Goodwin-Gill, Jane McAdam, Emma Dunlop, 2021 Millions of people are today forced to flee their homes as a result of conflict systematic discrimination or other forms of persecution The core instruments on which they must rely to secure international protection are the 1951 Convention Relating to the Status of Refugees and its 1967 Protocol This book the leading text in the field examines key challenges to the Convention such as the status of refugees applications for asylum and the international and domestic standards of protection The situation of refugees is one of the most pressing and urgent problems facing the international community and refugee law has grown in recent years to a subject of global importance In this long awaited fourth edition each chapter has been thoroughly revised and updated and every issue old and new has received fresh analysis The books includes analysis of internally displaced persons so called preventive protection access to refugees safety of refugees and relief personnel the situation of refugee women and children a detailed examination of the role of the UNHCR and the Palestinian situation and an assessment of the protection possibilities or lack of them in the European Convention on Human Rights This new edition has been expanded with coverage of forced migration and displacement as a result of disasters and climate change It is once again an unmissable reference work for practitioners and students in the field *The Rights of Refugees under International Law* James C. Hathaway, 2005-09-15 This book presents the first comprehensive

analysis of the human rights of refugees as set by the UN Refugee Convention In an era where States are increasingly challenging the logic of simply assimilating refugees to their own citizens questions are now being raised about whether refugees should be allowed to enjoy freedom of movement to work to access public welfare programs or to be reunited with family members Doubts have been expressed about the propriety of exempting refugees from visa and other immigration rules and whether there is a duty to admit refugees at all Hathaway links the standards of the UN Refugee Convention to key norms of international human rights law and applies his analysis to the world s most difficult protection challenges This is a critical resource for advocates judges and policymakers It will also be a pioneering scholarly work for graduate students of international and human rights law

UNHCR and International Refugee Law Corinne Lewis, 2012-06-25 This book considers the United Nations High Commissioner for Refugees contribution to international refugee law since the establishment of UNHCR by the United Nations General Assembly in 1951 The book explores the historical and statutory foundations that create an indelible link between UNHCR and international refugee law This book charts the significant evolution that has occurred in the organisation s role throughout the last sixty years looking at both the formal means by which UNHCR s mandate may be modified and the techniques UNHCR has used to facilitate the changes in its role thereby revealing a significant evolution in the organisation s role since the onset of the crisis in refugee protection in the 1980 s UNHCR itself has demonstrated its organizational autonomy as the primary agent for the adaptation of its responsibilities and work related to international refugee law The author does suggest however that UNHCR needs to continue to extend and strengthen its role related to international refugee law if UNHCR is to ensure a stronger legal framework for the protection of refugees as well as a fuller respect for refugees rights in practice UNHCR and International Refugee Law should be of particular interest to refugee lawyers as well as academics and students of refugee law and international law and anyone concerned with the important role that UNHCR plays in the protection of refugees today

Asylum and International Law S.Prakash Sinha, 2013-12-01

International Refugee Law H?ne Lambert, 2017-07-05 The essays selected and reproduced in this volume explore how international refugee law is dynamic and constantly evolving From an instrument designed to protect mostly those civilians fleeing the worse excesses of World War II the 1951 Refugee Convention has developed into a set of principles customary rules and values that are now firmly embedded in the human rights framework and are applicable to a far broader range of refugees In addition international refugee law has been affected by international humanitarian law and international criminal law and vice versa Thus there is a reinforcing dynamic in the development of these complementary areas of law At the same time in recent decades states have shown a renewed interest in managing migration thereby raising issues of how to reconcile such interests with refugee protection principles In addition the emergence of concepts of participation and responsibility to protect promise to have an impact on international refugee law

Refugee Protection in International Law Erika Feller, Volker Türk, Frances Nicholson, 2003-06-26 Millions of people are forced today to flee

persecution The core international legal instrument on which they must rely to find safety is the 1951 Convention Relating to the Status of Refugees This book examines key challenges the Convention faces on the basis of nine papers by eminent international refugee lawyers which were then discussed at an expert roundtable meeting in 2001 as part of UNHCR's Global Consultations on International Protection The papers are published here in one volume together with the conclusions of the roundtables and other documents

Refuge from Inhumanity? War Refugees and International Humanitarian Law

David Cantor, Jean-François Durieux, 2014-07-10 This book contributes to a long standing but ever topical debate about whether persons fleeing war to seek asylum in another country war refugees are protected by international law It seeks to add to this debate by bringing together a detailed set of analyses examining the extent to which the application of international humanitarian law IHL may usefully advance the legal protection of such persons This generates a range of questions about the respective protection frameworks established under international refugee law and IHL and specifically the potential for interaction between them As the first collection to deal with the subject the eighteen chapters that make up this unique volume supply a range of perspectives on how the relationship between these two separate fields of law may be articulated and whether IHL may contribute to providing refuge from the inhumanity of war

The 1951 Convention Relating to the Status of Refugees and Its 1967 Protocol Andreas Zimmermann, Jonas Dörschner, Felix

Machts, 2011-01-27 this work is intended to provide an in depth analysis of each and every provision of the 1951 Convention and its 1967 Protocol Special contributions on topics that cut across various provisions or that provide an overview over developments in certain regions of the world complement this Commentary

Refugee Protection and the Role of Law

Susan Kneebone, Dallal Stevens, Loretta Baldassar, 2014-06-27 Sixty years on from the signing of the Refugee Convention forced migration and refugee movements continue to raise global concerns for hosting states and regions for countries of origin for humanitarian organisations on the ground and of course for the refugee This edited volume is framed around two themes which go to the core of contemporary refugeehood protection and identity It analyses how the issue of refugee identity is shaped by and responds to the legal regime of refugee protection in contemporary times The book investigates the premise that there is a narrowing of protection space in many countries and many highly visible incidents of refoulement It argues that Protection which is a core focus of the Refugee Convention appears to be under threat as there are many gaps and inconsistencies in practice Contributors to the volume who include Erika Feller Elspeth Guild Helle Lambert and Roger Zetter look at the relevant issues from the perspective of a number of different disciplines including law politics sociology and anthropology The chapters examine the link between identity and protection as a basis for understanding how the Refugee Convention has been and is being applied in policy and practice The situation in a number of jurisdictions and regions in Europe North America South East Asia Africa and the Middle East is explored in order to ask the question does jurisprudence under the Refugee Convention need better coordination and how successful is oversight of the Convention
