Chinese path In response to the changing social structure and external demands he outlines different scenarios of reform He contends that European state socialism

did not collapse but was consciously dismantled He brings out the West's decisive support of the reform process and Gorbachev's significant role in tipping the balance of political forces in favour of an emergent ascendant class In the post socialist period he details developments in the economy and politics He distinguishes different political and economic trajectories of countries of the former USSR the New Member States of the European Union and China and he notes the attempts to promote further change through coloured revolutions The book provides a detailed account not only of the unequal impact of transformation on social inequality which has given rise to a privileged business and political class but also how far the changes have fulfilled the promise of democracy promotion wealth creation and human development Finally in the context of globalisation the author considers possible future political and economic developments for Russia and China Throughout the author a leading expert in the field brings to bear his deep knowledge of socialist countries draws on his research on the former Soviet Union and visits to nearly all the former state socialist countries including China

Rebellions and Revolutions Jack Gray, 2003-04-03 This is a study of China from the 1800s to the present day It focuses on China's problems of development the decay and collapse of the Chinese Empire its failure to recover in the first half of the twentieth century and its rapid emergence in world affairs since the Communist Party Revolution of 1949 This new edition examines economic growth updates Chinese foreign policy provides a revised account of the Tiananmen Incident and brings the chronology completely up to date

Democratization and Revolution in the USSR, 1985-91 Jerry F. Hough, 1997-05-01 Democratization and Revolution in the USSR 1985-91 presents a strikingly new view of the Gorbachev era and the reasons for the collapse of the Soviet Union Written by one of America's most distinguished specialists on the former Soviet Union this is the first comprehensive overview of the Gorbachev period and describes it as a real revolution not mere reform According to Hough despite Mikhail Gorbachev's talk of a regulated market he never understood that a market must be created on a solid institutional and legal base He was determined to use democratization to free himself from party control but he saw democracy as a way of achieving near universal consensus not a mechanism for forcing through difficult choices The many memoirs that have become available in the last few years including those of Gorbachev himself show that Premier Nikolai Ryzhkov and the bureaucrats in his government actually were the serious economic reformers in the leadership Gorbachev opposed the key transitional steps at every stage and was far closer to the assumptions of shock therapy than he or his opponents ever recognized Hough explains that Gorbachev was not alone in thinking that the destruction of old institutions was enough to unleash a market Westerners also talked of leaping a chasm in a single jump as if democratic and market institutions existed pre-created on the other side But precisely because Gorbachev and later Boris Yeltsin was encouraged in all his worst mistakes by Western advice his failure has crucial implications for Western thinking about the process of democratization and marketization This unprecedented book explores those implications in depth Selected by Choice as an Outstanding Book for 1998
