Refugees and the Asylum Dilemma in the West Gil Loescher, 2010-11-01

Africans on the Move Fasil Demissie, 2016-03-17 The 20th century witnessed the large

scale displacement and dispersal of populations across the world because of major political upheavals among them the two European wars decolonization and the Cold War These major events were followed by globalization which accelerated free trade and the mobility of capital new technologies of communication and the movement of people commodities ideas and cultures across the world This book explores the complexity of African migration and diaspora the discourse of diaspora engagement and new models of citizenship and transnationalism in the context of these issues This book was originally published as a special issue of African and Black Diaspora An International Journal *The UNHCR and World Politics* Gil Loescher, 2001-05-25 Over fifty years ago governments established the Office of the United Nations High Commissioner for Refugees UNHCR to protect the world's refugees The UNHCR was created to be a human rights and advocacy organization But governments also created the agency to promote regional and international stability and to serve the interests of states Consequently the UNHCR has always trod a perilous path between its mandate to protect refugees and asylum seekers and the demands placed upon it by states to be a relevant actor in world politics This is the first independent history of the UNHCR Gil Loescher one of the world's leading experts on refugee affairs draws upon decades of personal experience and research to examine the origins and evolution of the UNHCR as well as to identify many of the major challenges facing the organization in the years ahead A key focus is to examine the extent to which the evolution of the UNHCR has been framed by the crucial events of international politics during the past half century and how in turn the actions of the eight past High Commissioners have helped shape the course of world history Each chapter tells the story of an individual High Commissioner and examines the unique contributions made to the development of the Office The history of the last fifty years shows how the UNHCR has initiated and capitalized on international political developments to progressively expand its scope and authority as an important actor in world politics The book argues that the UNHCR has overstretched itself in recent decades and has strayed from its central human rights protection role The protection of refugees remains a litmus test of the international community's commitment to defend human rights and to uphold liberal democratic values Loescher offers a series of bold policy recommendations aimed at making the agency a more effective and accountable advocate for the millions of refugees in the world today *Migrant Health and Resilience* Peter H. Koehn, Phyllis Bo-Yuen Ngai, Juha I. Uitto, Diana M. Diaków, 2023-07-31 In an era of escalating conflict induced and climate induced migration and cross border interaction transnational competence TC preparation for displaced persons members of their host communities humanitarian responders and health care professionals is increasingly critical Building on insights from those engaged with a range of humanitarian crises and global justice contexts along with multidisciplinary research findings this cutting edge volume provides practical guidelines for preparing stakeholders for effective short term and long term responses to challenges arising in the wake of population dislocation generated by armed conflict persecution and climate change Addressing the need to equip humanitarian care givers and care receivers with valuable skills for working together across barriers and

boundaries the guidance presented in the book enables educators trainers and field based multinational and local responders to enhance and evaluate the quality and sustainability of humanitarian efforts that promote and bolster resilience and belonging and augment well being justice and sustainable development It features comprehensive TC teaching and learning strategies coupled with tailored on site and remote approaches and methods Authoritative and insightful Migrant Health and Resilience will be essential reading for the staff of NGOs international organizations national and local governments and professional bodies working in development and humanitarian crisis contexts as well as for students higher education instructors scholars and evaluators

Running on Empty

Michael J. Molloy,Peter Duschinsky,Kurt F. Jensen,Robert J. Shalka,2017-06-01 A powerful history of how Canada rescued 70 000 Indochinese refugees between 1975 and 1980

Biopolitics, Militarism, and Development David O'Kane,Tricia M.

Redeker Hepner,2009 Bringing together original contemporary ethnographic research on the Northeast African state of Eritrea this book shows how biopolitics the state led deployment of disciplinary technologies on individuals and population groups is assuming particular forms in the twenty first century Once hailed as the African country that works Eritrea s apparently successful post independence development has since lapsed into economic crisis and severe human rights violations This is due not only to the border war with Ethiopia that began in 1998 but is also the result of discernible tendencies in the high modernist style of social mobilization for development first adopted by the Eritrean government during the liberation struggle 1961 1991 and later carried into the post independence era The contributions to this volume reveal and interpret the links between development and developmentalist ideologies intensifying militarism and the controlling and disciplining of human lives and bodies by state institutions policies and discourses Also assessed are the multiple consequences of these policies for the Eritrean people and the ways in which such policies are resisted or subverted This insightful comparative volume places the Eritrean case in a broader global and transnational context
