Reformation And Rural Society The Parishes Of Brandenburg Ansbach Kulmbach 1528 1603:

The Reformation and Rural Society C. Scott Dixon, 2002-05-02 What was the effect of the Reformation movement on the parishioners of the German countryside This book examines the reform movement at the level of its implementation the rural parish Investigation of the Reformation and the sixteenth century parish reveals the strength of tradition and custom in village life and how this parish culture obstructed and frustrated the efforts of the Lutheran reformers The Reformation was not passively adopted by the rural inhabitants On the contrary the parishioners manipulated the reform movement to serve their own ends Parish documentation reveals that the system of parish rule diffused the disciplinary aims of the church and rendered the pastors impotent A look at parish beliefs suggests that the nature of parish thought worked to undermine the main tenets of the Lutheran faith and that the legacy of the Reformation was a dialogue between these two realms of experience

The Reformation World Andrew Pettegree, 2000 The most ambitious one volume survey of the Reformation yet this book is beautifully illustrated throughout The strength of this work is its breadth and originality covering the Church art Calvinism and Luther

The Hybrid Reformation Christopher Ocker, 2022-09-22 Three basic forces dominated sixteenth century religious life Two polarized groups Protestant and Catholic reformers were shaped by theological debates over the nature of the church salvation prayer and other issues These debates articulated critical group defining oppositions Bystanders to the Catholic Protestant competition were a third force Their reactions to reformers were violent opportunistic hesitant ambiguous or serendipitous much the way social historians have described common people in the Reformation for the last fifty years But in an ecology of three forces hesitations and compromises were natural not just among ordinary people but also if more subtly among reformers and theologians In this volume Christopher Ocker offers a constructive and nuanced alternative to the received understanding of the Reformation Combining the methods of intellectual cultural and social history his book demonstrates how the Reformation became a hybrid movement produced by a binary of Catholic and Protestant self definitions by bystanders to religious debate and by the hesitations and compromises made by all three groups during the religious controversy

Between Opposition and Collaboration Richard Ninness, 2011-09-09 This study of the Catholic Prince Bishopric of Bamberg and its largely Protestant aristocracy demonstrates that shared family ties and traditional privilege could reduce religious based conflict These findings raise fundamental questions about current interpretations of the Reformation era Prince bishops regularly appointed Lutheran nobles to administrative positions and those Lutheran appointees served their Catholic overlords ably and loyally Bamberg was a center for social interaction business transactions and career opportunities for aristocrats As these nobles saw it birthright and kinship ties made them suitable for service in the prince bishopric Catholic leaders concurred confessional differences notwithstanding This study tells the complicated story of how Lutheran nobles and their Catholic relatives struggled to maintain solidarity and cooperation during an era of religious strife and animosity

The Protestant Clergy of Early Modern Europe C.

Dixon, Luise Schorn-Schütte, 2003-10-14 The Protestant Clergy of Early Modern Europe provides a comprehensive survey of the Protestant clergy in Europe during the confessional age Eight contributions written by historians with specialist research knowledge in the field offer the reader a wide ranging synthesis of the main concerns of current historiography Themes include the origins and the evolution of the Protestant clergy during the age of Reformation the role and function of the clergy in the context of early modern history and the contribution of the clergy to the developments of the age the making of confessions education the reform of culture social and political thought *The Saved and the Damned* Thomas Kaufmann, 2023 Leading scholar Thomas Kaufmann argues that the main motivations behind the Reformation rest in religion itself the Reformers were concerned with the salvation of the soul **Christianity and Sexuality in the Early Modern World** Merry Wiesner-Hanks, 2014-05-22 The book surveys the ways in which Christian ideas and institutions shaped sexual norms and conduct from the time of Luther and Columbus to that of Thomas Jefferson It is global in scope and geographic in organization with chapters on Protestant Catholic and Orthodox Europe Latin America Africa and Asia and North America All the key topics are covered including marriage and divorce fornication and illegitimacy clerical sexuality same sex relations witchcraft and love magic moral crimes and inter racial relationships Each chapter in this second edition has been fully updated to reflect new scholarship with expanded coverage of many of the key issues particularly in areas outside of Europe Other updates include extra analysis of the religious ideas and activities of ordinary people in Europe and new material on the colonial world The book sets its findings within the context of many historical fields the history of sexuality and the body women s history legal and religious history queer theory and colonial studies and provides readers with an introduction to key theoretical and methodological issues in each of these areas Each chapter includes an extensive section on further reading surveying and commenting on the newest English language secondary literature **Communal Christianity** David Mayes, 2021-10-25 David Mayes proposes a new religious paradigm in early modern rural Germany Communal Christianity the religious practice prevalent among peasants in mid sixteenth century rural Upper Hesse is juxtaposed with the more formally organized Confessional sects e g Lutheran Calvinist The author describes Communal Christianity s characteristics and persistence in the face of attempts at confessionalization during the period of 1576 1648 and links its success in part to the decree of the 1555 Religious Peace of Augsburg that only one confessionalized Christian sect be officially recognized in a territory Confessional sects became marginalized and more locally well established peasant communes retained power The 1648 Peace of Westphalia encouraged reconciliation of confessionalized Christian sects paradoxically spurring the decline of Communal Christianity in certain locales **Early Modern European Society** Henry Kamen, 2005-07-28 Drawing together common features of society from a range of different contexts throughout Europe from Italy and Spain to Poland and Russia Early Modern European Society surveys the sweeping changes affecting Europe from the end of the fifteenth century to the early decades of the eighteenth century Henry Kamen includes discussion on European identities frontiers and language

leisure work and migration religion ritual and witchcraft the aristocracy the bourgeoisie and the poor gender roles social discipline and absolutism **Church Robbers and Reformers in Germany, 1525-1547** Christopher Ocker, 2006-07-01

This is a study of the religious controversy that broke out with Martin Luther from the vantage of church property The controversy eventually produced a Holy Roman Empire of two churches This is not an economic history Rather the book shows how acceptance of confiscation was won and how theological advice was essential to the success of what is sometimes called a crucial if early stage of confessional state building It reviews the character of sacred property in the late Middle Ages surveys confiscations in Reformation Germany on illustrative examples summarizes the League of Schmalkalden s defense of confiscations systematically studies theological memoranda that shaped a common policy in the League and shows the role of that common position in religious politics
